Hypnosis, Influence, Subliminal Mind Control For Personal Success David Springer, Dean & Professor School of Social Work David Springer, 2007-03 The aim of this book is to convey knowledge about how to program people without striking an obstacle. Here one has to consider that we won't talk about; techniques that are only sufficient to persuade your best friend go to the cinema. What we are talking about is making people desire less. To get any person to do something he or she doesn't really want; to bend people to our will without the need to touch a hair on their head. Of course, sooner or later that method of mind control would bring some human rights activists on to the scene. Don't be irritated by this but use the presented knowledge for our good purposes. Mind Control describes a system that destroys the personal identity of man to replace it with another one created in our way of thinking. You could also talk about the process as a brainwash without that physical and psychological compulsory influence.
