Brain Wars Mario Beauregard, 2012-04-24 The brain can be weighed, measured, scanned, dissected, and studied. The mind that we conceive to be generated by the brain, however, remains a mystery. It has no mass, no volume, and no shape, and it cannot be measured in space and time. Yet it is as real as neurons, neurotransmitters, and synaptic junctions. It is also very powerful. –from *Brain Wars* Is the brain a computer made of meat, and human consciousness a simple product of electrical impulses? The idea that matter is all that exists has dominated science since the late nineteenth century and led to the long-standing scientific and popular understanding of the brain as simply a collection of neurons and neural activity. But for acclaimed neuroscientist Mario Beauregard, Ph.D., along with a rising number of colleagues and others, this materialist-based view clashes with what we feel and experience every day. In *Brain Wars*, Dr. Beauregard delivers a paradigm-shifting examination of the role of the brain and mind. Filled with engaging, surprising, and cutting-edge scientific accounts, this eye-opening book makes the increasingly indisputable case that our immaterial minds influence what happens in our brains, our bodies, and even beyond our bodies. Examining the hard science behind unexplained phenomena such as the placebo effect, self-healing, brain control, meditation, hypnosis, and near-death and mystical experiences, Dr. Beauregard reveals the mind's capabilities and explores new answers to age-old mind-body questions. Radically shifting our comprehension of the role of consciousness in the universe, *Brain Wars* forces us to consider the immense untapped power of the mind and explore the profound social, moral, and spiritual implications that this new understanding holds for our future.

Destination Branding Nigel Morgan, Annette Pritchard, Roger Pride, 2007-06-07 In today's highly competitive market, many destinations - from individual resorts to countries - are adopting branding techniques similar to those used by 'Coca Cola', 'Nike' and 'Sony' in an effort to differentiate their identities and to emphasize the uniqueness of their product. By focusing on a range of global case studies, *Destination Branding* demonstrates that the adoption of a highly targeted, consumer research-based, multi-agency 'mood branding' initiative leads to success every time.

The Social Media Reader Michael Mandiberg, 2012-03 The first collection to address the collective transformation happening in response to the rise of social media With the rise of web 2.0 and social media platforms taking over vast tracts of territory on the internet, the media landscape has shifted drastically in the past 20 years, transforming previously stable relationships between media creators and consumers. The *Social Media Reader* is the first collection to address the collective transformation with pieces on social media, peer production, copyright politics, and other aspects of contemporary internet culture from all the major thinkers in the field. Culling a broad range and incorporating different styles of scholarship from foundational pieces and published articles to unpublished pieces, journalistic accounts, personal narratives from blogs, and whitepapers, *The Social Media Reader* promises to be an essential text, with contributions from Lawrence Lessig, Henry Jenkins, Clay Shirky, Tim O'Reilly, Chris Anderson, Yochai Benkler, danah boyd, and Fred von Loehmann, to name a few. It covers a wide-ranging topical terrain, much like the internet itself, with particular emphasis on collaboration and sharing, the politics of social media and social networking, Free Culture and copyright politics, and labor and ownership. Theorizing new models of collaboration, identity, commerce, copyright, ownership, and labor, these essays outline possibilities for cultural democracy that arise when the formerly passive audience becomes active cultural creators, while warning of the dystopian potential of new forms of surveillance and control.

Can't You Get Along with Anyone? Allan C. Weisbecker, 2007 When Allan Weisbecker penned the last sentence of *In Search of Captain Zero*, most readers assumed the full scope of the tale had been told. But apparently, life had other plans. In his latest offering, *Can't You Get Along With Anyone? A Writer's Memoir and a Tale of a Lost Surfer's Paradise*, Weisbecker chronicles the bizarre and convoluted circumstances that drove him from his adopted home in Costa Rica.

The Nature Fix: Why Nature Makes Us Happier, Healthier, and More Creative Florence Williams, 2017-02-07 Highly informative and remarkably entertaining. –Elle From forest trails in Korea, to islands in Finland, to eucalyptus groves in California, Florence Williams investigates the science behind nature's positive effects on the brain. Delving into brand-new research, she uncovers the powers of the natural world to improve health, promote reflection and innovation, and strengthen our relationships. As our modern lives shift dramatically indoors, these ideas—and the answers they yield—are more urgent than ever.

Global Nomads Anthony D'Andrea, 2007-01-24 *Global Nomads* provides a unique introduction to the globalization of countercultures, a topic largely unknown in and outside academia. Anthony D'Andrea examines the social life of mobile expatriates who live within a global circuit of countercultural practice in paradoxical paradises. Based on nomadic fieldwork across Spain and India, the study analyzes how and why these post-metropolitan subjects reject the homeland in order to shape an alternative lifestyle. They become artists, therapists, exotic traders and bohemian workers seeking to integrate labor, mobility and spirituality within a cosmopolitan culture of expressive individualism. These countercultural formations, however, unfold under neo-liberal regimes that appropriate utopian spaces, practices and imaginaries as commodities for tourism, entertainment and media consumption. In order to understand the paradoxical globalization of countercultures, *Global Nomads* develops a dialogue between global and critical studies by introducing the concept of 'neo-nomadism' which seeks to overcome some of the shortcomings in studies of globalization. This book is an essential aide for undergraduate, postgraduate and research students of Sociology, Anthropology of Globalization, Cultural Studies and Tourism Studies.

Spoiler Alert Aaron Jaffe, 2019-10-29 All of this information at our fingertips—and we might not need any of it Concurrent with the compulsory connectivity of the digital age is the rise of the spoiler. The inevitability of information has changed the critical quality of modernity, leaving us with acute vertigo—a feeling that nothing new is left out there. Encompassing memes and trigger warnings, Vilem Flusser and Thomas Pynchon, *Spoiler Alert* wrangles with the state of surprise in post-historical times. Aaron Jaffe delivers a timely corrective to post-critical modes of reading that demonstrates the dangers of forfeiting critical suspicion. Forerunners: *Ideas First* Short books of thought-in-process scholarship, where intense analysis, questioning, and speculation take the lead

Human Factors Considerations of Undergrounds in Insurgencies Us Army Special Operations Command,2017-08-31 From the preface: The 1966 'Human Factors' edition focused on the contemporary threat of Maoist insurgencies, particularly in Southeast Asia, and also drew extensively on World War II resistance movements in Europe. Much of this information is still relevant and has been retained and integrated. In the post-Cold War world, the most important insurgencies tend to be ethnic and religious. Long-simmering conflicts, sometimes with roots in colonial policies, have become prominent; examples include the Liberation Tigers of Tamil Eelam (LTTE) in Sri Lanka, Euskadi Ta Askatasuna (Basque Homeland and Freedom or ETA) in Spain, the Hutu-Tutsi genocides, the Ushtia Qlirimtare e Kosovs (Kosovo Liberation Army, or KLA), and the Provisional Irish Republican Army (PIRA). Battle lines in these conflicts are often drawn along ethnic lines, even when land or politics are the immediate issues in contention. The other important new category is extremist religious movements, most prominently Islamic groups, including regional insurgent movements like Hizbollah and Harakat al-Muqawamah al'Isলামiyyah (Islamic Resistance Movement, or HAMAS) and global movements like Al Qaeda. These present a different profile of ideology, organizational forms, and psychology than either Cold War Maoists or post-colonial ethnic insurgencies (although the Palestinian cause could be considered a post-colonial issue). Globalization has also changed underground operations in numerous ways. Insurgencies, enabled by low-cost transportation, Internet based communications, and other information technologies, can more easily recruit, communicate, and operate across borders. It is correspondingly much more difficult to contain an insurgency in a region. Global media has led to development of new tactics, in particular new types of terrorism, designed to capture worldwide attention. Compared with what was available in the 1960s, there are orders of magnitude more academic research available relevant to this study's topics. We were able to draw on more recent work in psychology, political science, economics, sociology, organizational studies, and communications studies. Readers of this edition will, over the course of eleven chapters, get a wide exposure to basic concepts from a number of disciplines.

Leaving Reality Behind Adam Wishart,Regula Bochsler,2003 This is a story of the battle for the control of the Internet. In November 1999, at the height of the e-commerce gold rush, an extraordinary hearing took place in a Los Angeles courtroom. On one side, the billion-dollar darling of Wall Street, eToys.com, the brain child of Toby Lenk. On the other side, etoy.com, a group of cutting-edge European artists, hungry for fame, who used the Internet as their canvas. The ensuing battle sharply focused attention on the conflict at the very heart of the Internet: was it for the joy of the many or the exponential profit of the few? Was cyberspace a revolutionary public space or was the new frontier an extension of the shopping mall?

Invisible Sun Charles Stross,2021-09-28 The alternate timelines of Charles Stross' Empire Games trilogy have never been so entangled than in Invisible Sun—the techno-thriller follow up to Dark State—as stakes escalate in a conflict that could spell extermination for humanity across all known timelines. An inter-timeline coup d'état gone awry. A renegade British monarch on the run through the streets of Berlin. And robotic alien invaders from a distant timeline flood through a wormhole, wreaking havoc in the USA. Can disgraced worldwalker Rita and her intertemporal extraordaire agent of a mother neutralize the livewire contention before it's too late? At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Relive Sean Cubitt,Paul Thomas,2013-11-08 Leading historians of the media arts define a new materialist media art history, discussing temporality, geography, ephemerality, and the future. In Relive, leading historians of the media arts grapple with this dilemma: how can we speak of “new media” and at the same time write the histories of these arts? These scholars and practitioners redefine the nature of the field, focusing on the materials of history—the materials through which the past is mediated. Drawing on the tools of media archaeology and the history and philosophy of media, they propose a new materialist media art history. The contributors consider the idea of history and the artwork's moment in time; the intersection of geography and history in regional practice, illustrated by examples from eastern Europe, Australia, and New Zealand; the contradictory scales of evolution, life cycles, and bodily rhythms in bio art; and the history of the future—how the future has been imagined, planned for, and established as a vector throughout the history of new media arts. These essays, written from widely diverse critical perspectives, capture a dynamic field at a moment of productive ferment. Contributors Susan Ballard, Brogan Bunt, Andrés Burbano, Jon Cates, John Conomos, Martin Constable, Sean Cubitt, Francesca Franco, Darko Fritz, Zhang Ga, Monika Gorska-Olesinska, Ross Harley, Jens Hauser, Stephen Jones, Douglas Kahn, Ryszard W. Kluszczyński, Caroline Seck Langill, Leon Marvell, Rudy Rucker, Edward A. Shanken, Stelarc, Adele Tan, Paul Thomas, Darren Tofts, Joanna Walewska

Seventy-nine Short Essays on Design Michael Bierut,2012-03-20 Seventy-nine Short Essays on Design brings together the best of designer Michael Bierut's critical writing—serious or humorous, flattering or biting, but always on the mark. Bierut is widely considered the finest observer on design writing today. Covering topics as diverse as Twyla Tharp and ITC Garamond, Bierut's intelligent and accessible texts pull design culture into crisp focus. He touches on classics, like Massimo Vignelli and the cover of The Catcher in the Rye, as well as newcomers, like McSweeney's Quarterly Concern and color-coded terrorism alert levels. Along the way Nabakov's Pale Fire; Eero Saarinen; the paper clip; Celebration, Florida; the planet Saturn; the ClearRx pill bottle; and paper architecture all fall under his pen. His experience as a design practitioner informs his writing and gives it truth. In Seventy-nine Short Essays on Design, designers and nondesigners alike can share and revel in his insights.

Ambient Media Paul Roquet,2016-02-01 Ambient Media examines music, video art, film, and literature as tools of atmospheric design in contemporary Japan, and what it means to use media as a resource for personal mood

regulation. Paul Roquet traces the emergence of ambient styles from the environmental music and Erik Satie boom of the 1960s and 1970s to the more recent therapeutic emphasis on healing and relaxation. Focusing on how an atmosphere works to reshape those dwelling within it, Roquet shows how ambient aesthetics can provide affordances for reflective drift, rhythmic attunement, embodied security, and urban coexistence. Musicians, video artists, filmmakers, and novelists in Japan have expanded on Brian Eno’s notion of the ambient as a style generating “calm, and a space to think,” exploring what it means to cultivate an ambivalent tranquility set against the uncertain horizons of an ever-shifting social landscape. Offering a new way of understanding the emphasis on “reading the air” in Japanese culture, Ambient Media documents both the adaptive and the alarming sides of the increasing deployment of mediated moods. Arguing against critiques of mood regulation that see it primarily as a form of social pacification, Roquet makes a case for understanding ambient media as a neoliberal response to older modes of collective attunement—one that enables the indirect shaping of social behavior while also allowing individuals to feel like they are the ones ultimately in control.

Lost and Living (In) Archives: Collectively Shaping New Memories Annet Dekker,2017-11-21 An archive is a collection of documents and records that is preserved for historical purposes. As such, an archive is considered a site of the past, a place that contains traces of a collective memory of a nation, a people or a group. Digital archives have changed from stable entities into flexible systems, referred to with the term ?Living Archives?. But in which ways has this change affected our relationship to the past, present and future? Will the erased, forgotten and neglected be redeemed, and new memories be allowed? Will the fictional versus factual mode of archiving offer the democracy that the public domain implies, or is it another way for public instruments of power to operate? 'Lost and Living (in) Archives' shows that an archive is not simply a recording, a reflection, or an image of an event, but that it shapes the event itself and thus influences both present and past.

Overcoming the Fear of Death Kelvin H. Chin,2016-08-03 Discusses how to reduce or overcome fear of death for those who hold a variety of beliefs on death including: the belief that there is no afterlife, that there is an afterlife and it is something to be feared, that there is an afterlife and that it is something to look forward to, and that there is reincarnation after death.

How Pop Culture Shapes the Stages of a Woman's Life Melissa Ames,Sarah Burcon,2016-03-15 Contemporary popular culture has created a slew of stereotypical roles for girls and women to (willingly or not) play throughout their lives: The Princess, the Nymphette, the Diva, the Single Girl, the Bridezilla, the Tiger Mother, the M.I.L.F, the Cougar, and more. In this book Ames and Burcon investigate the role of cultural texts in gender socialization at specific pre-scripted stages of a woman's life (from girls to the golden girls) and how that instruction compounds over time. By studying various texts (toys, magazines, blogs, tweets, television shows, Hollywood films, novels, and self-help books) they argue that popular culture exists as a type of funhouse mirror constantly distorting the real world conditions that exist for women, magnifying the gendered expectations they face. Despite the many problematic, conflicting messages women receive throughout their lives, this book also showcases the ways such messages are resisted, allowing women to move past the blurry reality they broadcast and toward, hopefully, gender equality.
