*Groundbreaking* Alvin Pang,Stewart Tan,Amit Prakash,Alvin Chua,Pearlwin Koh,Shuyi Ling,Nicholas Oh,Jie Hui Ong,Raynold Toh,Michelle Zhu,2019 To mark MND's 60th anniversary in 2019, *Groundbreaking: 60 Years of National Development in Singapore* chronicles the story of Singapore's national development from pre-independence to the present day. Led by a foreword by Minister for National Development Lawrence Wong and a preface by MND Permanent Secretary Ow Foong Pheng, the book draws on newspapers, interviews and photos to explore 200 years of urban planning in Singapore as well as the Ministry's most significant milestones and achievements in shaping Singapore as a city and transforming the lives of citizens through key initiatives and policies. The book outlines how the Ministry and its agencies transformed Singapore in just six decades from squatters in slums to proud homeowners in modern housing estates; from modest shophouses to towering skyscrapers; from dirty, dusty streets to lush gardens and world-renowned skylines. With a pragmatic, can-do spirit, strong camaraderie and a sense of common purpose, the Ministry brought together the custodians of Singapore's built environment—planners, developers, architects, policymakers and civil servants—to overcome the many challenges that have confronted Singapore in its journey from Third World to First. The Ministry and its agencies are the kampung that built a global city--

*Assessment of Microinsurance as Emerging Microfinance Service for the Poor* Asian Development Bank,2017-02-01 The Asian Development Bank (ADB) is an active partner of the Government of the Philippines in developing microfinance---the provision of insurance products that meet the needs of the disadvantaged for risk protection and relief against misfortune. As a result, microfinance activities have increased, and diversified formal financial services were made available to impoverished clients at affordable costs. However, there is still the risk of making poverty-stricken clients worse off because of unexpected events, prompting ADB to create interventions that focus on microinsurance development. This report assesses the expansion of microinsurance activities based on the Philippines' experience, with guidance on next steps forward.

**Cultural Transfer and Political Conflicts** Andreas Kötzing,Caroline Moine,2017-07-17 Film festivals during the Cold War were fraught with the political and social tensions that dominated the world at the time. While film was becoming an increasingly powerful medium, the European festivals in particular established themselves as showcases for filmmakers and their perceptions of reality. At the same time, their

prestigious, international character attracted the interest of states and private players. The history of these festivals thus sheds light not only on the films they made available to various publics, but on the cultural policies and political processes that informed their operations. Presenting new research by an international group of younger scholars, *Cultural Transfer and Political Conflicts* critically investigates postwar history in the context of film festivals reconstructing not only their social background and international dispensation, but also their centrality for cultural transfers between the East, the West and the South during the Cold War.

Developments in the world have shown how simple it is to acquire all sorts of information through the use of computers. This information can be used for a variety of endeavors, and criminal activity is a major one. In an effort to fight this new crime wave, law enforcement agencies, financial institutions, and investment firms are incorporating computer forensics into their infrastructure. From network security breaches to child pornography investigations, the common bridge is the demonstration that the particular electronic media contained the incriminating evidence. Supportive examination procedures and protocols should be in place in order to show that the electronic media contains the incriminating evidence.
