*Testimony* Solomon Volkov,2021-05-04 The acclaimed classical composer chronicles his life and work in twentieth-century Soviet Russia with the help of a distinguished musicologist. Since the time of his death, Dmitri Shostakovich's place in the pantheon of twentieth-century composers has become more commanding and more celebrated, while his musical legacy, with all its wonderfully varied richness, is performed with increasing frequency throughout the world. This seemingly endless surge of interest can be attributed, at least in part, to Testimony, the powerful memoirs the ailing compose dictated to the young Russian musicology Solomon Volkov. When Testimony was first published in the West in 1979, it became an international bestseller, and was called the "book of the year" by The Times in London. The Guardian heralded Testimony as "the most influential music book of the 20th century." Testimony offers a chance to reckon with the life and work of one of history's most lauded musical geniuses—as a man and an artist.

The Middle Included Ömer Aygün,2016-12-15 The Middle Included is the first comprehensive account of the Ancient Greek word logos in Aristotelian philosophy. Logos means many things in the Aristotelian corpus: essential formula, proportion, reason, and language. Surveying these meanings in Aristotle's logic, physics, and ethics, Ömer Aygün persuasively demonstrates that these diverse meanings of logos all refer to a basic sense of "gathering" or "inclusiveness." In this sense, logos functions as a counterpart to a formal version of the principles of non-contradiction and of the excluded middle in his corpus. Aygün thus shifts Aristotle's traditional image from that of the father of formal logic, classificatory thinking, and exclusion to a more nuanced image of him as a thinker of inclusion. The Middle Included also explores human language in Aristotelian philosophy. After an account of acoustic phenomena and animal communication, Aygün argues that human language for Aristotle is the ability to understand and relay both first-hand experiences and non-first-hand experiences. This definition is key to understanding many core human experiences such as science, history, news media, education, sophistry, and indeed philosophy itself. Logos is thus never associated with any other animal nor with anything divine—it remains strictly and rigorously secular, humane, and yet full of the wonder.

**African Parliaments** M. Salih,2005-12-10 This book offers in-depth analysis of parliamentary development set in a historical context informed by Africa's post-1990s democratic resurgence. In particular, it illustrates how African parliaments are caught between the twin processes of being part of the machinery of government while exercising the function of holding government accountable.

*Taming Java Threads* Allen Holub,2000-06-01 Learning how to write multithreaded applications is the key to taking full advantage of the Java platform. In Taming Java Threads, well-known columnist and Java expert Allen Holub provides Java programmers with the information they need to write real multithreaded programs with real code. Holub provides an in-depth explanation of how threads work along with information about how to solve common problems such as deadlocks and race conditions. He not only explains common problems, but also provides the uncommon solutions that mark the difference between production-level code and toy demos. While it is essential to build support for threading into a Java program from the very beginning, most books on the subjects of Java user interface construction and Java networking barely touch on threading topics. Along with being a basic Java reference, this book is a must-read for any Java developer.

*Voice and Vision: A Creative Approach to Narrative Film and DV Production* Mick Hurbis-Cherrier,2007-03-13 Voice & Vision is a comprehensive manual for the independent filmmakers and film students who want a solid grounding in the tools, techniques, and processes of narrative film in order to achieve their artistic vision. This book includes essential and detailed information on relevant film and digital video tools, a thorough overview of the filmmaking stages, and the aesthetic considerations for telling a visual story. The ultimate goal of this book is to help you develop your creative voice while acquiring the solid practical skills and confidence to use it. Unlike many books that privilege raw technical information or the line-producing aspects of production, Voice & Vision places creativity, visual expression, and cinematic ideas front and center. After all, every practical decision a filmmaker makes, like choosing a location, an actor, a film stock, a focal length, a lighting set-up, an edit point, or a sound effect is also an expressive one and should serve the filmmaker's vision. Every decision, from the largest conceptual choices to the smallest practical solutions, has a

profound impact on what appears on the screen and how it moves an audience. In Practice sidebars throughout Voice & Vision connect conceptual, aesthetic and technical issues to their application in the real world. Some provide a brief analysis of a scene or technique from easily rentable films which illustrate how a specific technology or process is used to support a conceptual, narrative, or aesthetic choice. Others recount common production challenges encountered on real student and professional shoots which will inspire you to be innovative and resourceful when you are solving your own filmmaking challenges.

**The Collaborative Economy in Action: European Perspectives** Andrzej Klimczuk, Vida Česnuityte, Gabriela Avram, 2021-10-04 The book titled The Collaborative Economy in Action: European Perspectives is one of the important outcomes of the COST Action CA16121, From Sharing to Caring: Examining the Socio-Technical Aspects of the Collaborative Economy (short name: Sharing and Caring; [sharingandcaring.eu](http://sharingandcaring.eu)) that was active between March 2017 and September 2021. The Action was funded by the European Cooperation in Science and Technology - COST ([www.cost.eu/actions/CA16121](http://www.cost.eu/actions/CA16121)). The main objective of the COST Action Sharing and Caring is the development of a European network of researchers and practitioners interested in investigating the collaborative economy models, platforms, and their socio-technological implications. The network involves scholars, practitioners, communities, and policymakers. The COST Action Sharing and Caring helped to connect research initiatives across Europe and enabled scientists to develop their ideas by collaborating with peers. This collaboration opportunity represented a boost for the participants' research, careers, and innovation potential. The main aim of this book is to provide a comprehensive overview of the collaborative economy (CE) in European countries with a variety of its aspects for a deeper understanding of the phenomenon as a whole. For this reason, in July 2017, an open call for country reports was distributed among the members of the COST Action Sharing and Caring. Representatives of the member countries were invited to produce short country reports covering: definition(s) of the CE; types and models of the CE; key stakeholders involved; as well as legislation and technological tools relevant for the CE. Submitted reports varied in length and regarding the level of detail included, in accordance with how much information was available in each respective country at the time of writing. Editors of the book have compiled these early reports into a summary report, which was intended as a first step in mapping the state of the CE in Europe. The Member Countries Report on the Collaborative Economy, edited by Gaia Mosconi, Agnieszka Lukaszewicz, and Gabriela Avram (2018) that was published on the Sharing and Caring website, represented its first synergetic outcome and provided an overview of the CE phenomenon as interpreted and manifested in each of the countries part of the network. Additionally, Sergio Nassare-Aznar, Kosjenka Dumančić, and Giulia Piora compiled a Preliminary Legal Analysis of Country Reports on Cases of Collaborative Economy (2018). In 2018, after undertaking an analysis of the previous reports' strengths and weaknesses, the book editors issued a call for an updated version of these country reports. Prof. Ann Light advised the editorial team, proposing a new format for country reports and 4000 words limit. The template included: Introduction, Definition, Key Questions, Examples, Illustration, Context, Developments, Issues, Other Major Players, and Relevant Literature. The new template was approved by the Management Committee in October 2018. The task force that had supported the production of the first series of country reports (Dimitar Trajanov, Maria del Mar Alonso, Bálint Balázs, Kosjenka Dumančić, and Gabriela Avram) acted as mentors for the team of authors in each country. The final reports arrived at the end of 2018, bringing the total number of submissions to 30 (twenty-nine European countries plus Georgia). A call for book editors was issued, and a new editorial team was formed by volunteers from the participants of the COST Action: Andrzej Klimczuk, Vida Česnuityte, Cristina Miguel, Santa Mijalche, Gabriela Avram, Bori Simonovits, Bálint Balázs, Kostas Stefanidis, and Rafael Laurenti. The editorial team organized the double-blind reviews of reports and communicated to the authors the requirements for improving their texts. After reviews, the authors submitted updated versions of their country reports providing up-to-date interdisciplinary analysis on the state of the CE in 2019, when the reports were collected. During the final phase, the chapters were again reviewed by the lead editors together with all editorial team members. At the time, the intention was to update these reports again just before the end of the COST Action Sharing and Caring in 2021 and to produce a third edition. However, the COVID-19 pandemic changed these plans. Thus, this final volume was created by 82 scholars-editors and contributors-and consists of reports on 27 countries participating in the COST Action.
