Latinx Photography in the United States Elizabeth Ferrer, 2021-01-14 Whether at UFW picket lines in California's Central Valley or capturing summertime street life in East Harlem Latinx photographers have documented fights for dignity and justice as well as the daily lives of ordinary people. Their powerful, innovative photographic art touches on family, identity, protest, borders, and other themes, including the experiences of immigration and marginalization common to many of their communities. Yet the work of these artists has largely been excluded from the documented history of photography in the United States. Through individual profiles of more than eighty photographers from the early history of the photographic medium to the present, Elizabeth Ferrer introduces readers to Latinx portraitists, photojournalists, and documentarians and their legacies. She traces the rise of a Latinx consciousness in photography in the 1960s and '70s and the growth of identity-based approaches in the 1980s and '90s. Ferrer argues that in many cases a shared sense of struggle has motivated photographers to work purposefully, driven by a deep sense of resistance, social and political commitments, and cultural affirmation, and she highlights the significance of family photos to their approaches and outlooks. Works range from documentary and street photography to narrative series to conceptual projects. *Latinx Photography in the United States* is the first book to offer a parallel history of photography, one that no longer lies at the margins but rather plays a crucial role in imagining and creating a broader, more inclusive American visual history.

The Effortless Experience Matthew Dixon, Nick Toman, Rick DeLisi, 2013-09-12 Everyone knows that the best way to create customer loyalty is with service so good, so over the top, that it surprises and delights. But what if everyone is wrong? In their acclaimed bestseller *The Challenger Sale*, Matthew Dixon and his colleagues at CEB busted many longstanding myths about sales. Now they've turned their research and analysis to a new vital business subject—customer loyalty—with a new book that turns the conventional wisdom on its head. The idea that companies must delight customers by exceeding service expectations is so entrenched that managers rarely even question it. They devote untold time, energy, and resources to trying to dazzle people and

inspire their undying loyalty. Yet CEB's careful research over five years and tens of thousands of respondents proves that the "dazzle factor" is wildly overrated—it simply doesn't predict repeat sales, share of wallet, or positive word-of-mouth. The reality: Loyalty is driven by how well a company delivers on its basic promises and solves day-to-day problems, not on how spectacular its service experience might be. Most customers don't want to be "wowed"; they want an effortless experience. And they are far more likely to punish you for bad service than to reward you for good service. If you put on your customer hat rather than your manager or marketer hat, this makes a lot of sense. What do you really want from your cable company, a free month of HBO when it screws up or a fast, painless restoration of your connection? What about your bank—do you want free cookies and a cheerful smile, even a personal relationship with your teller? Or just a quick in-and-out transaction and an easy way to get a refund when it accidentally overcharges on fees? The Effortless Experience takes readers on a fascinating journey deep inside the customer experience to reveal what really makes customers loyal—and disloyal. The authors lay out the four key pillars of a low-effort customer experience, along the way delivering robust data, shocking insights and profiles of companies that are already using the principles revealed by CEB's research, with great results. And they include many tools and templates you can start applying right away to improve service, reduce costs, decrease customer churn, and ultimately generate the elusive loyalty that the "dazzle factor" fails to deliver. The rewards are there for the taking, and the pathway to achieving them is now clearly marked.

Color-Line to Borderlands Johnnella E. Butler, 2011-07-01 Ethnic Studies . . . has drawn higher education, usually kicking and screaming, into the borderlands of scholarship, pedagogy, faculty collegiality, and institutional development, Johnnella E. Butler writes in her Introduction to this collection of lively and insightful essays. Some of the most prominent scholars in Ethnic Studies today explore varying approaches, multiple methodologies, and contrasting perspectives within the field. Essays trace the historical development of Ethnic Studies, its place in American universities and the curriculum, and new directions in contemporary scholarship. The legitimation of the field, the need for institutional support, and the changing relations between academic scholarship and community activism are also discussed. The institutional structure of Ethnic Studies continues to be affected by national, regional, and local attitudes and events, and Ronald Takaki's essay explores the contested terrains of these culture wars. Manning Marable delves into theoretical aspects of writing about race and ethnicity, while John C. Walter surveys the influence of African American history on U.S. history textbooks. Elizabeth Cook-Lynn and Craig Howe explain why American Indian Studies does not fit into the Ethnic Studies model, and Lauro H. Flores traces the historical development of Chicano/a Studies, forged from the student and community activism of the late 1960s. Ethnic Studies is simultaneously discipline-based and interdisciplinary, self-containing and overlapping. This volume captures that dichotomy as contributors raise questions that traditional disciplines ignore. Essays include Lane Ryo Hirabayashi and Marilyn Caballero Alquizola

on the gulf between postmodernism and political and institutional realities; Rhett S. Jones on the evolution of Africana Studies; and Judith Newton on the trajectories of Ethnic Studies and Women's Studies and their relations with marginalized communities. Shirley Hune and Evelyn Hu-DeHart each make a case for the separation of Asian American Studies from Asian Studies, while Edna Acosta-Belón argues for a hemispheric approach to Latin American and U.S. Latino/a Studies. T. V. Reed rounds out the volume by offering through cultural studies bridges to the twenty-first century.

The Whale and the Cupcake Julia O'Malley, 2019-12-10 From fish and fiddleheads to salmonberries and Spam, Alaskan cuisine spans the two extremes of locally abundant wild foods and shelf-stable ingredients produced thousands of miles away. As immigration shapes Anchorage into one of the most ethnically diverse cities in the country, Alaska's changing food culture continues to reflect the tension between self-reliance and longing for distant places or faraway homes. Alaska Native communities express their cultural resilience in gathering, processing, and sharing wild food; these seasonal food practices resonate with all Alaskans who come together to fish and stock their refrigerators in preparation for the long winter. In warm home kitchens and remote cafés, Alaskan food brings people together, creating community and excitement in canning salmon, slicing muktuk, and savoring fresh berry pies. This collection features interviews, photographs, and recipes by James Beard Award-winning journalist and third-generation Alaskan Julia O'Malley. Touching on issues of subsistence, climate change, cultural mixing and remixing, innovation, interdependence, and community, *The Whale and the Cupcake* reveals how Alaskans connect with the land and each other through food.
