Curious Video Game Machines Lewis Packwood, 2023-11-30 The story of video games is often told as the successive rise of computers and consoles from famous names like Atari, Commodore, Nintendo, Sega, Sony and Microsoft. But beyond this familiar tale, there's a whole world of weird and wonderful gaming machines that seldom get talked about. Curious Video Game Machines reveals the fascinating stories behind a bevy of rare and unusual consoles, computers and coin-ops – like Kimtanktics, a 1970s wargame computer made out of calculator parts, or the suite of Korea-exclusive consoles made by car manufacturer Daewoo. Then there's the Casio Loopy, a 1990s console that doubled up as a sticker printer, the RDI Halcyon, a 1985 LaserDisc-based machine that could recognize your voice, and the Interton VC 4000, a German console made by a hearing-aid company, as well as a range of bizarre arcade machines, from early attempts at virtual reality to pedal-powered flying contraptions. There are tales of missed opportunities, like the astonishingly powerful Enterprise 64 computer, which got caught in development hell and arrived too late to make an impact on the British microcomputer market. And there are tales of little-known triumphs, like the Galaksija DIY computer kit that introduced a whole generation of Yugoslavians to computing before the country became engulfed by war. Featuring exclusive interviews with creators, developers and collectors, Curious Video Game Machines finally shines a light on the forgotten corners of video-game history.

Hollywood Stunt Performers Gene Scott Freese, 1998 Hollywood's stuntmen and stuntwomen willingly risk life and limb to bring excitement to the screen. They crash cars. They swing from helicopters. Here at last is a personal introduction to these professional daredevils. Biographical information, extensive film and television credits, and action photographs shine the spotlight on these highly skilled athletes who will stop at nothing to stop your heart.
