Subliminal Leonard Mlodinow,2013-02-12 NATIONAL BESTSELLER • From the bestselling author of The Drunkard's Walk, a startling, eye-opening examination of how the unconscious mind shapes our experience of the world. "Mlodinow plunges into the realm of the unconscious mind accompanied by the latest scientific research ... [with] plenty of his trademark humor." –Los Angeles Times Over the past two decades of neurological research, it has become increasingly clear that the way we experience the world—our perception, behavior, memory, and social judgment—is largely driven by the mind's subliminal processes and not by the conscious ones, as we have long believed. In Subliminal, Leonard Mlodinow employs his signature concise, accessible explanations of the most obscure scientific subjects to unravel the complexities of the subliminal mind. In the process he shows the many ways it influences how we misperceive our relationships with family, friends, and business associates; how we misunderstand the reasons for our investment decisions; and how we misremember important events—along the way, changing our view of ourselves and the world around us.

Subliminal Psychology Christopher Kingler, Have you ever wished you could penetrate someone's mind? Are you one of those people who are drawn to exploring the depths of the human psyche? Are you tired of being prey to emotional predators and manipulators and want to learn the art of subliminal psychology to fully protect yourself? We like to think of ourselves as independent actors who control our decisions, but the truth is much more complicated. As powerful as the mind and intellect are, each individual has grey space in their psyche. This grey space is the primal, subconscious and unexplored force. The relationship between the conscious and the subconscious is like the iceberg floating in the ocean. Consciousness is just the tip of the iceberg we see. The subconscious, however, is where the triggers occur and where the subliminal messages reach us. This is where the outside influence settles. We are all suggestible, in one way or another. The mind is flexible and gullible, but it can be an object of awareness and self-control. This book is about the other side of the iceberg, it's about what we don't see and what others don't see or recognise in themselves. Here is a brief taste of what you will learn: - The truth about subliminal psychology and false myths. - The subliminal messages under X-rays to recognise them immediately and never fall into the trap again. - Deep analysis of the drives and the most hidden desires of human beings to decode their intentions. - Simple and advanced subliminal manipulation techniques to penetrate someone's mind. - Short and long-term effects of subliminal manipulation on decision making. - How to defend yourself from the powerful attacks of subliminal predators. - Subliminal reprogramming for mental health, removing mental blocks that prevent your happiness. - Unlock infinite potential with subliminal learning to acquire whatever knowledge you want. Let me ask you a question. Do you want to influence or be influenced? If you understand, unfortunately you have no choice. No matter how much we want to be in control of our reactions, we are subject to external influences - whether or not we are aware of it. If you are tired of constantly being the object of manipulative tactics, this dark art historically reserved for secret societies and big brands is now within everyone's reach, and is about to be in your hands. Use it carefully. So, what are you waiting for? Swipe up, click the Buy button now and begin your journey!

Hidden Pictures Jason Rekulak, 2022-05-10 NATIONAL BESTSELLER · OPTIONED FOR NETFLIX BY A PRODUCER OF THE BATMAN GOODREADS CHOICE AWARD WINNER “I loved it. -Stephen King From Edgar Award-finalist Jason Rekulak comes a wildly inventive spin on the supernatural thriller, for fans of Stranger Things and Riley Sager, about a woman working as a nanny for a young boy with strange and disturbing secrets. Mallory Quinn is fresh out of rehab when she takes a job as a babysitter for Ted and Caroline Maxwell. She is to look after their five-year-old son, Teddy. Mallory immediately loves it. She has her own living space, goes out for nightly runs, and has the stability she craves. And she sincerely bonds with Teddy, a sweet, shy boy who is never without his sketchbook and pencil. His drawings are the usual fare: trees, rabbits, balloons. But one day, he draws something different: a man in a forest, dragging a woman’s lifeless body. Then, Teddy’s artwork becomes increasingly sinister, and his stick figures quickly evolve into lifelike sketches well beyond the ability of any five-year-old. Mallory begins to wonder if these are glimpses of a long-unsolved murder, perhaps relayed by a supernatural force. Knowing just how crazy it all sounds, Mallory nevertheless sets out to decipher the images and save Teddy before it’s too late.
