**Strange Phenomena; a Sourcebook of Unusual Natural Phenomena ,1974**

*New Realities of the Twenty-first Century, Part 1* Prophet Wildman, 2017-02-07 *New Realities of the Twenty-first Century, Part 1* by Prophet Wildman The psychic/parapsychic experience in the supernatural is one that is not readily understood or accepted by the masses. After enjoying the gift of psychic future predictive awareness for more than fifty years, Prophet Wildman had a deep understanding of the psychic and parapsychic experience. However, it wasn't until 2008 when he began receiving Holy subject (Tribulation) awareness as a precognitive psychic medium that he really began to delve deeper into this relatively unknown subject and explore psychic and parapsychic experiences as they related to the supernatural and Christianity. Prophet Wildman wows his readers with first-hand experiences, both from the perspective of being Christian and of being a psychic medium, while also providing a comprehensive dissection and decoding of the Tribulation event as it relates to the prophecy. Wildman's deeply personal experiences, along with factual statements and others' first-hand experiences, provide the reader with a comprehensive read that will strengthen one's faith in Christ and Christianity, while opening up rarely explored doors to the supernatural, psychic and parapsychic worlds. Explore the unknown with Prophet Wildman as he weaves his unwavering Christian beliefs with everything from extraterrestrials and ultraterrestrials to vampires, U.F.O.s, and government cover-ups. An open mind and a strong religious conviction are all that's needed to begin searching and discovering some of the biggest mysteries of our time.

**Paranormal Phenomena** Conrad Bauer,2015-11-04 Fascinating, terrifying, and unexplained...these paranormal phenomena will leave you mystifiedIt is no wonder that we are all drawn to the world of the paranormal. The need to research and delve deeper into the unexplained is a tendency which unites and joins humanity as a culture. This has always been the case, from the earliest ghost stories to tales of dragons and sea monsters. Since the turn of the Twentieth Century, modern technology and science have pushed back the boundaries of explanation and shed new light on old secrets. Nevertheless, this does not mean that everything in our world is easily explained. Instead, the new abundance of information simply pushes the barriers of the unknown even further back. While we might be able to explain one instance of paranormal phenomena, two more spring up in its place. Like the heads of the Hydra, every new discovery and explanation simply prompts a fresh wave of paranormal phenomena opening up new fascinations and new mysteries.Inside learn the details about these fascinating unexplained phenomena:\* The mothman;\* The dopplegägers;\* The Taos hum;\* The chupacabra;\* The Miracle of the Sun;\* Time slips\* Human

combustion;\* Alien encounters.Curious? Scroll back up and order your copy today!

**Unexplained Phenomena** Max Mason Hunter,2016-06-02 Stories And Accounts Of Some Of The Most Strange And Intriguing Unexplained Phenomena There are things that occur in this world- and have happened right through the whole of the human experience- for which there has never been a rational explanation. Remember, explanations are just temporary, going on and off in response to fads and fashions. However, the happenings they are supposed to explain carry on as mysteriously as ever. Yet mysterious phenomena are also to a certain extent influenced by imagination. For instance, clusters of living toads and hibernating swallows impressed into rocks, regularly recorded by naturalists, seem to have died out. Mariners, these days, hardly ever witness sea monsters and giant octopuses. Rings of dancing fairies, once a common folklore belief, are now rare. To make up for these temporary losses, other kinds of weird and unexplained phenomena have come up in this modern age- UFO sightings, mutilations of cattle and horses, the phenomenon of crop circles etc. Having said that, the standard mysteries, those which have perplexed humanity from the very beginning, continue to do so. Strange creatures and things fall, at times slowly, from rather unknown sources; people walk over glowing trenches of hot coals, encounter monsters in mountains and lakes and are subject to strange coincidences...

**World of Strange Phenomena** Charles Berlitz,1995 This edition brings together three volumes of Berlitz's intriguing phenomena, Mysterious and Incredible Facts, Strange People and Amazing Stories and The Odd and the Awesome. This volume contains many amazing stories such as a doctor who drilled a hole in his own head but survived.

**Strange Phenomena** ,1977

The Unexplained Jerome Clark,2001

**Unnatural Phenomena** Jerome Clark,2005-06-21 Organized geographically, *Unnatural Phenomena: A Guide to the Bizarre Wonders of North America* explores the history of natural phenomena in virtually every U.S. state. Can the sky quake? Can sand play music? Have UFOs been sighted in your town? *Unnatural Phenomena* crosses the centuries and travels America to chronicle the strangest natural phenomena, the most bizarre scientific findings, and events from history that defy rational explanation. Conveniently organized by region, state, and locality, this one-volume, illustrated encyclopedia maps a landscape straight out of *The Twilight Zone*. From apparitions in the sky to inhuman skeletons rising from the earth—and everything in between—Jerome Clark, expert on strange phenomena and author of *ABC-CLIO's Extraordinary Encounters: An Encyclopedia of Extraterrestrials and Otherworldly Beings*, sifts through the legends, the hoaxes, and the science. Authoritatively researched, the entries in *Unnatural Phenomena* will expand the most skeptical reader's sense of the possible. The truth is out there ... the evidence is in here.

**Critical Thinking** Jonathan C. Smith,2017-07-26 Comprehensive and engaging, this extensively revised edition of a student and instructor favorite introduces the basics of critical thinking using the claims of pseudoscience and the paranormal. Guides readers through the critical thinking process by considering different types of support (sources, logic, and scientific observation) and ruling out alternative explanations. Allows students to practice and apply their new critical thinking skills on claims of extraordinary cures

including energy treatments, complementary/alternative medicine and faith healing as well as four paranormal claims of consequence: astrology, spiritualism and the afterlife, parapsychology, and creationism. Couples a conversational, nontechnical narrative with student-friendly pedagogical tools, including critical thinking questions and a study guide for each chapter. Provides clear and open-minded discussions of the paranormal spectrum, belief justification surveys, the placebo effect, and the relationship between religion and critical thinking

**Bizarre Phenomena and Unexplained Mysteries** Peter Henshaw, 2011-12-15 From things that go bump in the night to strange sights in the midnight sky, the supernatural will always intrigue us. Yet, aside from the popular stories of ghosts, alien sightings, and werewolves, bizarre phenomena and the unexplained has a stronger grip on our imaginations due to its mystery. This intriguing volume whets the appetite of fans of the supernatural with tales of the unexplained, their origins, and why they continue to have an effect on people of all ages.

**The Outline of Parapsychology** Jesse Hong Xiong, 2010 This is a work of systematic parapsychology. The book aims to construct a framework and system of parapsychology, taking a comprehensive approach to the field. The Outline of Parapsychology states that parapsychology has a different philosophical background from the existing science and religions, and posits that pantheism could be the theoretical basis of parapsychology. The book also integrates parapsychology with oriental philosophies and New Age movement thought.
