The book outlines how the Ministry and its agencies transformed Singapore in just six decades from squatters in slums to proud homeowners in modern housing estates; from modest shophouses to towering skyscrapers; from dirty, dusty streets to lush gardens and world-renowned skylines. With a pragmatic, can-do spirit, strong camaraderie and a sense of common purpose, the Ministry brought together the custodians of Singapore09s built environment04planners, developers, architects, policymakers and civil servants04to overcome the many challenges that have confronted Singapore in its journey from Third World to First. The Ministry and its agencies are the kampung that built a global city--

**Assessment of Microinsurance as Emerging Microfinance Service for the Poor** Asian

Development Bank,2017-02-01 The Asian Development Bank (ADB) is an active partner of the Government of the Philippines in developing microfinance---the provision of insurance products that meet the needs of the disadvantaged for risk protection and relief against misfortune. As a result, microfinance activities have increased, and diversified formal financial services were made available to impoverished clients at affordable costs. However, there is still the risk of making poverty-stricken clients worse off because of unexpected events, prompting ADB to create interventions that focus on microinsurance development. This report assesses the expansion of microinsurance activities based on the Philippines' experience, with guidance on next steps forward.

**Reinventing Collapse** Dmitry Orlov, 2011-06-01 A guide to the decline of the American empire for individuals, families and communities The United States is in steep decline. Plagued by runaway debt, a shrinking economy, and environmental catastrophes to rival Chernobyl, the United States has been retracing the trajectory of the Soviet Union in the early 1980s toward national bankruptcy and political dissolution. By comparing a collapse that has run its course to one that is now unfolding, Dmitry Orlov holds a unique lens up to America's present and future. As Orlov's predictions continue to come true, his writing continues to gain mainstream acceptance. This revised and updated edition of *Reinventing Collapse* examines the circumstances of the demise of the Soviet superpower and offers clear insights into how we might prepare for the events that are

unfolding here. Orlov gives no quarter to prophets of doom and gloom, finding plenty of room for optimism, if only we focus our efforts on personal and cultural transformation instead of trying to perpetuate an impossible status quo. This challenging yet inspiring and surprisingly upbeat work is a must-read for anyone concerned about peak oil, the environment, geopolitics, international relations, and life in a resource-constrained world. Dmitry Orlov is an American engineer who was an eyewitness to the Soviet collapse and has written extensively on the subject of the impending collapse of the United States.
