**Super Mafia** Jonathan Harris, 1973 This look at underworld crime considers the history, organization, practices, traditions, and changing nature of the Mafia, and highlights some crime fighting methods used against them

*Supernob* Gus Russo, 2008-12-12 This is investigative reporter Gus Russo's most explosive book yet, the remarkable story of the Supernob—a cadre of men who, over the course of decades, secretly influenced nearly every aspect of American society. Presenting startling revelations about such famous members as Jules Stein, Joe Glaser, Ronald Reagan, Lew Wasserman, and John Jacob Factor—as well as infamous, low-profile members—Russo pulls the lid off of a half-century of criminal infiltration into American business, politics, and society. At the heart of it all is Sidney The Fixer Korshak, who from the 1940s until his death in the 1990s was not only the most powerful lawyer in the world, according to the FBI, but the enigmatic player behind countless twentieth-century power mergers, political deals, and organized crime chicaneries.

**The Vory** Mark Galeotti, 2018-01-01 The first English-language book to document the men who emerged from the gulags to become Russia's much-feared crime class: the vory v zakone Mark Galeotti is the go-to expert on organized crime in Russia, consulted by governments and police around the world. Now, Western readers can explore the fascinating history of the vory v zakone, a group that has survived and thrived amid the changes brought on by Stalinism, the Cold War, the Afghan War, and the end of the Soviet experiment. The vory—as the Russian mafia is also known—was born early in the twentieth century, largely in the Gulags and criminal camps, where they developed their unique

culture. Identified by their signature tattoos, members abided by the thieves' code, a strict system that forbade all paid employment and cooperation with law enforcement and the state. Based on two decades of on-the-ground research, Galeotti's captivating study details the vory's journey to power from their early days to their adaptation to modern-day Russia's free-wheeling oligarchy and global opportunities beyond.

*Priest to Mafia* Don Patrick Bascio, 2007 The book centres on the spiritual and social dynamics of a priest whose uncle is the Don of the most powerful Mafia family in America. Father Don Carlos Albanese discovers the truism of the saying, 'blood is thicker than water', as he becomes an integral part of the Family. His hope is to assist in transforming the Family into a legitimate organisation, as it originally was in Sicily, wherein the Mafia sustained the Sicilians against foreign invaders and assisted the poor in time of need. In America, however, Don Albanese's quest proves to be challenging.

**Urbanization and Land Ownership in the Ancient Near East** Michael Hudson, Baruch A. Levine, 1999 The second volume in an ongoing series sponsored by the

Institute for the Study of Long-Term Economic Trends (ISLET), *Urbanization and Land Ownership in the Ancient Near East* examines the impact of debt, private land ownership, and urbanization on ancient societies. Evidence of privatization of land is supported by archaeological data, surviving documents, and financial records. This volume contains three sets of papers ranging from the Ice Age through early Egypt and Bronze Age Sumer, Babylonia, and Israel, given by archaeologists, economists, Assyriologists, and Egyptologists. The first set of papers deals with the social cosmology of early urban areas as ritual centers. The second set focuses on the physical archaeology of Near Eastern cities and reconstructs their land-use patterns. The final set examines what Assyriologists have been able to extract from the cuneiform record concerning urban land use, land tenure, and the emergence of real estate as something privately owned and transferable. One of the most valuable parts of this volume is the oral discussion of each paper by the participants. Highlighting the different methodologies used in each discipline and the difficulties in establishing a common vocabulary, these discussions raise universal questions concerning ancient economies and their relevancy to long-term economic trends. The first volume in this series was *Privatization in the Ancient Near East and Classical World*, edited by Michael Hudson and Baruch A. Levine (Peabody Museum Bulletin 5, ISBN 0-87365-955-4).

Chinese Small Property Shitong Qiao, 2017-10-31 Small property houses provide living space to about eight million migrant workers, office space for start-ups, grassroots police stations and public schools; their contribution to the economic growth and urbanization of a city is immense. The interaction between the small property sector and the formal legal order has a long history and small property has become an established engine of social and legal change. Chinese Small Property presents vivid stories about how institutional entrepreneurs worked together to create an impersonal market outside of the formal legal system to support millions of transactions. Qiao uses an eleven-month fieldwork project in Shenzhen - China's first special economic zone that has grown to a mega city with over fifteen million people - to demonstrate this. A thorough and detailed investigation into small property rights in China, Chinese Small Property is an invaluable source of new information for students and scholars of the field.

**Women, Family and the Russian Revolution** John Peter Roberts, Fred Weston, The

Bolsheviks came to power in a workers' and peasants' revolution supported by the great majority of Russian women. Abortion was legalized immediately and made available to women without charge. For the first time wives were empowered to divorce their husbands, and many took the opportunity. In a society in which few homes had any basic amenities, it was envisaged that women would be freed from household drudgery by child-care centres, communal dining halls, and public laundries; and the predictions of Engels that mutual affection and respect would underpin relations between the sexes would be realised. Under socialism the bourgeois family would wither away, releasing women from kitchen slavery and bringing them equality with men. But the betrayal by Social Democracy of the revolutionary upsurge following WW1, and the pressure of imperialism on an isolated, backward, semi-feudal country meant a reactionary bureaucracy usurped political power, imposed a totalitarian regime, and enacted legislation to strengthen the conservative elements within Soviet society, restricting women's rights to divorce, abolishing the right to abortion, and strengthening the family. This book ends by noting the social and economic degradation imposed on Russian women by capitalist restoration, concluding that only a socialist, proletarian-led revolution can finally achieve women's emancipation.

**Karachi in the Twenty-First Century** Mansoor Bin Tahnoon Al Nehayan, 2016-02-22  
The forces of globalisation are indiscriminate – they enable those who pursue good and those who pursue evil. The changes brought about by globalisation affect all segments of society, all walks of life, all political parties, all religions, all ethnic groups, and all countries. Sometimes they occur in the most unexpected ways and yield complex results that appear to be mystifying and intractable, at least on the surface. This book describes how the forces of globalisation have descended upon Karachi and exacerbated local and regional problems to the point where the city is teetering on the brink of chaos. Karachi is geographically, politically, and culturally situated in the context of modern Pakistan, but is a global city affected by global forces, many of which challenge the state's power and authority. The lessons of Karachi are important for both its present and its future, and they can serve as a cautionary tale for other global cities. Karachi is vitally important to Pakistan. While Islamabad is the country's capital, Karachi is the most important financial centre in the country. It is the centre of banking, industry, economic activity and trade. Many of Pakistan's largest corporations are based in Karachi, including entertainment, arts, fashion, medical research, the automotive industry, shipping, textiles, advertising, publishing, and software development. Karachi is also home to Pakistan's main seaport and two of the largest ports in the region, the Port of Karachi and Port Bin Qasim.

**Tourism and Gentrification in Contemporary Metropolises** Maria Gravari-Barbas, Sandra Guinand, 2017-06-14 Tourism gentrification is a critical shaping force of socio-economic and contemporary urban landscapes. This book aims to be the first substantive text on this subject, explaining the multiple and complex relationships between tourism and gentrification and their outcomes and manifestations in contemporary metropolises. This is achieved by drawing on in-depth case analyses addressing the different issues at stake. Part I deals with the manifestations of tourism gentrification and the ways it affects urban landscapes through heritagization and urban regeneration strategies. Part II looks at the correlations between tourism gentrification and culture. Finally, the last two parts aim to identify and examine forms and expressions of tourism gentrification, distinguishing among the actors, beneficiaries, and victims of the phenomenon while looking at its implications for intra-metropolitan territories and metropolitan governance. The book approaches these issues in an innovative way, by looking at a variety of metropolises in a diverse range of countries and by dealing with the different relations and management issues generated by gentrification in relation to tourism. Through interdisciplinary approaches, this groundbreaking text sheds light on the role tourism plays in contemporary metropolises, furthering knowledge of urban tourism. For these reasons, it will be of particular interest to scholars and students of tourism, urban studies, geography, anthropology and sociology.

*The Most Elusive Scent of All* Arthur Winarczyk, 2013-05-23 A tale told by a dimension - a living consciousness to which some psychic minds are attune to. A tale about the Sicilian Mafia in the 18th century. The consciousness projects mental images of this

period. Images of people, faces rarely distinct, in different situations. The opening words of Chapter 8 is one way to explain such projections: With night came a fierce storm with thunder and lightning and dark visions. Maria slept poorly, tossing and turning. The tale is developed to fit cohesively into those images. A tale about a Way of Life - not about organized crime. In the depression of the 1930s it was the gangster Al Capone who organized soup kitchens for hungry children in Chicago USA such a compassionate deed. Why? To aid the very poor is as much a trait of the Sicilian Mafia as are profits from prostitution. Prostitution always has been one of the largest sources of revenue for the Mafia. The Mafia Way of Life is not easily understood. One reason is that word Mafia is a modern invented word. This tale is about the people that became part of the Mafia in that period, about their background and what led them to accept this Way of Life. People like Pedro, an ox of a man and bodyguard; or Paulo, so talented and saving the life of a woman who would become his wife sets him on a path of no return; of Anastasia and Romeo, a high class prostitute and a killer who fall in love. Central to the tale is the seduction of the first Mafia priest which begins with mysterious notes slid under the church door. in a room full of women I saw her face When the Vatican hears a whisper in the wind young Sister Lucy becomes the key to solving the mystery what does Mafia want with our priests? Some still want the Sicilian Mafia to be a myth but read a modern researched book such as Into the Heart of the Mafia by David Lane and the question you may ask is not who in Sicily is Mafia but who is not? It is a Way of Life ancient in origin. The reader needs to bear in mind too that the original womans perfumes could only be made from an essence of a flower found on a tree that only grows in Italy. Thus the Most Elusive Scent

mentioned all too often could have been the first true perfume ever discovered. Any wonder that scent had a powerful effect on men? And if we were to ask the Sicilian Mafia dimension what is the one word that can best explain Sicilian Mafia the answer is si. Italian for yes. Only a born Sicilian can say si and cosa nostra (our thing; our way) the Mafia way of saying those words. In Sicily there is even a Mafia (cosa nostra) museum and it is ever so popular with tourists!

**Hayek: A Collaborative Biography** Robert Leeson,2019-08-05 This book is the eighth volume in this Collaborative Biography, which explores the life and works of Nobel Prize-winning economist F.A. Hayek (1899-1992). Making extensive use of archival material and Hayek's own published writings, it presents a strong challenge to perceptions of the economist's life and thought. In this volume, chapters canvas subjects such as the relationship between the Austrian School of Economics and the Cold War, the Hapsburg Empire, and the overthrow (or planned overthrow) of democracy in a variety of countries, with a view to examining the process by which economics is constructed and disseminated.

Prediction to 5000 and Miester Erchart Alfred Schmielewski,Yogi A. S. Narayana, For there was a time during the 20th century after Joshua of Nazareth, where the Evil Empires

the United States of America and the Soviet Union had conquered the world and enslaved humanity. (1) For there was a day, where 300 millions of children who had died from hunger during the cruel Cold War came before the Holy Sages. (2) For there was a day, when the Holy and the Wise, the spiritual Lords of Humanity took compassion with the starving and the dying children of the world. Alas, alas the holy sages invoked the justice of the Gods.
