Complete Credit Repair Kit Brette McWhorter Sember,2011-11 The Complete Credit Repair Kit was written for the more than three million consumers who are refused credit each year due to inaccurate, incomplete, or out-of-date information in their credit files. With total bankruptcy filings reaching 1.4 million in 2009, this book is a must-have in today's tumultuous economy. This updated edition covers the Credit Card Accountability and Responsibility and Disclosure Act of 2009, a piece of legislation that offers benefits for credit card users and features blank forms and letters on SphinxLegal.com that readers can use to boost their credit scores.

Credit Builder Secrets Jason White,2018-01-17 Credit Builder Secrets is your gateway to better credit. In this book you'll find reasoning, tactics, and strategies to help you improve your credit score up to 200 points! In my profession, I know it all I attempt to tell me or my clients all the time how to fix and improve credit. Often, the myth they share is to just "pay your bills on time" and that will improve your credit score. Little do they know, that's not true. Don't get me wrong, of course paying your bills on time is important, but just paying your bills alone will NOT improve your credit score. In this book, I dispel that myth and share how to really improve a credit score the right way. I don't know about you, but I'm tired of unqualified people giving bad advice. So please do me a favor. If you ever come face to face with one of these loud mouths who try to tell you how to live your life but don't take their own advice, promise me you'll run the opposite way.

Domestic Commerce Series ... United States. Bureau of Foreign and Domestic Commerce. (Dept. of commerce).,1931

In Bed with Wall Street Larry Doyle,2014-01-07 The Wall Street meltdown in 2008 brought the country to its knees, and spawned nationwide protests against the lack of regulation and oversight facing Wall Street. But the average American still fails to fully grasp what was—and still is—happening: that the inmates continue to run the asylum. Doyle has been tracking this story for years through his blog Sense on Cents, and exposes here how Wall Street, our politicians, and the regulators themselves have conspired for personal and industry-wide gains while failing to protect investors, consumers, and the American taxpayer. He details the corrupt nature of Wall Street's financial police, who are little more than meter maids imposing fines that amount to nothing more than a slap on the wrist. He exposes the revolving door of Wall Street, wherein the regulators are all former or future employees of the very firms they're tasked with overseeing, and how they routinely serve the interests of the industry itself rather than protecting investors and markets. Recent bombshells—such as multi-billion dollar trading losses at JP Morgan Chase, the manipulation of interest rates via the LIBOR scandal, and money laundering with North American drug cartels and rogue nations such as Iran—are symptomatic of this corrosive culture and the lack of trust and confidence in the system. As the big banks fight tooth and nail to avoid real reforms that would protect the economy, this book is a timely, important, and shocking look inside the Washington-Wall Street conspiracy crippling America and the global economy.
