The Moral Picturesque Darrel Abel,1988 The book is a collection of fourteen essays by Abel on Hawthorne's fiction. The essays were published over a span of about thirty-five years in various scholarly journals. The author has revised some of these essays considerably and has added seven chapters to give the book continuity and unity. Abel studies two characteristics, besides the classic elegance of its style, that distinguish Hawthorne's fiction. One characteristic is Hawthorne's habitual use of a psychological approach to its subjects. He assumed an absolute of archetypal human experiences enacting a providentially directed drama of which he had an uncertain knowledge through sympathy with characters assuming primordial roles. The other characteristic was Hawthorne's use of the mode that he called the moral picturesque. This was a mode of figuration of the archetypal experiences that his psychological preoccupations discovered.

His sensibility penetrated more deeply than his often banal thought, and the picturesque mode enabled him to cognize perceptions that were not reducible to explicit statement. In all his work he was preoccupied with two concerns: how the ideal appears in the real world, and the distinction and relation of the sexes. He saw in both these concerns paradoxes of opposition and affinity. He dealt with these paradoxes, not as subjects of philosophical speculation, but as matters for artistic treatment. In fact, he thought that the problems of relation posed by these paradoxes were insoluble, and his sole concern was to present them vividly and dramatically.

Sylph Abigail Cloud,2014-04-07 In her first collection of poems, Abigail Cloud draws inspiration from nineteenth-century European Romantic ballets, which often portrayed scorned females as mystical spirits such as sylphs, shades, and wilis. Some of these creatures seduced men into dancing until they died -- punishment for inconstancy or lured them into love. For Cloud, the dark gravity that holds these enchanters to the earth is the same as our own and thus these demons are as everyday as air. Sylph filters our

world through the lenses of dance, folklore, and history, revealing our contemporary lives to be dreamlike and prismatic. In the blink the mouse spent to disappear, I loved you, avows the sylph. The cost of her ascension -- and ours -- is steep: our price speech, our forgetting breath. Such are the stakes in this complex, seductive, and stunning debut.

The Sporting review, ed. by 'Craven'. John William Carleton,1840

The New sporting magazine ,

Ships of the Royal Navy J.J. Colledge,Ben Warlow,2010-02-28 The essential historical reference on British warships—fully revised. “Right at the top of the ‘must have’ list . . . A book which will get much use ” (Royal Navy and Maritime Book Reviews). This is the fourth fully revised edition of a book first published in 1970. This longevity is testimony to its enduring value as a reference work—indeed, “Colledge,” as the book is universally known, is still the first stop for anyone wanting more information on any British warship from the fifteenth century to the present day when only the name is known. Each entry gives concise details of dimensions, armament, and service dates, and its alphabetical and chronological arrangement makes it easy to track down the right ship—otherwise the Royal Navy’s

tradition of reusing the same names can be misleading. When originally published, the second of the two volumes was devoted to minor fighting ships and hired and requisitioned vessels. For the third edition, published in one volume, this material was omitted, but for this edition, all the genuine fighting ships—like the numbered Coastal Forces craft—have been restored, resulting in a convenient but comprehensive single-volume listing of all significant vessels. Since the death of Jim Colledge, who was widely respected for his pioneering research on the technical details of warships, his magnum opus has been updated, corrected, and expanded with similar enthusiasm and attention to detail by Ben Warlow, a retired naval officer and author of a number of books in the field. “An amazing and immensely valuable work of dedicated and persistent research.” —Baird Maritime
