Certified Macromedia Flash MX Designer Study Guide Christopher Hayes,2003 Readers will learn how to design, structure and optimize for the most efficient Flash animations possible. Each subject is presented in clear and direct language, with useful and well-explained examples and extensive graphical elements. Sample questions accompany each subject.

After Effects for Flash, Flash for After Effects Richard Harrington,Marcus Geduld,2009 Adobe® Creative Suite® 4 brings together two powerful animation tools, each of which has its own specialized features and workflow. Learning to integrate Adobe After Effects and Adobe Flash Professional gives you more options for your animations and effects and the power to integrate video and motion graphics into a richer user experience. In this book, authors Richard Harrington and Marcus Geduld lead both types of users, those who are more familiar with either Flash or with After Effects, on using the programs together for maximum efficiency and creativity. After walking you through the core features of both programs, the authors then explore advanced uses for each application. Each chapter focuses on a particular function of the program, teaching you how to create content for Flash with After Effects, enhance your projects using 3D environments, create professional-looking video with Adobe Media Encoder, and add interactivity, accessibility, and searchability to your video. You'll also get hands-on experience using the project files on the accompanying DVD. Within these easy-to-follow, step-by-step lessons, you'll learn to: Seamlessly exchange projects and assets between After Effects and Flash Shoot green screen material correctly, work with Keylight, and utilize embedded alpha channels Create dynamic text, vector-based animations, and animated video using the tools in Adobe Creative Suite 4 Work with 3D cameras and lights and create 3D environments Convert Flash to broadcast and DVD standards with After Effects Use Adobe Media Encoder for professional results Create interactive controls and use cue points in your video Optimize video for accessibility and use Adobe® Soundbooth® for video transcription Use ActionScript in your projects for more innovative animations Richard Harrington is a certified instructor for Adobe, Apple, and Avid, and an expert in motion graphic design and digital video. He is a regular contributor to Creative Cow, ProVideo Coalition, and numerous industry blogs and magazines. He also owns the visual communications company, RHED Pixel (www.rhedpixel.com) in Washington, DC. Rich is a member of the National Association of Photoshop Professionals Instructor Dream Team, chairs conferences for the National Association of Broadcasters, and has written numerous titles including Understanding Adobe Photoshop CS4, Photoshop for Video, and Broadcast Graphics on the Spot. Marcus Geduld is a freelance programmer who teaches programming, design, animation, compositing, and video editing in New York City. He is the author of Premiere Pro Editing Workshop and After Effects Expressions and is the co-author of After Effects On the Spot. Marcus speaks on technical and artistic topics at numerous conferences and is an Adobe Certified Expert, a Macromedia Certified Developer, and an Avid Certified Instructor. He is artistic director of Folding Chair Classical Theatre, a New-York based company which he runs with his wife, actress Lisa Blankenship.

These detail the integration of After Effects, 3D programs, live action, and a variety of animation techniques, revealing the artistic concepts behind the spots as well as the inventive techniques used to execute them. The enclosed DVD contains QuickTime movies of each of the final animations, allowing you to step through them frame-by-frame so you can examine them in detail.

Foundation Game Design with ActionScript 3.0 Rex van der Spuy, 2012-03-28 In response to the success of the first edition of Foundation Game Design with Flash, Rex van der Spuy has revised and updated all the code to meet current programming best practices, and the focus is now on accurate ActionScript 3.0, regardless of the IDE that you use. We’ve all sneaked the odd five minutes here or there playing the latest Flash game that someone sent around the office, but creating those games is trickier than it looks. The aim of Foundation Game Design with ActionScript 3.0 is to take you, even if you’ve minimal multimedia or programming experience, through a series of step-by-step examples and detailed case studies—to the point where you’ll have the skills to independently design any conceivable 2D game using Flash and ActionScript. Foundation Game Design with ActionScript 3.0 is a non-technical one-stop shop for all the most important skills and techniques a beginning game designer needs to build games with Flash from scratch. Whether you’re creating quick blasts of viral amusement, or more in-depth action or adventure titles, this is the book for you. Focused and friendly introduction to designing games with Flash and ActionScript Detailed case studies of Flash games Essential techniques for building games, with each chapter gently building on the skills of preceding chapters Modern best practices and new content on ActionScript 3.0 Also covers asset creation in Photoshop and Illustrator

Flash Journalism Mindy McAdams, 2012-09-10 This book will assist journalists and Flash developers who are working together to bring video, audio, still photos, and animated graphics together into one complete Web-based package. This book is not just another Flash book because it focuses on the need of journalists to tell an accurate story and provide accurate graphics. This book will illustrate how to animate graphics such as maps, illustrations, and diagrams using Flash. It will show journalists how to integrate high-quality photos and audio interviews into a complete news package for the Web. Each lesson in the book is followed by a learning summary so that journalists can review the skills they have acquired along the way. In addition, the book’s six case studies will allow readers to study the characteristics of news packages created with Flash by journalists and Web developers at The Washington Post, MSNBC.com, and Canadian and European news organizations.
