Good Strategy Bad Strategy Richard Rumelt, 2011-07-19 *Good Strategy/Bad Strategy* clarifies the muddled thinking underlying too many strategies and provides a clear way to create and implement a powerful action-oriented strategy for the real world. Developing and implementing a strategy is the central task of a leader. A good strategy is a specific and coherent response to—and approach for—overcoming the obstacles to progress. A good strategy works by harnessing and applying power where it will have the greatest effect. Yet, Rumelt shows that there has been a growing and unfortunate tendency to equate Mom-and-apple-pie values, fluffy packages of buzzwords, motivational slogans, and financial goals with “strategy.” In *Good Strategy/Bad Strategy*, he debunks these elements of “bad strategy” and awakens an understanding of the power of a “good strategy.” He introduces nine sources of power—ranging from using leverage to effectively focusing on growth—that are eye-opening yet pragmatic tools that can easily be put to work on Monday morning, and uses fascinating examples from business, nonprofit, and military affairs to bring its original and pragmatic ideas to life. The detailed examples range from Apple to General Motors, from the two Iraq wars to Afghanistan, from a small local market to Wal-Mart, from Nvidia to Silicon Graphics, from the Getty Trust to the Los Angeles Unified School District, from Cisco Systems to Paccar, and from Global Crossing to the 2007-08 financial crisis. Reflecting an astonishing grasp and integration of economics, finance, technology, history, and the brilliance and foibles of the human character, *Good Strategy/Bad Strategy* stems from Rumelt’s decades of digging beyond the superficial to address hard questions with honesty and integrity.

The Ku Klux Klan and Freemasonry in 1920s America Miguel Hernandez, 2019-02-06 The Second Ku Klux Klan’s success in the 1920s remains one of the order’s most enduring mysteries. Emerging first as a brotherhood dedicated to paying tribute to the original Southern organization of the Reconstruction period, the Second Invisible Empire developed into a mass movement with millions of members that influenced politics and culture throughout the early 1920s. This study explores the nature of fraternities, especially the overlap between the Klan and Freemasonry. Drawing on many previously untouched archival resources, it presents a detailed and nuanced analysis of the development and later decline of the Klan and the complex nature of its relationship with the traditions of American fraternalism.

Redeeming Economics John D. Mueller, 2014-04-08 “Groundbreaking.” —Washington Examiner Economics is primed for—and in desperate need of—a revolution, respected economic forecaster John D. Mueller shows in this eye-opening book. To make the leap forward will require looking backward, for as *Redeeming Economics* reveals, the most important element of economic theory has been ignored for more than two centuries. Since the great Adam Smith tore down this pillar of economic thought, economic theory has been unable to account for a fundamental aspect of human experience: the relationships that define us, the loves (and hates) that motivate and distinguish us as persons. In trying to reduce human behavior to exchanges, modern economists have forgotten how these essential motivations are expressed: as gifts (or their opposite, crimes). Mueller makes economics whole again, masterfully reapplying the economic thought of Aristotle, Augustine, and Aquinas.

Mission Spirituality and Authentic Discipleship Wonsuk Ma, Kenneth R Ross, 2013 This book argues for the primacy of spirituality in the practice of mission. Since God is the primary agent of mission and God works through the power of the Holy Spirit, it is through openness to the Spirit that mission finds its true character and has its authentic impact.

Origen's Influence on the Young Augustine György Heidl, 2003 Origen's Influence on the Young Augustine provides analysis of Augustine's early career, including his celebrated conversion and the theology of his early writings. The author re-interprets Augustine's early accounts of his conversion and comes to a conclusion which runs counter to the general scholarly view. The main thesis of the book argues that as early as the first phase of Augustine's activity (386-393 AD), he made use of some Origenian works, and basic elements of his early theology were derived from the Alexandrian master. The author provides an analysis of Augustine's first exegetical work, *De genesi contra manichaeos*, and argues for the possibility that a Latin compilation of Origen's understanding of Genesis existed and was used by Latin authors of the fourth century.--

Russian Orientalism David Schimmelpenninck van der Oye, 2010-04-20 Here, the author examines Russian thinking about the Orient before the Revolution of 1917. He argues that the Russian Empire's bi-continental geography and the complicated nature of its encounter with Asia have all resulted in a variegated understanding of the East among its people.

Contemporary Diasporic South Asian Women's Fiction Ruvani Ranasingha, 2016-05-28 This book is the first comparative analysis of a new generation of diasporic Anglophone South Asian women novelists including Kiran Desai, Tahmima Anam, Monica Ali, Kamila Shamsie and Jhumpa Lahiri from a feminist perspective. It charts the significant changes these writers have produced in postcolonial and contemporary women's fiction since the late 1990s. Paying careful attention to the authors' distinct subcontinental backgrounds of Pakistan, Bangladesh and Sri Lanka – as well as India – this study destabilises the central place given to fiction focused on India. It broadens the customary focus on diasporic writers' metropolitan contexts, illuminates how these transnational, female-authored literary texts challenge national assumptions and considers the ways in which this new configuration of transnational, feminist writers produces a postcolonial feminist discourse, which differs from Anglo-American feminism.

Grech, 2014-05-07 Researchers, activists, and educators draw inspiration from the radical thought of Lorenzo Milani to invite readers to explore the intricacies, logistics, ethics and pedagogy of conflict and peace as played out in a number of domains, including religion, education, gender, sexuality, democracy, art, sociology and philosophy.

Searching for Self – in Pursuit of Inner Peace K R V HARI, 2020-12-25 About the Book: This book explores our ideas of self, repeatedly revealing who we are not to gently bring us into peace without attempting to alter our external conditions. It is well known that when we dissociate ourselves from all our worldly identities, we will naturally come to peace. This book lays out a clear roadmap to achieve enduring peace through detachment. But detachment does not mean renouncement of all types of pleasures and living a life of inactivity and boredom. In truth, detachment can relieve us of all the burdens and baggage we carry, leaving us free to enjoy all the genuine pleasures available on earth to the fullest. The only condition is that we must not cling to the pleasures but be ready to let them go freely. Hence our life here can be one of unending joy and achievement. About the Author: Born in 1960 in the rich culture of South India and educated in English, he was exposed to two opposing world views enabling him to achieve synergy and realize true harmony. He belongs to the linguistic community Saurashtra who were silk weavers patronised by kings of yore. His ancestors are said to have migrated from the western part of India to Tamil Nadu in the south several centuries ago. Born to a father who served in the lower ranks of the Indian Central Government and a mother who was less educated, he was brought up by his grandmother, a very traditional woman, in the extended family. With his two younger brothers he was afforded English education from the beginning that enabled him to become fluent in the language right from his childhood. Graduating in Agriculture from the Tamil Nadu Agricultural University in Coimbatore in 1982, he secured the prestigious position of Probationary Officer in State Bank of India, the premier bank in India. After a dedicated service of over two decades, he ventured out on his own to learn about real life outside the cocoon of privileged living that his parents and his job had offered him till then. Growing up in the country as India underwent its pangs of Westernisation, he was able to synthesise the self-oriented Western perspective with the community oriented native one to arrive at a wholesome concept of self after considerable

efforts and experimentation. This book is the culmination of decades of efforts in discovering his real place in the world. Married to Vijayashree with a daughter Meenalochani, who has gifted him with a lovely granddaughter, he lives in the Southern Indian cities of Bangalore and Coimbatore with his family and his aged aunt.

International News Agencies Michael B. Palmer, 2020-01-02 International news-agencies, such as Reuters, the Associated Press and Agence France-Presse, have long been 'unsung heroes' of the media sphere. From the mid-nineteenth century, in Britain, the US, France and, to a lesser extent, Germany, a small number of agencies have fed their respective countries with international news reports. They informed governments, businesses, media and, indirectly, the general public. They helped define 'news'. Drawing on years of archival research and first-hand experience of major news agencies, this book provides a comprehensive history of the leading news agencies based in the UK, France and the USA, from the early 1800s to the present day. It retraces their relations with one another, with competitors and clients, and the types of news, information and data they collected, edited and transmitted, via a variety of means, from carrier-pigeons to artificial intelligence. It examines the sometimes colourful biographies of agency newsmen, and the rise and fall of news agencies as markets and methods shifted, concluding by looking to the future of the organisations.

Digital Media Sport Brett Hutchins, David Rowe, 2013-09-05 Live broadband streaming of the 2008 Beijing Olympics accounted for 2,200 of the estimated 3,600 total hours shown by the American NBC-Universal networks. At the 2012 London Olympics, unprecedented multi-platforming embraced online, mobile devices, game consoles and broadcast television, with the BBC providing 2,500 hours of live coverage, including every competitive event, much in high definition and some in 3D. The BBC also had 12 million requests for video on mobile phones and 9.2 million browsers on its mobile Olympics website and app. This pattern will only intensify at future sport mega events like the 2014 FIFA World Cup and 2016 Summer Olympics, both of which will take place in Brazil. Increasingly, when people talk of the screen that delivers footage of their favorite professional sport, they are describing desktop, laptop, and tablet computer screens as well as television and mobile handsets. *Digital Media Sport* analyzes the intersecting issues of technological change, market power, and cultural practices that shape the contemporary global sports media landscape. The complexity of these related issues demands an interdisciplinary approach that is adopted here in a series of thematically-organized essays by international scholars working in media studies, Internet studies, sociology, cultural studies, and sport studies. .
