Strategy Maps ,2002

Strategy Maps Robert S. Kaplan,David P. Norton,2004 The authors of The Balanced Scorecard and The Strategy-Focused Organization present a blueprint any organization can follow to align processes, people, and information technology for superior performance.

Strategy Maps Converting Intangible Assets Into Tangible Outcomes ,

Strategy Maps Robert S. Kaplan,David P. Norton,2003-12-16 More than a decade ago, Robert S. Kaplan and David P. Norton introduced the Balanced Scorecard, a revolutionary performance measurement system that allowed organizations to quantify intangible assets such as people, information, and customer relationships. Then, in The Strategy-Focused Organization, Kaplan and Norton showed how organizations achieved breakthrough performance with a management system that put the Balanced Scorecard into action. Now, using their ongoing research with hundreds of Balanced Scorecard adopters across the globe, the authors have created a powerful new tool--the strategy map--that enables companies to describe the links between intangible assets and value creation with a clarity and precision never before possible. Kaplan and Norton argue that the most critical aspect of strategy--implementing it in a way that ensures sustained value creation--depends on managing four key internal processes: operations, customer relationships, innovation, and regulatory and social processes. The authors show how companies can use strategy maps to link those processes to desired outcomes; evaluate, measure, and improve the processes most critical to success; and target investments in human, informational, and organizational capital. Providing a visual aha! for executives everywhere who can't figure out why their strategy isn't working, Strategy Maps is a blueprint any organization can follow to align processes, people, and information technology for superior performance.

The Minister's MBA George S. Babbes,Michael Zigarelli,2006 Equips ministers with essential business tools to manage and grow their churches and organizations.

The Practice of Making Strategy Fran Ackermann,Colin Eden,Ian Brown,2005 This is a user-friendly and extremely accessible text to guide students through the series of possible steps in strategy making.

Visible Thinking John M. Bryson,Fran Ackermann,Colin Eden,Charles B. Finn,2004-08-20 Causal mapping is a tool that enables you to make sense of challenging situations so that you can get more out of them. A causal map is a word and arrow diagram in which ideas and actions are causally linked with one another through the use of arrows. Typically, only specialists such as physical or social scientists and operations researchers know about causal mapping and the tool is therefore not widely known or its broad applicability understood. Until now there has been no guidance available on how to make use of the tool for more general purposes. This book lets managers understand the theory and practice of causal mapping in layman's terms for use in both individual and group settings. It shows managers how to develop and use action-oriented strategy maps and logic models in business decision making. The authors show how causal mapping can be used as a tool to make sense of challenging situations and develop effective business responses.

Making Strategy Fran Ackermann,Colin Eden,2011-09-19 Electronic Inspection Copy available for instructors here 'Demystifies strategy making while at the same time deepening our understanding of what the process entails. Their work is a marvellous guide for those striving to make sense of complexity' - Karl E. Weick, Rensis Likert Distinguished University Professor of Organizational Behavior and Psychology, University of Michigan 'This book is at the very cutting edge of strategic management theory and yet also of immense practical use. It is truly a rare and stunning achievement' -John M Bryson, McKnight Presidential Professor of Planning and Public Affairs, Hubert H. Humphrey Institute of Public Affairs, University of Minnesota 'Using this book enabled me to facilitate a multicultural team of seven managers so that they very quickly got to grips with the challenges and opportunities facing the organization and developed a realistic workable strategy, whilst at the same time building a real sense of team cohesion and the feeling that individuals had been listened to' -Alison Devine, Director, British Council, Taipei This lucid and highly-accessible text addresses the challenges of how to build a robust and implementable strategy. Strategy making is seen as something relevant to managers of departments, divisions, SME's, as well as the top management teams of public and for-profit organizations. Four key routes to creating a strategy are discussed. These routes, when taken together, provide a powerful means for agreeing a negotiated strategy, and comprise: strategic issue management, agreeing organizational purpose, competitiveness from the exploitation and protection of distinctiveness, and the strategic management of stakeholders. The designs have been used extensively, in a wide range of countries, by management teams in all types of organisations. Companion materials available here

The 30 Day MBA Colin Barrow,2011-08-03 Drawing on the twelve core disciplines of business, including business law, economics, marketing and finance, this second edition of the hugely successful The 30 Day MBA shows you to use key business concepts and tools to assess business decisions and implement strategy. You will be able to create your own Management Information Resource Centre, giving you access to business information on markets and competitors, research data and case studies, as well as hundreds of free business tools to help you carry out analyses. Importantly it will equip you with the knowledge and confidence to take part in strategic decisions alongside MBA graduates. Now including a thorough explanation of the 'break-even' analysis - the tool for making cost, volume, pricing and profit decisions - and case studies detailing economically resilient brands with particular focus on developing countries, The 30 Day MBA, second edition places MBA skills within reach of all professionals and students.

Making Great Strategy Glenn R. Carroll,Jesper B. Sørensen,2021-01-26 Making strategy requires undertaking major—often irreversible—decisions aimed at long-term success in an uncertain future. All leaders must formulate a clear course of action, yet many lack confidence in their ability to think systematically about their strategy. They struggle to apply the abstract lessons offered by conventional approaches to strategic analysis to their unique contexts. Making Great Strategy resolves these challenges with a straightforward, readily applicable framework. Jesper B. Sørensen and Glenn R. Carroll show that one factor underlies all sustainably successful strategies: a logically coherent argument that connects resources, capabilities, and environmental conditions to desired outcomes. They introduce a system for formulating and managing strategy through a set of three core activities: visualization, formalization and logic, and constructive argumentation. These activities can be implemented in any organization and are illustrated through examples and case studies from well-known companies such as Apple, Walmart, and The Economist. This book shows that while great strategic thinking is hard, it is not a mystery. Widely applicable and relevant for managers and leaders at all levels, especially executive teams charged with setting the course of their organizations, it is essential reading for anyone faced with practical problems of strategic management.

The Strategy-focused Organization Robert S. Kaplan,David P. Norton,2001 A Powerful New Approach to Performance Management from the Creators of the Balanced Scorecard In Today's business environment, strategy has never been more important. Yet research shows that most companies fail to execute strategy successfully. Behind this abysmal track record lies an undeniable fact: many companies continue to use management processes-top-down, financially driven, and tactical-that were designed to run yesterday's organizations. Now, the creators of the revolutionary performance management tool called the Balanced Scorecard introduce a new approach that makes strategy a continuous process owned not just by top management, but by everyone. In The

Strategy-Focused Organization, Robert Kaplan and David Norton share the results of ten years of learning and research into more than 200 companies that have implemented the Balanced Scorecard. Drawing from more than twenty in-depth case studies-including Mobil, CIGNA, Nova Scotia Power, and AT and T Canada-Kaplan and Norton illustrate how Balanced Scorecard adopters have taken their ground-breaking tool to the next level. These organizations have used the scorecard to create an entirely new performance management framework that puts strategy at the center of key management processes and systems. Kaplan and Norton articulate the five key principles required for building Strategy-Focused Organizations: (1) translate the strategy to operational terms, (2) align the organization to the strategy, (3) make strategy everyone's everyday job, (4) make strategy a continual process, and (5) mobilize change through strong, effective leadership. The authors provide a detailed account of how a range of organizations in the private, public, and nonprofit sectors have deployed these principles to achieve breakthrough, sustainable performance improvements. Presenting a practical, proven framework steeped in rich case study experience, The Strategy-Focused Organization helps solve a universal management problem-not just how to formulate strategy, but how to make it work. Building on one of the most revolutionary business ideas of our time, this important book shows how today's leaders can shape their own companies to meet the challenges and reap the rewards of a new competitive era.

Fundamentals of Level Three Leadership James G.S. Clawson,2021-06-15 What does it take to become an effective executive? Anyone with that dream goal will want to know the answers to the six questions around which this book is organized: Who are you? What's your strategic story? Can you sell your story? Can you organize to help not hinder? Are you a Change Master? Can you transform intangible asset pools into tangible financial results? For easy apprehension, this unusual volume presents 140 concepts, one per short chapter each with an explanation, examples, visual diagrams, and challenging questions. Participants in 200+ three to five day seminars worldwide (US, Canada, Europe, Africa, Asia, South America and the Middle East) have been energized by these concepts and their applications to their careers and personal lives.

The Execution Premium Robert S. Kaplan,David P. Norton,2008-08-04 In a world of stiffening competition, business strategy is more crucial than ever. Yet most organizations struggle in this area--not with formulating strategy but with executing it, or putting their strategy into action. Owing to execution failures, companies realize just a fraction of the financial performance promised in their strategic plans. It doesn't have to be that way, maintain Robert Kaplan and David Norton in The Execution Premium. Building on their breakthrough works on strategy-focused organizations, the authors describe a multistage system that enables you to gain measurable benefits from your carefully formulated business strategy. This book shows you how to: Develop an effective strategy--with tools such as SWOT analysis, vision formulation, and strategic change agendas Plan execution of the strategy--through portfolios of strategic initiatives linked to strategy maps and Balanced Scorecards Put your strategy into action--by integrating operational tools such as process dashboards, rolling forecasts, and activity-based costing Test and update your strategy--using carefully designed management meetings to review operational and strategic data Drawing on extensive research and detailed case studies from a broad array of industries, The Execution Premium presents a systematic and proven framework for achieving the financial results promised by your strategy.
