*The SNES Encyclopedia* Chris Scullion, 2020-10-19 “If you didn’t grow up with an SNES and are curious to know about games like Chrono Trigger, Super Metroid and more, then this is the book for you.” –Got Game Following on from the previously released NES Encyclopedia, The SNES Encyclopedia is the ultimate resource for fans of Nintendo’s second home video game console, the Super Nintendo Entertainment System. Containing detailed information on all 780 games released for the SNES in the west, this enormous book is full of screenshots, trivia and charmingly bad jokes. It also includes a bonus section covering the entire twenty-two-game library of the Virtual Boy, Nintendo’s ill-fated 3D system which was released at the end of the SNES’s life. “Without question, The SNES Encyclopedia: Every Game Released for the Super Nintendo Entertainment System makes for an excellent video game library addition. It’s an economical and well-crafted book of Nintendo’s 16-bit history, and it’s sure to leave you yearning for the days of Super Mario World’s vibrant colors, Super Metroid’s intoxicating atmosphere, and Super Punch Out!!’s incredible tension. If you already own The NES Encyclopedia, you’ll know what to expect, but if you’re just starting a collection of video game-themed books, you can’t go wrong with this condense and informative offering.” –Nintendo World Report

*The NES Encyclopedia* Chris Scullion, 2019-03-30 A comprehensive, colorful guide to every game ever released on the classic Nintendo Entertainment System. One of the most iconic video game systems, the NES is credited with saving the American video games industry in the early 1980s. The NES Encyclopedia is the first ever complete reference guide to every game released on the Nintendo Entertainment System, Nintendo’s first industry-defining video game system. As well as covering all 714 officially licensed NES games, the book also includes more than 160 unlicensed games released during its lifespan, giving for the first time a definitive history of this important console’s full library. Written by a retro gaming expert with 30 years of gaming experience and a penchant for bad jokes, The NES Encyclopedia promises to be both informative and entertaining. The NES continues to enjoy a strong cult following among Nintendo fans and gamers in general with wide varieties of officially licensed merchandise proving ever popular. Nintendo’s most recent console, the Switch, is the fastest selling video game console of all time in the United States and Japan. Nintendo launched a variety of classic NES games for download on the system, meaning a new audience of gamers is due to discover the NES for the first time if they have not already. Praise for The NES Encyclopedia “As a catalog of all 876 NES games, this work is unique in its breadth of coverage and will be of great interest to old-school video gamers and collectors.” –Booklist “A definitive resource that is more than worthy of the title ‘Encyclopedia.’ ” –Nintendo World Report

Warren Sharp's 2019 Football Preview Warren Sharp, 2019-06-26 \*Simply the best analytical 2019 football preview you can buy\* Welcome to previewing the NFL through a lens you've never witnessed before. Warren Sharp's 259-page full color 2019 Football Preview is unlike anything you have seen before. Stunning visualizations built with the reader in mind and innovative, next level thought process abound in every team chapter and article. This book shares insights into the players, coaches, teams and philosophies with one goal in mind: to get you prepared for the 2019 season by delivering the smartest information in the fastest, most direct way possible for optimal reviewing and retention. There are so many preseason NFL previews available that offer fans insight into the season, however, few dig as deep as Warren's, with a unique view of what really matters during the season. Sharp's detailed approach is a must read for any football fan--and it's one of my main summer reads.- Michael Lombardi, 3-time Super Bowl Champion, working with Bill Belichick, Bill Walsh & Al Davis Warren's preview exemplifies the use of analytics and information in a way that should be interesting to any fan. It is more in depth than many teams in the NFL are using today. Every GM and coach would serve themselves well to read the analysis of their team. They would both learn something and immediately appreciate the benefit of the information. No one presents it better, and breaks down what it means better than Warren.- Joe Banner, Longtime Philadelphia Eagles President This book breaks down each team by every category imaginable and describes exactly what they did in every situation. If you coach any level of football, from youth to the NFL, you will assuredly receive valuable information. You won't want to put it down.- Kevin Kelley, Head Football Coach & 7-time State Champion at Pulaski Academy Every key element you would want to study is included, such as Fantasy Football (player profiles, ranks & visualizations), Vegas Odds (forecast team wins, division rankings, lines for all 2018 games), Coaching (strategic advice for teams, real vs optimal play calling analysis & uncovering team tendencies) and Front Office Analysis (positional spending, roster construction & cap analysis). Team chapters are detailed and intelligently organized for a massive revolution in reader understanding and information retention. Features embedded audio and video. Warren believes the best way to be successful in fantasy football or betting is to do the opposite of most other publications. There is an industry rush to dive head first into player rankings & projections. Warren starts with fundamental discussion of the game, the teams, their coaching strategy and the players. He then analyzes their strengths and weaknesses with visualizations and data to support the narrative. Using that framework, Warren constructs projections and outlook. By previewing the NFL season in this manner, the reader walks away with much more than ever envisioned or delivered in a season preview. Find out why pro bettors, linemakers and pro-DFA players view this season preview as indispensable. It's a must have if you want to bet on the 2019 Pro Football season. This preview incredibly combines evergreen philosophical football analysis you would find in a reference book with immediate, relevant predictions for the 2019 season. Warren's dedication and acumen for analyzing football is clearly evident. This book is completely unlike anything I've read in a preview before. His ability to approach the game logically, analytically and in a predictive manner sets him apart from the crowd. I have no doubt after reading this preview you will be far more prepared for your fantasy drafts and just football in general. If you're a NFL fan of any kind, I cannot recommend this preview enough.Evan Silva
