Competitive Swimming Management David G. Thomas,1988 This book lets coaches spend less time with paperwork and more time with the team. Prepared for high school, collegiate, and age-group swim coaches, this management handbook contains 75 easy-to-duplicate forms, flowcharts, and cards for handling the details of coaching. Coaches can copy the forms or use them to develop their own record keeping system. The book also tells how coaches can get the most out of their student managers.

The Commonwealth Games Brian Oliver,2014-05-22 How well do you know the Friendly Games? Sports journalist Brian Oliver brings the Commonwealth Games to life with riveting stories of the athletes who have competed over the years. He delves into the best tales of the past and interviews the key protagonists to unveil the highs and lows of this idiosyncratic sporting competition. There is the classic contest between Roger Bannister and John Landy just months after both had at last broken the four-minute mile, and the lesser-known struggles of one of Australia's greatest swimmers, Dawn Fraser, against the petty-minded and all-male 'silver spoon mob' who ran amateur sport. Read the sad tale of Emmanuel Ifeajuna, the first ever black African to win a gold medal, in any sport in any international event. He won high jump gold in 1954 and became a national hero in Nigeria, but after staging a coup was arrested for treachery and shot by firing squad. Find out why the 1974 Games in Christchurch, New Zealand were known as the 'Emigration Games', and the story behind the bitter 1980s swimming pool rivalry between England's Adrian Moorhouse and Victor Davis of Canada. There are many more, from that of 4-foot 10-inch weightlifter Precious McKenzie – who rose through brutal abuse and discrimination to record-breaking success and a dance with the Princess Royal – to the penniless and boycotted 1986 Games in Edinburgh that were 'saved' by Robert Maxwell and a bucket of fried chicken. The Commonwealth Games is a fascinating insight into human tales of endeavour, success and failure.

Splitting the Second Alex Cheng,2008 Funny and sometimes shocking stories behind the scenes of major sports events are revealed for the first time in this unusual book. Alex Cheng, president of a company in California that was the North American distributor for Omega Sports Timing, shares his observations in a candid and casual style. His company, Seagull, Inc., was involved in timing systems and scoreboards for the Olympics in Montreal and Lake Placid, Pan Am Games in Mexico City, Commonwealth Games in Edmonton, the Canada Games and many events in skiing, swimming, track and field, car racing, horse racing, rodeos, boat racing, skateboard races, firemen's musters and other sports. This book is sheer entertainment for anyone interested in a variety of sports from a new perspective or how a small company coped with a somewhat frenetic business. At the same time, you will learn fascinating sports facts that will impress your friends. For example: - Did you know runners are timed to 1/100 of a second based on the first part of the torso crossing the line? How is this decided with absolute accuracy? - Did you know the Montreal Olympics main stadium faced a grid lock of construction cranes and was only half finished when the Games began? And this is common with many Olympics! - Did you know the beeping count-down clock next to skiers about to start their race has nothing to do with their actual start time? - Have you wondered what it was like in the hockey stadium on the night of the Miracle on Ice victory in Lake Placid? - Do you know why Olympic style sailboat racing is amazingly similar to barrel racing in rodeos? (You won't find this anywhere else!)

Swimming and Diving Christin Ditchfield,2000 Discusses Olympic swimming and diving competitions, describing the four basic swimming strokes and the three basic diving positions.

Fighting the Current Lisa Bier,2011-09-07 In 1926, Gertrude Ederle became the first female to swim the English Channel--and broke the existing record time in doing so. Although today she is considered a pioneer in women's swimming, women were swimming competitively 50 years earlier. This historical book details the early period of women's competitive swimming in the United States, from its beginnings in the nineteenth century through Ederle's astonishing accomplishment. Women and girls faced many obstacles to safe swimming opportunities, including restrictive beliefs about physical abilities, access to safe and clean water, bathing suits that impeded movement and became heavy in water, and opposition from official sporting organizations. The stories of these early swimmers plainly show how far female athletes have come.
