Mozart in Vienna Simon P. Keefe,2017-09-21 Mozart's greatest works were written in Vienna in the decade before his death (1781-1791). This biography focuses on Mozart's dual roles as a performer and composer and reveals how his compositional processes are affected by performance-related concerns. It traces consistencies and changes in Mozart's professional persona and his *modus operandi* and sheds light on other prominent musicians, audience expectations, publishing, and concert and dramatic practices and traditions. Giving particular prominence to primary sources, Simon P. Keefe offers new biographical and critical perspectives on the man and his music, highlighting his extraordinary ability to engage with the competing demands of singers and instrumentalists, publishing and public performance, and concerts and dramatic productions in the course of a hectic, diverse and financially uncertain freelance career. This comprehensive and accessible volume is essential for Mozart lovers and scholars alike, exploring his Viennese masterpieces and the people and environments that shaped them.

The First Farmers of Central Europe Penny Bickle,Alasdair Whittle,2013-07-09 From about 5500 cal BC to soon after 5000 cal BC, the lifeways of the first farmers of central Europe, the LBK culture (Linearbandkeramik), are seen in distinctive practices of longhouse use, settlement forms, landscape choice, subsistence, material culture and mortuary rites. Within the five or more centuries of LBK existence a dynamic sequence of changes can be seen in, for instance, the expansion and increasing density of settlement, progressive regionalisation in pottery decoration, and at the end some signs of stress or even localised crisis. Although showing many features in common across its very broad distribution, however, the LBK phenomenon was not everywhere the same, and there is a complicated mixture of uniformity and diversity. This major study takes a strikingly large regional sample, from northern Hungary westwards along the Danube to Alsace in the upper Rhine valley, and addresses the question of the extent of diversity in the lifeways of developed and late LBK communities, through a wide-ranging study of diet, lifetime mobility, health and physical condition, the presentation of the bodies of the deceased in mortuary ritual. It uses an innovative combination of isotopic (principally carbon, nitrogen and strontium, with some oxygen), osteological and archaeological analysis to address difference and change across the LBK, and to reflect on cultural change in general.

Arthur has been overshadowed since childhood by his brilliant, troubled friend. But after years of playing the unassuming companion, he is learning that loyalty has its costs: that old friendship may thwart new love, and perhaps even blur distinctions between the sane and the mad . . . Jott is a story about friendship, madness and modernism from the author of the Man Booker-longlisted Communion Town.

The Power of Posture Naudi Aguilar,2014-08-28 The concept of Functional Patterns is a train of thought that has been building upon itself over the course of my entire lifetime. I was taught at a very young age to question authority and everything around me by my highly skeptical parents. My parents were extremely hard workers who were very resourceful with the little money they had. They lived by the practice what you preach motto in every sense they could. The apple didn't fall very far from the tree and I have embodied (to the best of my ability) what I was fortunate enough to be taught at a very young age. The Functional Patterns method didn't start with the memorization of techniques. It started at a base of reasoning that has seemingly been missing from the industry of health today. When ego checking experiences of life mixed with the values I had already wired in from my childhood, a different approach towards looking at the human organism emerged.
