The Zen Leader Ginny Whitelaw,2012-04-22 A guide to using pressure to be a better leader through principles of Zen Buddhism. Leaders today face nearly impossible tasks. Forced to do more with less, expand globally, innovate quickly, inspire broadly and—oh, yes—balance work and family. How can one manage all this pressure? The Zen Leader does not encourage you simply to “be peaceful.” Neither does it suggest you work harder, faster, or ignore the pressure. Quite the opposite: it’s about using the pressure to propel “flips” in consciousness that create transformational leaders, leaders who create the future with joy and enthusiasm, rather than drive themselves and their people to exhaustion. The Zen Leader guides you through ten “flips” that take you from barely managing to mastering change—not by doing more, zoning out, or pretending you have all the answers. Chapter by chapter, you’ll learn how to make the “flips” that reframe your life, your leadership, and your

world. Discover how you can get out of your own way and realize the Zen Leader in you. Praise for The Zen Leader “The Zen Leader provides a calm and reassuring voice—telling us what is important about leadership and about ourselves. She distills leadership to its essence, and offers simple, easily understandable tools for any current or aspiring leader to understand, use, and build on his or her own natural gifts.” —David Dotlich, chairman of Pivot and coauthor of *Why CEOs Fail*; *Head, Heart, and Guts*; and other books on leadership “The chapter entitled “From Controlling to Connecting” will change how you interact with others, and will enrich your life. You will see the vision of what you want our world to be and help strengthen the business connections we all need.” —Blythe McGarvie, author of *Shaking the Globe* “Before you can effectively lead others, you must be able to control yourself first. Dr. Whitelaw invites us on a journey of self-discovery using easy-to-follow exercises. By learning to experience for yourself the power of a unified mind and body, you will begin to taste your full potential.” —David Shaner, author of *The Seven Arts of Change*

Capone Bloodline Tom Belton, 2014 Al Scar Face Capone, head of the Chicago Crime Family, was born in Brooklyn in 1898 and moved to Chicago when he was eighteen years old in 1916. Allegedly, Al Capone orchestrated the February 14th, 1929 St. Valentine's Day Massacre. Some say it was the most notorious mass murder of the 20th Century. Al Capone head of the Boston Capone Family was born in Avellino Italy in 1895 and came to America through Ellis Island, New York in 1913 when he was eighteen years old. The family settled in the North End of Boston. Albert Frank Capone of Boston was allegedly first cousin to Al and Frank Capone of Chicago. Capone, was grateful to have brought his .45mm automatic pistol to the Sherwood Boston Hotel that day in June 1973. His father had always told him to make sure he landed the first punch in a fight. Actually, he said, Make sure you cold cock the bastard with the first punch and then run like hell before he knows what hit him. Upon entering the hotel garage, Capone's reaction came instinctively. A potential armed robber, brandishing a firearm, stepped out from behind a pillar, and demanded his money. There was no time to weigh the pros and cons of taking him out. The man had already produced his weapon, making Capone's decision for him. What might have happened, however, suddenly took a twist. Capone pulled out his

weapon a moment too late, giving the robber a momentary edge. Maybe it was complacency, or maybe it was stupidity, but the would-be-robber had neglected to disengage the safety on his weapon. In that instant Capone closed the distance between them. Who knew how many times he had robbed before? Tonight he had selected the wrong target. The taste of bile formed a lump in Capone's throat as he contemplated what might have been...

The Type B Manager Victor Lipman,2015-08-04 In The Type B Manager, Victor Lipman offers a unique lens through which to view the challenging problems of management. While management has long been considered the realm of Type A individuals—hard-driving, competitive high achievers—all too often these high-intensity traits aren't effective when it comes to motivating your employees. Many characteristics of Type B individuals—being more relaxed, less competitive, more reflective, slower to anger—can be considered “people skills” that better influence motivation and productivity. And successful management after all is the practice of accomplishing work through other people. In a business landscape where 70 percent of employees are disengaged and not working at full productive capacity, Lipman focuses on practical tactical aspects of management viewed through a Type B lens, including: · Motivating and developing employees · Handling conflict, and · Engendering trust and respect He examines specific skills, behaviors, and situations where a Type B mindset is advantageous and suggests ways that self-described Type A managers can boost their effectiveness by adopting Type B approaches—and vice versa.

based on the direct digital
frequency synthesis ddfs
principle but implemented in
software onto a floating point
dsp processor such as the sharc
processor a reasonably fast
floating point dsp will meet real
