The Politics of Victimhood in Post-conflict Societies

Vincent Druliolle, Roddy Brett, 2019-02-02 This volume sheds new light upon the role of victims in the aftermath of violence. Victims are central actors in transitional justice, the politics of memory and conflict resolution, yet the analysis of their mobilisation and political influence in these processes has been neglected. After introducing and explaining the reasons for this limited interest, the book's chapters focus on a range of settings and draw on different disciplines to offer insights into the interrelated themes of victimhood – victims, their individual and collective identities, and their role in and impact upon post-conflict societies – and the politics of victimhood – meaning how victimhood is defined, negotiated and contested, both socially and politically. Because it outlines a stimulating research agenda and challenges the view that victims are passive or apolitical, this interdisciplinary volume is a significant contribution to the literature and will be of interest to scholars from disciplines such as law, anthropology, political science, human rights, international studies, and to

practitioners.

Communicating Causes Nicky Garsten, Ian Bruce, 2018-06-13 Non-profit organizations (NPOs) across the world are facing criticism alongside approbation. In order for NPOs to effectively support their causes, they require public trust. The editors of this book have persuaded PR experts from the UK and around the

world, from a variety of PR specialisms operating across different organizational forms, to share their knowledge and experience. These contributions are scaffolded with authoritative academic and practical advice, as well as solutions. The book starts with foundations that underpin communications for causes. These include arguments that support the importance of non-profits in civil society; lessons in corporate governance; and a new approach to issues management. PR planning subjects tailored, or specific, to the sector include: strategic global communications planning, agile digital communications; branding internal communications and the securing of meaningful outcomes. Corporate partnerships are examined with a new 'Fit to Partner Test' and consideration of the mandated corporate social responsibility (CSR) in India, corporate volunteering in Brazil, and CSR in South Africa. Relations between governments and non-profits are also considered, both generally and with a particular focus on China. Communicating Causes looks at effective strategy and practice of PR in the modern non-profit. Including forewords by both John Grounds and Jon Snow, the expert perspectives offered in this book provide valuable support to current and future communicators.
