Behavior Analysis and Modeling of Traffic Participants Xiaolin Song,Haotian Cao,2022-06-01 A road traffic participant is a person who directly participates in road traffic, such as vehicle drivers, passengers, pedestrians, or cyclists, however, traffic accidents cause numerous property losses, bodily injuries, and even deaths to them. To bring down the rate of traffic fatalities, the development of the intelligent vehicle is a much-valued technology nowadays. It is of great significance to the decision making and planning of a vehicle if the pedestrians' intentions and future trajectories, as well as those of surrounding vehicles, could be predicted, all in an effort to increase driving safety. Based on the image sequence collected by onboard monocular cameras, we use the Long Short-Term Memory (LSTM) based network with an enhanced attention mechanism to realize the intention and trajectory prediction of pedestrians and surrounding vehicles. However, although the fully automatic driving era still seems far away, human drivers are still a crucial part of the road-driver-vehicle system under current circumstances, even dealing with low levels of automatic driving vehicles. Considering that more than 90 percent of fatal traffic accidents were caused by human errors, thus it is meaningful to recognize the secondary task while driving, as well as the driving style recognition, to develop a more personalized advanced driver assistance system (ADAS) or intelligent vehicle. We use the graph convolutional networks for spatial feature reasoning and the LSTM networks with the attention mechanism for temporal motion feature learning within the image sequence to realize the driving secondary-task recognition. Moreover, aggressive drivers are more likely to be involved in traffic accidents, and the driving risk level of drivers could be affected by many potential factors, such as demographics and personality traits. Thus, we will focus on the driving style classification for the longitudinal car-following scenario. Also, based on the Structural Equation Model (SEM) and Strategic Highway Research Program 2 (SHRP 2) naturalistic driving database, the relationships among drivers' demographic characteristics, sensation seeking, risk perception, and risky driving behaviors are fully discussed. Results and conclusions from this short book are expected to offer potential guidance and benefits for promoting the development of intelligent vehicle technology and driving safety.

Driving On the Sunny Side With 10,000 Strangers Jeff Hoenig,2023-09-26 They call Jeff Hoenig The Sunshine Man. That moniker has been well-earned-Jeff has driven more than ten thousand individuals over the past five years in his bright orange car. As an Uber and Lyft driver, Jeff strives to make people's lives a little bit brighter, starting the moment they step into the car with him. While the job might make many feel a modicum of cynicism (if nothing else, from road rage) Jeff maintains a contagiously upbeat outlook. In Jeff's eyes, when people participate in a common activity like driving, they have the opportunity for an uncommonly beautiful experience-if they have the right people to share it with. The book includes side-splitting laughter, persistent kindness, and outright fun for readers of all ages. For those looking for a bit more hope and levity in their next read, Jeff's excellent debut is sure to deliver.

It Had to Be You Linda Windsor,2011-04-13 Trust is not high on straight-talking rancher Dan Jarrett's list. He doesn't believe there are many people worthy of it. Case-in-point: his new stepfather. His widowed mother says it was love at first sight, but Dan is convinced the man is a con artist spending his mother's nest egg. And the only reason Dan's going on the family holiday cruise is to gain time to prove his suspicions. After losing both of her parents to cancer, E.R. nurse Sunny Elders cherishes any time she can spend with the loved ones she has left-her sister's family. Relaxing together on a cruise filled with love and laughter sounds like the perfect prescription for healing. And Sunny's unsinkable spirit and her maddening penchant for zany disasters provide an ample dose of both. Collision Course. Troubles Waters Ahead! Rancher Dan Jarrett, a true stickler for tradition, doesn't believe in the love-at-first sight bug that bit his widowed mom. In fact, he's sure the man she met and married on a seniors' cruise is a fraud, out to break her bankbook and her heart. Dan's mission? Endure a family holiday cruise till he gets enough proof to expose his stepfather for the scoundrel he is. But will his plans go aground when he bumps headlong into a walking accident-waiting-to-happen with an infectious smile? Nurse Fix-It to the Rescue! Sunny Elders is determined. True, being paired with Dan Jarrett-time after time after time-might result in disaster, but it's no coincidnece. The recent loss of her parents and her nurse's training make it impossible to ignore the obvious: This bull-headed cowpoke and his folks need help. Enter Sunny, a woman with a mission. But can she set Dan's Stetson on straight without tripping over her heart? One thing is certain: Before this hilarious high-sea adventure is over, these two stubborn hearts will hit the unfamiliar waters of trust - trust in each other and in the One who orders our steps, who knows better than we ever could exactly what - and who - we need to be whole.

Age of Vice Deepti Kapoor,2023-01-03 AN INSTANT NEW YORK TIMES BESTSELLER A GOOD MORNING AMERICA BOOK CLUB PICK Named a Best Book of the Year by Publishers Weekly, Oprah Daily and NPR! "Dazzling...Finally free from the book's grip, now all I want to do is get others hooked."—The Washington Post "A page-turning social novel...It stirs the pulse while digging into the entrenched and evolving structures and contradictions of modern India." —NPR "Cinematic...As a storyteller, Kapoor is a natural."—The New York Times New Delhi, 3 a.m. A speeding Mercedes jumps the curb and in the blink of an eye, five people are dead. It's a rich man's car, but when the dust settles there is no rich man at all, just a shell-shocked servant who cannot explain the strange series of events that led to this crime. Nor can he foresee the dark drama that is about to unfold. Deftly shifting through time and perspective in contemporary India, Age of Vice is an epic, action-packed story propelled by the seductive wealth, startling corruption, and bloodthirsty violence of the Wadia family -- loved by some, loathed by others, feared by all. In the shadow of lavish estates, extravagant parties, predatory business deals and calculated political influence, three lives become dangerously intertwined: Ajay is the watchful servant, born into poverty, who rises through the family's ranks. Sunny is the playboy heir who dreams of outshining his father, whatever the cost. And Neda is the curious journalist caught between morality and desire. Against a sweeping plot fueled by loss, pleasure, greed, yearning, violence and revenge, will these characters' connections become a path to escape, or a trigger of further destruction? Equal parts crime thriller and family saga, transporting readers from the dusty villages of Uttar Pradesh to the urban energy of New Delhi, Age of Vice is an intoxicating novel of gangsters and lovers, false friendships, forbidden romance, and the consequences of corruption. It is binge-worthy entertainment at its literary best.
