**Promise Me Forever** Paige Weaver,2015-12-27 From the highly acclaimed New York Times, USA Today, and international bestselling author, Paige Weaver, comes the epic conclusion of her fourth book, Promise Me Once... In the weak, there is strength. In despair, there is hope. My world was dark. Survival was tough. But the end of the world saved me. It taught me to love. To go on living. In its darkness, I found myself. In its bleakness, I found hope. I wasn't the girl I used to be. I was stronger. I was with the man I loved. The cowboy with a quiet presence who took what he wanted, including me. He showed me love and gave me strength. He touched me and I was never the same. I didn't want to love him but I couldn't resist. I was his. But the world was trying to tear us apart. Love may save us or it may be our destruction. We may die for it or sacrifice everything to keep it. The choice will not be simple. Live or die. Love or lose. I was about to find out which one...

*Priorities in Space Science Enabled by Nuclear Power and Propulsion* National Research Council,Division on Engineering and Physical Sciences,Aeronautics and Space Engineering Board,Space Studies Board,Committee on Priorities for Space Science Enabled by Nuclear Power and Propulsion,2006-03-20 In 2003, NASA began an R&D effort to develop nuclear power and propulsion systems for solar system exploration. This activity, renamed Project Prometheus in 2004, was initiated because of the inherent limitations in photovoltaic and chemical propulsion systems in reaching many solar system objectives. To help determine appropriate missions for a nuclear power and propulsion capability, NASA asked the NRC for an independent assessment of potentially highly meritorious missions that may be enabled if space nuclear systems became operational. This report provides a series of space science objectives and missions that could be so enabled in the period beyond 2015 in the areas of astronomy and astrophysics, solar system exploration, and solar and space physics. It is based on but does not reprioritize the findings of previous NRC decadal surveys in those three areas.
