Administrative Leaders and School Counselors Lisa A. Wines, Judy A. Nelson, Natalie Fikac, 2023-09-26 This practice-based text offers a roadmap to optimal collaboration for all school leaders – including counselors, superintendents, principals, and university faculty – to provide the best mental health outcomes for students. Administrative Leaders and School Counselors is a timely publication that creatively and cohesively authenticates the relationship between administrative leaders and school counselors. In order to systemically promote mental health consciousness and considerations for school counselors as practitioners and in training, collaboration among school leaders is essential for comprehensive school counseling programs, practices, funding, partnerships, and services designed for students. The first to feature perspectives from a diverse set of leadership positions in schools, the book provides individuals with exposure to educational leadership models and decisions that impact the roles of school counselors. The book will appeal to faculty who are teaching and training those who are or will ultimately be working as professional school counselors, counseling psychologists, or educational leaders such as principals, directors, department chairs, and superintendents.
