Making Documentary Films and Videos Barry Hampe,2007-12-10 Outlines each step in creating documentaries, from conception to final film, and offers advice on capturing human behavior and recreating past events, with advice on how to get started in the field, a section on researching and developing a project, and current resources.

Advances in Computer Science and Information Engineering David Jin,Sally Lin,2012-05-11 CSIE2012 is an integrated conference concentrating its focus on Computer Science and Information Engineering . In the proceeding, you can learn much more knowledge about Computer Science and Information Engineering of researchers from all around the world. The main role of the proceeding is to be used as an exchange pillar for researchers who are working in the mentioned fields. In order to meet the high quality of Springer, AISC series, the organization committee has made their efforts to do the following things. Firstly, poor quality paper has been refused after reviewing course by anonymous referee experts. Secondly, periodically review meetings have been held around the reviewers about five times for exchanging reviewing suggestions. Finally, the conference organizers had several preliminary sessions before the conference. Through efforts of different people and departments, the conference will be successful and fruitful.

Rehumanize Your Business Ethan Beute,Stephen Pacinelli,2019-04-08 Accelerate sales and improve customer experience Every day, most working professionals entrust their most important messages to a form of communication that doesn't build trust, provide differentiation, or communicate clearly enough. It's easy to point to the sheer volume of emails, text messages, voicemails, and even social messaging as the problem that reduces our reply rates and diminishes our effectiveness. But the faceless nature of that communication is also to blame. Rehumanize Your Business explains how to dramatically improve relationships and results with your customers, prospects, employees, and recruits by adding personal videos to emails, text messages, and social messages. It explains the what, why, and how behind this new movement toward simple, authentic videos—and when to replace some of your plain, typed-out communication with webcam and smartphone recordings. • Restore face-to-face communication for clarity and connection • Add a personal, human touch to your emails and other messages • Meet people who've sent thousands of videos • Learn to implement your own video habit in an easy, time-saving way • Boost your replies, appointments, conversion, referrals, and results dramatically If you're ready to influence, teach, sell, or serve in a more personal way, Rehumanize Your Business is your guide.

Reframing Bullying Prevention to Build Stronger School Communities James Dillon,2015-03-18 Tackle underlying issues to get to the root of bullying James Dillon translates rich and insightful research on the dynamics of change into practical terms, while probing deeply into the issues and why they persist in our schools to promote meaningful conversation among school staff and parents. Inside you'll find Vignettes, analogies, and real-life examples along with tools that illustrate the benefits of using alternative methods to prevent bullying Discussion on transforming the role of discipline to reframe bullying among teachers, administrators, and students Guidance on how to establish a school climate that promotes empathy and compassion instead of fear

Intellectual Property Law and Policy Volume 10 Hugh Hansen,2008-03-26 Hart Publishing is pleased to announce that it has recently become publisher of this prestigious and much valued work. The 15th Annual volume in the series collects the presentations and discussion from the Annual Fordham IP Conference. The contributions, by leading world experts, analyze the most pressing issues in copyright, trademark and patent law as seen from the perspectives of the USA, the EU, Asia and WIPO. This volume, in common with

its predecessors, seeks to make a lasting contribution to discourse in IP law; few of the chapters are merely descriptive, and most raise questions of policy or discuss new developments. Praise for the Fordham International Intellectual Property Conference: This must be one of the most enjoyable and thought-provoking conferences in the IP field. The high quality of the speakers is matched by the intense, audience-led debates and challenges which follow. Hugh Laddie, (formerly Mr. Justice Laddie) University College, London and consultant to Rouse & Co, Willoughby & Partners. Faculty for this conference are always well-known 'names' well respected leaders in their fields, speaking with a combination of candor and timeliness that is unrivaled by any other forum of its kind. Multimedia Modeling (Mmm '96): Towards The Information Superhighway P Senac,Jean Pierre Courtiat,Michel Diaz,1996-09-30 The purpose of the MMM series of conferences is to bring together activities related to all aspects of multimedia modeling, in its broader sense, from multimedia networking to virtual worlds. Its ultimate goal is to provide a better understanding of the basic paradigms and to establish conceptual links between them for better design of future advanced multimedia systems. The proceedings of MMM '96 present the state-of-the-art in the representation, processing, interaction, integration and retrieval of multimedia information.

Methods in prosody Ingo Feldhausen, Jan Fliessbach,Maria del Mar Vanrell ,2018-10-25 This book presents a collection of pioneering papers reflecting current methods in prosody research with a focus on Romance languages. The rapid expansion of the field of prosody research in the last decades has given rise to a proliferation of methods that has left little room for the critical assessment of these methods. The aim of this volume is to bridge this gap by embracing original contributions, in which experts in the field assess, reflect, and discuss different methods of data gathering and analysis. The book might thus be of interest to scholars and established researchers as well as to students and young academics who wish to explore the topic of prosody, an expanding and promising area of study.

The Industrial Information Technology Handbook Richard Zurawski,2018-10-03 The Industrial Information Technology Handbook focuses on existing and emerging industrial applications of IT, and on evolving trends that are driven by the needs of companies and by industry-led consortia and organizations. Emphasizing fast growing areas that have major impacts on industrial automation and enterprise integration, the Handbook covers topics such as industrial communication technology, sensors, and embedded systems. The book is organized into two parts. Part 1 presents material covering new and quickly evolving aspects of IT. Part 2 introduces cutting-edge areas of industrial IT. The Handbook presents material in the form of tutorials, surveys, and technology overviews, combining fundamentals and advanced issues, with articles grouped into sections for a cohesive and comprehensive presentation. The text contains 112 contributed reports by industry experts from government, companies at the forefront of development, and some of the most renowned academic and research institutions worldwide. Several of the reports on recent developments, actual deployments, and trends cover subject matter presented to the public for the first time.

Advances in Mobile Computing and Multimedia Intelligence Pari Delir Haghighi,Ismail Khalil,Gabriele Kotsis,2022-11-21 This volume includes the papers presented at the 20th International Conference on Advances in Mobile Computing & Multimedia Intelligence (MoMM2022), organized in conjunction with 24th International Conference on Information Integration and Web

Intelligence. The dominant research focus of submitted papers was artificial intelligence and machine learning. The accepted papers presented advances and innovations in an array of areas such as online teaching, activity and movement detection, greenhouse gas emission, smart irrigation, network security, and video delivery. MoMM2022 attracted 34 papers, from which the Program Committee selected 8 regular papers and 8 short papers. Due to safety concerns as well as other restrictions preventing travel and gatherings, it was decided to organize MoMM2022 as a virtual conference.

<u>Proceedings of the 2012 International Conference on Information Technology and Software Engineering</u> Wei Lu,Guoqiang Cai,Weibin Liu,Weiwei Xing,2012-11-06 Proceedings of the 2012 International Conference on Information Technology and Software Engineering presents selected articles from this major event, which was held in Beijing, December 8-10, 2012. This book presents the latest research trends, methods and experimental results in the fields of information technology and software engineering, covering various state-of-the-art research theories and approaches. The subjects range from intelligent computing to information processing, software engineering, Web, unified modeling language (UML), multimedia, communication technologies, system identification, graphics and visualizing, etc. The proceedings provide a major interdisciplinary forum for researchers and engineers to present the most innovative studies and advances, which can serve as an excellent reference work for researchers and graduate students working on information technology and software engineering. Prof. Wei Lu, Dr. Guoqiang Cai, Prof. Weibin Liu and Dr. Weiwei Xing all work at Beijing Jiaotong University.

<u>Magnetic Resonance Imaging of Myocardial Deformation and Scarring in Coronary Artery Disease.</u> Johan Kihlberg,2017-11-15 Although improved treatments have reduced the rates of acute complications from myocardial infarction, sequelae such as heart failure and sudden death threaten the future wellbeing of those patients. Secondary prevention after myocardial infarction is related to cardiovascular risk factors and the effect of the infarct on left ventricular function. Cardiovascular magnetic resonance imaging (CMR) is necessary to determine the size of the infarct scar and can with great precision determine left ventricular volumes, left ventricular ejection fraction, and deformation (strain and torsion). The purpose of this thesis was to improve on CMR methods to facilitate image acquisition and post processing in patients with high risk of coronary artery disease (CAD). In Paper 1, a three-dimensional phase-sensitive inversion-recovery (3D PSIR) sequence was modified to measure T1 during a single breath hold. The measured T1 values were used to extrapolate a map of T1 relaxation, which avoided the time-consuming manual determination of the inversion time. The data collection consisted of phantom experiments, Monte Carlo simulations of the effect of various heart rates, and clinical investigation of 18 patients with myocardial infarction. Scar images created with the modified sequence were compared to those created with the standard sequence. The 3D PSIR sequence was able to measure T1 relaxation with a high accuracy up to 800 ms, which is in the suitable range for scar imaging. Simulated arrhythmias showed that the method was robust and able to tolerate some variation in heart rate. The modified sequence provides measurements of inversion time that can be used to facilitate standard scar imaging or to reconstruct synthetic scar images. Images of infarct scar obtained with the 3D PSIR sequence bore striking similarity to images obtained with the standard sequence. In Paper 2, 125 patients with high risk of CAD were investigated using the displacement encoding with stimulated echoes (DENSE) sequence. Image segments with infarct scar area >50% (transmurality) could be identified with a sensitivity of 95% and a specificity of 80% based on circumferential strain calculated from the DENSE measurements. The DENSE sequence was also applied in other directions, but its sensitivity and specificity to detect scar was lower than when used for circumferential strain. In Paper 3, 90 patients with high risk of CAD were examined by DENSE, tagging with harmonic phase (HARP) imaging and cine

imaging with feature tracking (FT), to detect cardiac abnormalities as manifested in end-systolic circumferential strain. Circumferential strain calculated with DENSE had higher sensitivity and specificity than the competing methods to detect infarction with transmurality >50%. Global circumferential strain measured by DENSE correlated better with global parameters such as left ventricular ejection fraction, myocardial wall mass, left ventricular end-diastolic and end-systolic volume; than strain measured by FT or HARP. In Paper 4, myocardial torsion was investigated using DENSE, HARP, and FT in 48 patients with high risk of CAD. Torsion measured by each of the three methods was correlated with other global measures such as left ventricular ejection fraction, left ventricular mass, and left ventricular end-diastolic and end-systolic volumes. The torsion measurements obtained with DENSE had a stronger relationship with left ventricular ejection fraction, left ventricular mass, and volumes than those obtained with HARP or FT. DENSE was superior to the other methods for strain and torsion measurement and can be used to describe myocardial deformation quantitatively and objectively.

Science Education and Information Transfer C. A. Taylor,2013-10-22 Science Education and Information Transfer reviews developments in the areas of science education and information transfer. Topics covered include the use of games in science and technology education, transfer of information using readily available technology, and networking. The concepts of global learning and distance learning are also discussed, along with the use of video techniques and computer technology to transfer information. This volume is comprised of 10 chapters and begins with an overview of the information society, the usability of information, and the efficiency of information transfer. The discussion then turns to the use of games to teach science and technology; the most readily available technology for transferring information from teachers to students; and networking as a means to transfer information. The following chapters explore the concept and practice of global learning in the perspective of dissemination of scientific and technological knowledge in response to human needs; the use of microcomputers in the teaching of science; and some of the features of distance learning. The final chapter is devoted to teaching information technology in the classroom. This monograph will be of interest to planners, practitioners, researchers, and other professionals in the field of science education and information technology.

Information Technologies and Social Transformation National Academy of Engineering,1985-02-01 This collection of papers by scholars of technology and society, based on a National Academy of Engineering symposium, explores the process of mutual adjustment between information technologies and social institutions. The topics addressed include recent developments and likely futures in information technology, comparison of information technology to historical developments in other technologies, and the interaction of information technology with businesses, homes, property rights in information, and various hierarchies of social organization.
