Modern Pastoral Niki Brantmark,2016-02-11 Discover contemporary interiors inspired by natural landscapes. Discover contemporary interiors inspired by natural landscapes. Modern pastoral interiors are about embracing the pared-back lifestyle of living in the country, taking nature as the main point of inspiration. Use colors, textures, and details to create a home in which to unwind—a retreat from the rest of the world. Niki Brantmark explores various takes on this simple, informal style. The graphical look is striking, reminiscent of exposed landscapes: think whitewashed ceilings, rugged stone surfaces, and striking black features, softened by cozy soft furnishings and fresh plants and flowers. Savanna style introduces warmer hues, featuring painted wood and reds, oranges, and browns in textiles, furniture, and collectibles. Nordic interiors take in the best of the Scandinavian landscape—clean white backdrops against sleek designs—while those inspired by forest and mountain streams are filled with rich, deep greens and blues, combined with traditional patterns and features, such as log burners, wood paneling, and woven rugs. The stunning photography for this book takes in locations across Scandinavia and the United States, and all evoke an ideal, rural life, adapted to modern living.

Oceans Rising Daniela Zyman,TBA21,2022-02-01 Forty-one thoughtful and generous contributions by artists, scholars, scientists, and ocean activists in response to the rapidly changing oceans. The ocean is rising and with it sea level, water temperature, acidity, algal blooms, and storm surges. Also on the rise are the metrics of accelerated human activity. How are we to fathom the political, aesthetic, and epistemological rise of the oceans from centuries-long invisibilization and forgetting? What ideas and memories do the oceans hold in their depth and reanimate, when the earth's ecosystems suffer? Asking different questions and using multiple registers of sensing expand the possibilities to engage with the oceanic at this precarious moment and rethink its relations to the terrestrial. Oceans Rising is a companion reader to "Territorial Agency: Oceans in Transformation," an independent oceanic research initiative commissioned by TBA21-Academy and operating out of Ocean Space in Venice. It offers forty-one thoughtful contributions by artists, scholars, scientists, and ocean activists in response to the rapidly changing oceans. Writing from places of conflict and concern, the contributions reveal the magnitude and urgency of ecological devastation, but more important, they provide alternative narratives that strengthen our knowledge communities and contribute to worldmaking practices from an oceanic perspective.

10 PRINT CHR\$(205.5+RND(1)); : GOTO 10 Nick Montfort,Patsy Baudoin,John Bell,Ian Bogost,Jeremy Douglass,2012-11-23 A single line of code offers a way to understand the cultural context of computing. This book takes a single line of code—the extremely concise BASIC program for the Commodore 64 inscribed in the title—and uses it as a lens through which to consider the phenomenon of creative computing and the way computer programs exist in culture. The authors of this collaboratively written book treat code not as merely functional but as a text—in the case of 10 PRINT, a text that appeared in many different printed sources—that yields a story about its making, its purpose, its assumptions, and more. They consider randomness and regularity in computing and art, the maze in culture, the popular BASIC programming language, and the highly influential Commodore 64 computer.

The Third Pole Mark Synnott,2022-04-05 ***NPR Books We Love selection*** “If you’re only going to read one Everest book this decade, make it The Third Pole. . . . A riveting adventure.”—Outside Shivering, exhausted, gasping for oxygen, beyond doubt . . . A hundred-year mystery lured veteran climber Mark Synnott into an unlikely expedition up Mount Everest during the spring 2019 season that came to be known as “the Year Everest Broke.” What he found was a gripping human story of impassioned characters from around the globe and a mountain that will consume your soul—and your life—if you let it. The mystery? On June 8, 1924, George Mallory and Sandy Irvine set out to stand on the roof of the world, where no one had stood before. They were last seen eight hundred feet shy of Everest’s summit still “going strong” for the top. Could they have succeeded decades before Sir Edmund Hillary and Tenzing Norgay? Irvine is believed to have carried a Kodak camera with him to record their attempt, but it, along with his body, had never been found. Did the frozen film in that camera have a photograph of Mallory and Irvine on the summit before they disappeared into the clouds, never to be seen again? Kodak says the film might still be viable. . . . Mark Synnott made his own ascent up the infamous North Face along with his friend Renan Ozturk, a filmmaker using drones higher than any had previously flown. Readers witness first-hand how Synnott’s quest led him from oxygen-deprivation training to archives and museums in England, to Kathmandu, the Tibetan high plateau, and up the North Face into a massive storm. The infamous traffic jams of climbers at the very summit immediately resulted in tragic deaths. Sherpas revolted. Chinese officials turned on Synnott’s team. An Indian woman miraculously crawled her way to frostbitten survival. Synnott himself went off the safety rope—one slip and no one would have been able to save him—committed to solving the mystery. Eleven climbers died on Everest that season, all of them mesmerized by an irresistible magic. The Third Pole is a rapidly accelerating ride to the limitless joy and horror of human obsession.

Striper Pursuit John Skinner,2014-11-01 From the quiet back bays to the pounding surf, fishing writer and videographer, John Skinner, takes the reader along on a relentless pursuit of striped bass from the shore. With his trademark writing style that makes readers feel as though they're standing at the water's edge, Skinner cuts through the complexity of choosing and presenting the various lure styles while processing the interaction of weather and water conditions that impact baitfish movements and game fish behavior. In portions of the book focused on hunting the largest stripers, Skinner goes beyond the artificials arsenal to take an in-depth look at fishing with live and rigged eels. Chapters are dedicated to fluke and false albacore fishing as well. The book is enhanced by videos organized by chapter on the book's companion website, StriperPursuit.com.

Where There are Monsters Breanne Mc Ivor,2019 Breanne Mc Ivor is a bold new voice in Caribbean fiction. The Trinidad of her stories is utterly contemporary but also a place defined by its folk mythologies and its cultural creations, its traditions of masking and disguises. Her stories confront the increasing economic and cultural divisions between rich and poor, the alarming rise in crime, murders and an alternative economy based on drug trafficking. Their daring is that they look both within the human psyche and back in time to make sense of this reality. The figure of the loup-garou, the violent rhetoric of the Midnight Robber - or even cannibalism lurking far off the beaten track - have become almost comic tropes of a dusty folklore. In Mc Ivor's stories they become real and terrifying daylight presences, monsters who pass among us. Her great gift as a writer is to take us to unexpected places, both to seduce us into a kind of sympathy for her monsters of greater and lesser kinds, and sometimes to reveal a capacity for redemption amongst characters we are tempted to dismiss as shallow, unlikable human beings. The problem, in a world of masks and disguises, is how to tell the difference. In these carefully crafted stories, with room for humor, though of a distinctly gothic kind, Breanne Mc Ivor reaches deep into the roots of Trinidad folk narratives to present us with very modern versions of our troubled selves.

Textbook Amy Krouse Rosenthal Amy Krouse Rosenthal,2020-04-14 The bestselling author of Encyclopedia an Ordinary Life returns with a literary experience that is unprecedented, unforgettable, and explosively human. Ten years after her beloved, groundbreaking Encyclopedia of an Ordinary Life, #1 New York Times bestselling author Amy Krouse Rosenthal delivers a book full of her distinct blend of nonlinear narrative, wistful reflections, and insightful wit. It is a mighty, life-affirming work that sheds light on all the ordinary and extraordinary ways we are connected. Like she did with Encyclopedia of an Ordinary Life, Amy Krouse Rosenthal ingeniously adapts a standard format—a textbook, this time—to explore life’s lessons and experiences into a funny, wise, and poignant work of art. Textbook is a delightful collection of interesting scenarios that directly point to life lessons. Rosenthal manages to spotlight grand moments and everyday moments with equal curiosity, proving that it can be both a privilege — and petrifying — to peek into one’s humanity.”—Associated Press “Rosenthal is a marvel... a talented storyteller with an experimental flair for formatting... This engaging, playful, and clever glimpse into one woman’s life offers lots of photographs, graphic illustrations, and diagrams, resulting in a book that will make readers smile as their notions of story delivery expand.” —Booklist
