Studies in Natural Products Chemistry Atta-ur-Rahman,2008-07-24 This volume presents frontier reviews of recent developments in bioactive natural products in cutting-edge areas by eminent experts in their respective fields. It is an essential addition to this important series on Natural Products Chemistry, generally acknowledged to be the leading series on this topic. • The first seven reviews cover recent developments in the field of bioactive marine natural products. • Additional coverage includes Novel Domino reactions; medicinal plants and phytochemicals; recent developments in bioactive natural peptides; the chemistry and pharmacology of natural cyclic lipopeptides; and the biological activities of Salvia . • The text includes a comprehensive review of biologically active compounds of semi-metals such as boron, silicon, arsenic, selenium and tellurium.

Making Ireland English Jane Ohlmeyer,2012-06-26 This groundbreaking book provides the first comprehensive study of the remaking of Ireland's aristocracy during the seventeenth century. It is a study of the Irish peerage and its role in the establishment of English control over Ireland. Jane Ohlmeyer's research in the archives of the era yields a major new understanding of early Irish and British elite, and it offers fresh perspectives on the experiences of the Irish, English, and Scottish lords in wider British and continental contexts. The book examines the resident peerage as an aggregate of 91 families, not simply 311 individuals, and demonstrates how a reconstituted peerage of mixed faith and ethnicity assimilated the established Catholic aristocracy. Tracking the impact of colonization, civil war, and other significant factors on the fortunes of the peerage in Ireland, Ohlmeyer arrives at a fresh assessment of the key accomplishment of the new Irish elite: making Ireland English.
