**Writing the Australian Beach** Elizabeth Ellison, Donna Lee Brien, 2020-03-02 Writing the Australian Beach is the first book in fifteen years to explore creative and cultural representations of this iconic landscape, and how writers and scholars have attempted to understand and depict it. Although the content chiefly focuses on Australia, the beach as both a location and idea resonates deeply with readers around the world. This edited collection includes three sections. Forms of Beach Writing examines the history of beach writing in Australia and in a number of forms: screenwriting, social media writing, and food writing. In turn, Multiplicities of Australian Beach Writing examines how forms of writing—poetry, travel writing, horror film, and memoir—engage with some specific beaches in Australia. And, finally, Reading the Beach as a Text considers how the beach itself functions in cultural narratives: how we walk the beach; the revealing story of beach soccer; and the design and use of ocean baths. Given its scope, the collection offers a unique resource for scholars of Australian culture and creative writing, and for all those interested in Australian beaches.

Surfing: The Ultimate Guide explains the culture of extreme surfing—including the often violent locals only mentality—and analyzes the dangers involved in riding the world's biggest and most ferocious waves. The author examines the history of extreme surfing, including past and contemporary heroes; the science of giant waves; the technical criteria for riding them; and the future of big-wave riding.

**Surf Lessons** Earl Shores,2016-08-21 Surf Lessons is a new book from author and longtime East Coast surfer Earl Shores.Put your toes in the sand and the wax in your hand as you drop into the pages of this vibrant set of surf stories from Earl Shores. It's a Top 20 of his best work, including favorites from his early days with Eastern Surf Magazine. And it's one of the few surf books ever written from a purely East Coast perspective.That means Surf Lessons isn't full of heroic gnarly surf dudes trekking the globe for perfect waves. Instead, Shores aims his focus on the ordinary moments of the surfing experience. After putting the reader in his regular guy flip-flops, he never fails to capture the passion that inspires surfers to rise before dawn to catch the uncrowded early morning calm.This is a book that all readers can enjoy.So even if you've never climbed into a thick wetsuit for a wintertime wave fix, you will still enjoy Surf Lessons. Just bring your sense of adventure and your sense of humor. And be ready to shake the sand from your trunks and the water from your ears as you turn the final page.

**Rockaway** Diane Cardwell,2020 The inspirational story of one woman learning to surf and creating a new life in gritty, eccentric Rockaway Beach Unmoored by a failed marriage and disconnected from her high-octane life in the city, Diane Cardwell finds herself staring at a small group of surfers coasting through mellow waves toward shore--and senses something shift. Rockawayis the riveting, joyful story of one woman's reinvention--beginning with Cardwell taking the A Train to Rockaway, a neglected spit of land dangling off New York City into the Atlantic Ocean. She finds a teacher, buys a tiny bungalow, and throws her not-overly-athletic self headlong into learning the inner workings and rhythms of waves and the muscle development and coordination needed to ride them. As Cardwell begins to find her balance in the water and out, superstorm Sandy hits, sending her into the maelstrom in search of safer ground. In the aftermath, the community comes together and rebuilds, rekindling its bacchanalian spirit as a historic surfing community, one with its own quirky codes and surf culture. And Cardwell's surfing takes off as she finds a true home among her fellow passionate longboarders at the Rockaway Beach Surf Club, living out the most joyful path through life. Rockawayis a stirring story of inner salvation sought through a challenging physical pursuit--and of learning to accept the idea of a complete reset, no matter when in life it comes.

**The American Surfer** Kristin Lawler,2010-10-18 The image of surfing is everywhere in American popular culture – films, novels, television shows, magazines, newspaper articles, music, and especially advertisements. In this book, Kristin Lawler examines the surfer, one of the most significant and enduring archetypes in American popular culture, from its roots in ancient Hawaii, to Waikiki beach at the dawn of the twentieth century, continuing through Depression-era California, cresting during the early sixties, persistently present over the next three decades, and now, more globally popular than ever. Throughout, Lawler sets the image of the surfer against

the backdrop of the negative reactions to it by those groups responsible for enforcing the Puritan discipline – pro-work, anti-spontaneity – on which capital depends and thereby offers a fresh take on contemporary discussions of the relationship between commercial culture and counterculture, and between counterculture and capitalism.

**A Word on Waves** John Angiulo, 2015-08-05 A Word On Waves combines the author's twenty-two years of surf experience, ten years of professional surf instruction and his personal philosophy on surfing. Through this, John Angiulo has created a book that is a resource for anyone who wants to develop, refresh or enhance their understanding of surfing's moving parts. This includes a detailed analysis of key concepts in the art of reading and riding waves that are unknown to beginners. Through his perspective on surfing John Angiulo imparts to others a sense of reverence for the activity and an awareness of the profound effects it can have on every aspect of life. From health and happiness to family and creativity, A Word On Waves manages to touch on a wide array of subjects within the surf realm. It is a book that emphasizes mentality and the necessity to have fun in surfing. Read it prior to surfing and return to time and time again to sharpen your mastery of yourself in the ocean.

**Surfing with Sartre** Aaron James, 2018-05-01 Jean-Paul Sartre once declared waterskiing to be “the ideal limit of aquatic sports.” Aaron James, who is both an avid surfer and a professor of philosophy, vigorously disagrees. In these pages, he presents his surfer's worldview as a foil to Sartre's, along the way elucidating such philosophical categories as freedom, being, phenomenology, morality, epistemology, and even the emerging values of what he terms “leisure capitalism.” In developing his unique surfer's philosophy, he draws from surf culture and lingo—and engages with philosophers from Aristotle to Wittgenstein. In the process, he speaks to those of us in search of personal and social meaning—particularly in our current anxious moment—by way of real, authentic philosophy. In or out of the water.

**Surfing Places, Surfboard Makers** Andrew Warren, Chris Gibson, 2014-01-31 Over the last forty years, surfing has emerged from its Pacific islands origins to become a global industry. Since its beginnings more than a thousand years ago, surfing's icon has been the surfboard—its essential instrument, the point of physical connection between human and nature, body and wave. To a surfer, a board is more than a piece of equipment; it is a symbol, a physical emblem of cultural, social, and emotional meanings. Based on research in three important surfing locations—Hawai'i, southern California, and southeastern Australia—this is the first book to trace the surfboard from regional craft tradition to its key role in the billion-dollar surfing business. The surfboard workshops of Hawai'i, California, and Australia are much more than sites of surfboard manufacturing. They are hives of creativity

where legacies of rich cultural heritage and the local environment combine to produce unique, bold board designs customized to suit prevailing waves. The globalization and corporatization of surfing have presented small, independent board makers with many challenges stemming from the wide availability of cheap, mass-produced boards and the influx of new surfers. The authors follow the story of board makers who have survived these challenges and stayed true to their calling by keeping the mythology and creativity of board making alive. In addition, they explore the heritage of the craft, the secrets of custom board production, the role of local geography in shaping board styles, and the survival of hand-crafting skills. From the old boards of ancient Hawaiian kahuna to the high-tech designs that represent the current state of the industry, *Surfing Places, Surfboard Makers* offers an entrée into the world of surfboard making that will find an eager audience among researchers and students of Pacific culture, history, geography, and economics, as well as surfing enthusiasts.

Wiring the Streets, Surfing the Square Timothy Jachna, 2021-03-18 This book investigates the production of public space in contemporary urban contexts as conditioned by the suffusion of urban life with digital technologies. A “social production of technology” approach is taken to frame the digitally-mediated city as a communal social and cultural project. Acknowledging the multivalent and shifting nature of public space and the heterogeneity of the urban actors who form it, the “agency” of these different actors in appropriating digital technologies takes center stage. The dynamics of negotiations between regimes of control and impulses towards freedom and experimentation, the entanglement of the spatial commons and the digital commons, changes in the notions of what constitutes membership in a public or counterpublic, and evolving relationships between the various individuals and groups who share and constitute public space, are all revealed in different actors’ appropriation of digital technologies in the formation of public spaces and the conducting of public life in cities. The book is divided into two sections. Drawing on classic and contemporary scholars on public space, and on digital culture, Section I explores the implications of the convergence of these bodies of knowledge and lenses of critique and examination on the present urban condition, establishing a conceptual foundation upon which public space discourse is brought to bear on an interrogation of the “wired” or “mediated” city. Structured by the core concepts that underlie Hannah Arendt’s notion of agency in the constitution of the public sphere, Section II is devoted to discussing, and demonstrating through myriad concrete examples, how different “affordances” of digital technologies are implicated in the production of public space and in the interplay between urban governance and control, urban life and citizenship, and urban commodification. The topics in this book are of broad and current international relevance, and will appeal to scholars and students in architecture, urbanism, design, sociology, and digital culture.
