**The Guardians - Threat Of Extinction** Don Vecelli,2022-01-05 The Guardians – Threat Of Extinction begins with a Lataran Guardianship leaving their home planet on a mission to investigate a report that one of their protector planets had been attacked by a new enemy alien race called the Tyrax who have invaded their star systems. First Commander Òmon is in charge of the Guardianship named Poltara. What Òmon finds on the mission is abhorrent to his species. The Tyrax would not negotiate for peace. They seemed intent upon eliminating any race they discovered to take control of the planet for themselves. This act of extreme annihilation could not be tolerated and the Latarans were now at war with the Tyrax. Not only were the Tyrax determined to destroy the Lataran people, they used a new terraforming weapon on every world they attacked to make it suitable for their species. Something about the Tyrax required the need for a different type of world than was currently present for their survival. Òmon was determined to find out just what the reason for this was. Later, Òmon was given a new mission by his superior commander. He was ordered to journey to a new star system to protect it from the Tyrax before it was discovered. The reason for this was unusual. It seemed the race in this star system called Sol was another warrior-like species. They fight each other to the point of extinction of the losing race. He must recruit them to fight on Lataran Guardianships and Starfighters if they hope to win the war against the Tyrax. Supreme Master Commander Galis is the leader of the Tyrax Empire located in the Canis Major Dwarf Galaxy in the constellation Canis Major 42,000 light-years from the Galactic Center of the Milky Way galaxy. Their dwarf galaxy was in the process of being torn apart by the gravitational forces of the Milky Way galaxy. First Commander Eto is given a special assignment to test a new Doomsday weapon that can be used to terraform whole planets in a matter of days. He is assigned a new mission to use the weapon on the star system called Sol. This is a Novella Prequel story that introduces several main characters and situations that follow in The Guardians Series. Book 1 begins when the Tyrax attack Earth and send a Doomsday weapon that detonates multiple missile warheads over twenty-four sparsely inhabited land areas around the globe. It causes a biological transformation using nanobots that threaten to destroy all life forms on the planet within days. Only the Lataran Guardian Òmon can help save Earth from extinction. Book 2 continues the story when the Tyrax return to finish the job with a new weapon they call the Destroyer, a large asteroid that will do more damage to the biosphere than the meteorite that wiped out the dinosaurs sixty-five million years ago. In Book 3, the Tyrax are building a large particle accelerator to create an antimatter weapon to use against Earth. The first opponent to build the weapon will win this Galactic Space War between good and evil alien races.

*Silent Coup of the Guardians* Todd Andrew Schmidt,2022-11-14 Growing political radicalization and polarization in American government has created a scarcity of civilian leadership, knowledge, expertise, and power. Political rivals and adversaries, too busy combating each other, have abandoned the helm of the ship of state, setting reason, compromise, intellectual curiosity, and effective governing adrift. A faction of exceptionally capable and influential guardians—America’s military elites—increasingly fill roles in civil society and government intended for competent, democratically elected or politically appointed civilian leaders who are held accountable to the American electorate. Todd Schmidt demonstrates that U.S. military elites play an exceptionally powerful role due to their due to their extraordinary influence over policy process, outcome, and implementation. Through personal interviews with high-ranking national security experts across six presidential administrations, Schmidt concludes that nuanced relationships between military elites, the president, and Congress; decision-making in national security and foreign policy; and the balance of power in civil-military relations suggest a potential trend of praetorian behavior among military elites. A silent coup of the guardians has occurred, and professionals and citizens need to ask what should be done to rebalance U.S. civil-military relations.

*The Guardians* Geoffrey Kabaservice,2004-04 Examines the role of Yale president Kingman Brewster in shaping modern liberalism and his position as a political mentor to such figures as Kennedy adviser McGeorge Bundy and Attorney General Elliot Richardson.

*Guardians of Empire* David Killingray,2017-03-01 For imperialists, the concept of guardian is specifically to the armed forces that kept watch on the frontiers and in the heartlands of imperial territories. Large parts of Asia and Africa, and the islands of the Pacific and the Caribbean were imperial possessions. This book discusses how military requirements and North Indian military culture, shaped the cantonments and considers the problems posed by venereal diseases and alcohol, and the sanitary strategies pursued to combat them. The trans-border Pathan tribes remained an insistent problem in Indian defence between 1849 and 1947. The book examines the process by which the Dutch elite recruited military allies, and the contribution of Indonesian soldiers to the actual fighting. The idea of naval guardianship as expressed in the campaign against the South Pacific labour trade is examined. The book reveals the extent of military influence of the Schutztruppen on the political developments in the German protectorates in German South-West Africa and German East Africa. The U.S. Army, charged with defending the Pacific possessions of the Philippines and Hawaii, encountered a predicament similar to that of the mythological Cerberus. The regimentation of military families linked access to women with reliable service, and enabled the King's African Rifles to inspire a high level of discipline in its African soldiers, askaris. The book explains the political and military pressures which drove successive French governments to widen the scope of French military operations in Algeria between 1954 and 1958. It also explores gender issues and African colonial armies.

**The Guardians: Kingman Brewster, His Circle, and the Rise of the Liberal Establishment** Geoffrey Kabaservice,2014-09-02 How liberalism and one of the most dramatic eras in American history were shaped by an influential university president and his powerful circle of friends Yale's Kingman Brewster was the first and only university president to appear on the covers of Time and Newsweek, and the last of the great campus leaders to become an esteemed national figure. He was also the center of the liberal establishment—a circle of influential men who fought to keep the United States true to ideals and extend the full range of American opportunities to all citizens of every class and color. Using Brewster as his focal point, Geoffrey Kabaservice shows how he and his lifelong friends—Kennedy adviser McGeorge Bundy, Attorney General and statesman Elliot Richardson, New York mayor John Lindsay, Bishop Paul Moore, and Cyrus Vance, pillar of Washington and Wall Street—helped usher this country through the turbulence of the 1960s, creating a legacy that still survives. In a narrative that is as engaging and lively as it is meticulously researched, The Guardians judiciously and convincingly reclaims the importance of Brewster and his generation, illuminating their vital place in American history as the bridge between the old establishment and modern liberalism.

**The Guardians of Ascension Series, Books 1-3** Caris Roane,2015-05-05 Vampires, warriors, Kerrick, Marcus, and Antony have fought their hunger for a woman's love for the past two hundred years. As the Guardians of Ascension, they are sworn to protect the world from the death vamp armies who crave blood and power. But what happens when these Guardians meet their perfect match? Ascension Kerrick has remained strong for years, but will he be able to ignore the forbidden longing to open his heart and veins to Alison, to share his blood...satisfy his thirst...and seal their fates forever? Burning Skies A vampire warrior in exile, Marcus Amargi has a deeper battle on his hands than fighting vampires—the seductive lure of Havily Morgan. The woman meant for him. Whose blood he craves. The one who comes to him in dreams—and demands his surrender... Wings of Fire By night, the winged warrior Antony Medichi fights the death vampires who threaten his world. By day, he hunts the rogue vampires who invade Mortal Earth. But deep in his heart rages the fiercest battle of all—his soul-searing passion for the one mortal he is sworn to protect...the one woman he is doomed to love, but if Parisa hopes to survive—and ascend—she must forge an even deeper bond with Antony...in the flames of eternity. Fall under the spell of the first three books in the Guardians of Ascension series that Lara Adrian calls, sexy, cool, edgy romantic fantasy...Prepare to be enthralled.
