The history of Protestantism James Aitken Wylie, 1899

A Confederacy of Dunces John Kennedy Toole, 2007-12-01 Winner of the Pulitzer Prize "A masterwork . . . the novel astonishes with its inventiveness . . . it is nothing less than a grand comic fugue."—The New York Times Book Review A Confederacy of Dunces is an American comic masterpiece. John Kennedy Toole's hero, one Ignatius J. Reilly, is huge, obese, fractious, fastidious, a latter-day Gargantua, a Don Quixote of the French Quarter. His story bursts with wholly original characters, denizens of New Orleans' lower depths, incredibly true-to-life dialogue, and the zaniest series of high and low comic adventures (Henry Kisor, Chicago Sun-Times).

The Teeth and Claws of the Buddha Mikael S. Adolphson, 2007-02-28 Japan's monastic warriors have fared poorly in comparison to the samurai, both in terms of historical reputation and representations in popular culture. Often maligned and criticized for their involvement in politics and other secular matters, they have been seen as figures separate from the larger military class. However, as Mikael Adolphson reveals in his comprehensive and authoritative examination of the social origins of the monastic forces, political conditions, and warfare practices of the Heian (794–1185) and Kamakura (1185–1333) eras, these monk-warriors (sōhei) were in reality inseparable from the warrior class. Their negative image, Adolphson argues, is a construct that grew out of artistic sources critical of the established temples from the fourteenth century on. In deconstructing the sōhei image and looking for clues as to the characteristics, role, and meaning of the monastic forces, *The Teeth and Claws of the Buddha* highlights the importance of historical circumstances; it also points to the fallacies of allowing later, especially modern, notions of religion to exert undue influence on interpretations of the past. It further suggests that, rather than constituting a separate category of violence, religious violence needs to be understood in its political, social, military, and ideological contexts.

Assassin's Creed: The Secret Crusade Oliver Bowden, 2011-06-28 In this novel based on the Assassin's Creed™ video game series, Niccolò Polo, father of Marco, will finally reveal the story he has kept secret all his life—the story of Altaïr, one of the Brotherhood's most extraordinary Assassins. Altaïr embarks on a formidable mission—one that takes him throughout the Holy Land and shows him the true meaning of the Assassin's Creed. To demonstrate his commitment, Altaïr must defeat nine deadly enemies, including Templar leader Robert de Sable. Altaïr's life story is told here for the first time: a journey that will change the course of history; his ongoing battle with the Templar conspiracy; a family life that is as tragic as it is shocking; and the ultimate betrayal of an old friend. An Original Novel Based on the Multiplatinum Video Game from Ubisoft

Man and His Symbols Carl G. Jung, 2012-02-01 The landmark text about the inner workings of the unconscious mind—from the symbolism that unlocks the meaning of our dreams to their effect on our waking lives and artistic impulses—featuring more than a hundred images that break down Carl Jung's revolutionary ideas "What emerges with great clarity from the book is that Jung has done immense service both to psychology as a science and to our general understanding of man in society."—The Guardian "Our psyche is part of nature, and its enigma is limitless." Since our inception, humanity has looked to dreams for guidance. But what are they? How can we understand them? And how can we use them to shape our lives? There is perhaps no one more equipped to answer these questions than the legendary psychologist Carl G. Jung. It is in his life's work that the unconscious mind comes to be understood as an expansive, rich world just as vital and true a part of the mind as the conscious, and it is in our dreams—those personal, integral expressions of our deepest selves—that it communicates itself to us. A seminal text written explicitly for the general reader, *Man and His Symbols* is a guide to understanding the symbols in our dreams and using that knowledge to build fuller, more receptive lives. Full of fascinating case studies and examples pulled from philosophy, history, myth, fairy tales, and more, this groundbreaking work—profusely illustrated with hundreds of visual examples—offers invaluable insight into the symbols we dream that demand understanding, why we seek meaning at all, and how these very symbols affect our lives. By illuminating the means to examine our prejudices, interpret psychological meanings, break free of our influences, and recenter our individuality, *Man and His Symbols* proves to be—decades after its conception—a revelatory, absorbing, and relevant experience.

A Military History of South Africa Timothy J. Stapleton, 2010-04-09 This work offers the first one-volume comprehensive military history of modern South Africa. *A Military History of South Africa: From the Dutch-Khoi Wars to the End of Apartheid* represents the first comprehensive military history of South Africa from the beginning of European colonization in the Cape during the 1650s to the current postapartheid republic. With particular emphasis on the last 200 years, this balanced analysis stresses the historical importance of warfare and military structures in the shaping of modern South African society. Important themes include military adaptation during the process of colonial conquest and African resistance, the growth of South Africa as a regional military power from the early 20th century, and South African involvement in conflicts of the decolonization era. Organized chronologically, each chapter reviews the major conflicts, policies, and military issues of a specific period in South African history. Coverage includes the wars of colonial conquest (1830-69), the diamond wars (1869-81), the gold wars (1886-1910), World Wars I and II (1910-45), and the apartheid wars (1948-94).

The Thorn Birds Colleen McCullough, 2010-05-11 One of the most beloved novels of all time, Colleen McCullough's magnificent saga of dreams, struggles, dark passions, and forbidden love in the Australian outback has enthralled readers the world over. *The Thorn Birds* is a chronicle of three generations of Clearys—an indomitable clan of ranchers carving lives from a beautiful, hard land while contending with the bitterness, frailty, and secrets that penetrate their family. It is a poignant love story, a powerful epic of struggle and sacrifice, a celebration of individuality and spirit. Most of all, it is the story of the Clearys' only daughter, Meggie, and the haunted priest, Father Ralph de Bricassart—and the intense joining of two hearts and souls over a lifetime, a relationship that dangerously oversteps sacred boundaries of ethics and dogma.

Homo Deus Yuval Noah Harari, 2017-02-21 Official U.S. edition with full color illustrations throughout. NEW YORK TIMES BESTSELLER Yuval Noah Harari, author of the critically-acclaimed New York Times bestseller and international phenomenon *Sapiens*, returns with an equally original, compelling, and provocative book, turning his focus toward humanity's future, and our quest to upgrade humans into gods. Over the past century humankind has managed to do the impossible and rein in famine, plague, and war. This may seem hard to accept, but, as Harari explains in his trademark style—thorough, yet riveting—famine, plague and war have been transformed from incomprehensible and uncontrollable forces of nature into manageable challenges. For the first time ever, more people die from eating too much than from eating too little; more people die from old age than from infectious diseases; and more people commit suicide than are killed by soldiers, terrorists and criminals put together. The average American is a thousand times more likely to die from binging at McDonalds than from being blown up by Al Qaeda. What then will replace famine, plague, and war at the top of the human agenda? As the self-made gods of planet earth, what destinies will we set ourselves, and which quests will we undertake? *Homo Deus* explores the projects, dreams and nightmares that will shape the twenty-first century—from overcoming death to creating artificial life. It asks the fundamental

questions: Where do we go from here? And how will we protect this fragile world from our own destructive powers? This is the next stage of evolution. This is Homo Deus. With the same insight and clarity that made Sapiens an international hit and a New York Times bestseller, Harari maps out our future.

A History of Graphic Design Philip B. Meggs,1992 Here is the first definitive history of graphic communication. More than a thousand vivid illustrations chronicle our fascinating & unceasing quest to give visual form to ideas.

Tiger-lilies Sidney Lanier,1867 Tiger-Lilies is actually a somewhat autobiographical book. In it, Lanier analyzes the relationship between a Northerner and a Southerner throughout the Civil War. As a Southerner who had fought for the Confederate army, Lanier had experienced the war firsthand, both on the battlefield and as a prisoner of war. These experiences are recognizable in the battle scenes especially, which are considered some of the most realistic representations of Civil War combat in literature. Ultimately, Tiger-Lilies can be interpreted as an anti-war novel and one of Lanier's less successful endeavors in the course of his career.--The History Engine

The Bookseller and the Stationery Trades' Journal ,1899 Official organ of the book trade of the United Kingdom.

Magic Item Compendium Andy Collins,2007 This supplement for the D & D game presents more than 500 new magic items that no adventurer should be without.

The Routledge Anthology of Early Modern Drama Jeremy Lopez,2020-03-10 The Routledge Anthology of Early Modern Drama is the first new collection of the drama of Shakespeare’s contemporaries in over a century. This volume comprises seventeen accessible, thoroughly glossed, modernized play-texts, intermingling a wide range of unfamiliar works—including the anonymous Look About You, Massinger’s The Picture, Heminge’s The Fatal Contract, Heywood’s The Four Prentices of London, and Greene’s James IV—with more familiar works such as Marlowe’s Doctor Faustus, Webster’s The Duchess of Malfi, and Middleton’s Women Beware Women. Each play is edited by a different leading scholar in the field of early modern studies, bringing specific expertise and context to the chosen play-text. With an unprecedented variety of plays, and critical introductions that focus on the diversity and strangeness of different early modern approaches to the artistic and commercial enterprise of play-making, The Routledge Anthology of Early Modern Drama will offer vital new perspectives on early modern drama for scholars, students, and performers alike.

Truth Triumphant Wilkinson, Benjamin George,2015-02-23 A much neglected field of study has been opened by the research of the author into the history of the Christian church from its apostolic origins to the close of the eighteenth century. Taking as his thesis the prominence given to the Church in the Wilderness in Bible prophecy, and the fact that “‘the Church in the Wilderness,’ and not the proud hierarchy enthroned in the world’s great capital, was the true church of Christ,” he has spent years developing this subject. In its present form, Truth Triumphant represents much arduous research in the libraries of Europe as well as in America. Excellent ancient sources are most difficult to obtain, but the author has been successful in gaining access to many of them. To crystallize the subject matter and make the historical facts live in modern times, the author also made extensive travels throughout Europe and Asia. The doctrines of the primitive Christian church spread to Ireland, Scotland, and Wales. As grains of a mustard seed they lodged in the hearts of many Godly souls in southern France and northern Italy — people known as the Albigenses and the Waldenses. The faith of Jesus was valiantly upheld by the Church of the East. This term, as used by the author, not only includes the Syrian and Assyrian Churches, but is also the term applied to the development of apostolic Christianity throughout the lands of the East. The spirit of Christ, burning in the hearts of loyal men who would not compromise with paganism, sent them forth as missionaries to lands afar. Patrick, Columbanus, Marcos, and a host of others were missionaries to distant lands. They braved the ignorance of the barbarian, the intolerance of the apostate church leaders, and the persecution of the state in order that they might win souls to God. To unfold the dangers that were ever present in the conflict of the true church against error, to reveal the sinister working of evil and the divine strength by which men of God made truth triumphant, to challenge the Remnant Church today in its final controversy against the powers of evil, and to show the holy, unchanging message of the Bible as it has been preserved for those who will “fear God, and keep His commandments” — these are the sincere aims of the author as he presents this book to those who know the truth. MERLIN L. NEFF.

The Formations of Modernity Bram Gieben,Stuart Hall,1993-01-04 Formations of Modernity is a major introductory textbook offering an account of the important historical processes, institutions and ideas that have shaped the development of modern societies. This challenging and innovative book 'maps' the evolution of those distinctive forms of political, economic, social and cultural life which characterize modern societies, from their origins in early modern Europe to the nineteenth century. It examines the roots of modern knowledge and the birth of the social sciences in the Enlightenment, and analyses the impact on the emerging identity of 'the West' of its encounters through exploration, trade, conquest and colonization, with 'other civilizations'. Designed as an introduction to modern societies and modern sociological analyses, this book is of value to students on a wide variety of social science courses in universities and colleges and also to readers with no prior knowledge of sociology. Selected readings from a broad range of classical writers (Weber, Durkheim, Marx, Freud, Adam Smith, Montesquieu, Hobbes, Locke, Rousseau) and contemporary thinkers (Michael Mann, E.P. Thompson, Edward Said) are integrated in each chapter, together with student questions and exercises.

The Routledge History of Literature in English Ronald Carter,John McRae,2001 This is a guide to the main developments in the history of British and Irish literature, charting some of the main features of literary language development and highlighting key language topics.
