EasyWriter with Exercises Andrea A. Lunsford,2018-11-07

When your students need reliable, easy-to-find writing advice for college and beyond, EasyWriter with Exercises gives them what they need in a format that's easy to afford. Andrea Lunsford meets students where there are with friendly advice, research-based tips for solving the Top Twenty writing problems, and an emphasis on making effective rhetorical choices. The seventh edition puts even more emphasis on empowering students to become critical thinkers and ethical communicators with new advice about fact checking and evaluating sources and more advice about choosing language that builds common ground. In addition, the seventh edition offers more support for writing in a variety of disciplines and genres and more models of student writing to help students make effective choices in any context. EasyWriter with Exercises can be packaged at a significant discount with LaunchPad Solo for Lunsford Handbooks, which includes dozens of additional writing models as well as exercises, LearningCurve adaptive quizzing, videos, and podcasts.

Cultural Transfer and Political Conflicts Andreas

Kötzing, Caroline Moine,2017-07-17 Film festivals during the Cold War were fraught with the political and social tensions that dominated the world at the time. While film was becoming an increasingly powerful medium, the European festivals in particular established themselves as showcases for filmmakers and their perceptions of reality. At the same time, their prestigious, international character attracted the interest of states and private players. The history of these festivals thus sheds light not only on the films they made available to various publics, but on the cultural policies and political processes that informed their operations. Presenting new research by an international group of younger scholars, Cultural Transfer and Political Conflicts critically investigates postwar history in the

context of film festivals reconstructing not only their social background and international dispensation, but also their centrality for cultural transfers between the East, the West and the South during the Cold War.

State Power in China, 900-1325 Patricia Buckley

Ebrey, Paul Jakov Smith, 2016-08-25 This collection provides new ways to understand how state power was exercised during the overlapping Liao, Song, Jin, and Yuan dynasties. Through a set of case studies, *State Power in China, 900-1325* examines large questions concerning dynastic legitimacy, factional strife, the relationship between the literati and the state, and the value of centralization. How was state power exercised? Why did factional strife periodically become ferocious? Which problems did reformers seek to address? Could subordinate groups resist the state? How did politics shape the sources that survive? The nine essays in this volume explore key elements of state power, ranging from armies, taxes, and imperial patronage to factional struggles, officials' personal networks, and ways to secure control of conquered territory. Drawing on new sources, research methods, and historical perspectives, the contributors illuminate the institutional side of state power while confronting evidence of instability and change—of ways to gain, lose, or exercise power.

Film Festivals Marijke de Valck, Brendan Kredell, Skadi Loist, 2016-02-26 The last decade has witnessed an explosion of interest in film festivals, with the field growing to a position of prominence within the space of a few short years. *Film Festivals: History, Theory, Method, Practice* represents a major addition to the literature on this topic, offering an authoritative and comprehensive introduction to the area. With a combination of chapters specifically examining history, theory, method and practice, it offers a clear structure and systematic approach for the study of film festivals. Offering a collection of essays written by an international range of established scholars, it discusses well-known film festivals in Europe, North America and Asia, but equally devotes attention to the diverse range of smaller and/or specialized events that take place around the globe. It provides essential knowledge on the origin and development of film festivals, discusses the use of theory to study festivals, explores the methods of ethnographic and archival research, and looks

closely at the professional practice of programming and film funding. Each section, moreover, is introduced by the editors, and all chapters include useful suggestions for further reading. This will be an essential textbook for students studying film festivals as part of their film, media and cultural studies courses, as well as a strong research tool for scholars that wish to familiarize themselves with this burgeoning field.

Age Power Ken Dychtwald, 2000-09-25 In this breakthrough book, Dychtwald explains how individuals, businesses, and governments can best prepare for a new era in which the priorities of our homes and nation will be set by the needs and desires of the elderly. He surveys how each of us must make individual decisions right now to age-proof our lives.

China and the Roman Orient Friedrich Hirth, 1885

Messy Urbanism Manish Chalana, Jeffrey Hou, 2016-06-01 Seemingly messy and chaotic, the landscapes and urban life of cities in Asia possess an order and hierarchy that often challenges understanding and appreciation. With contributions by a cross-disciplinary group of authors, *Messy Urbanism: Understanding the "Other" Cities of Asia* examines a range of cases in Asia to explore the social and institutional politics of urban informality and the contexts in which this "messiness" emerges or is constructed. The book brings a distinct perspective to the broader patterns of informal urban orders and processes as well as their interplay with formalized systems and mechanisms. It also raises questions about the production of cities, cityscapes, and citizenship. *Messy Urbanism* will appeal to professionals, students, and scholars in the fields of urban studies, architecture, landscape architecture, planning and policy, as well as Asian studies. "The rubric of 'messy urbanism' is a productive antidote to the binaries that have limited a productive discussion about urbanism in Asia. This book is a significant contribution in understanding the inherent nature of the built environments in aspiring democracies—an emergent urbanism that seamlessly

embraces the incremental, temporal, and ephemeral as given conditions in the formation of Asian cities.” —Rahul Mehrotra, Architect / Professor of Urban Design and Planning, Harvard University “This book is of a high quality, with multiple examples from Hong Kong and China. The authors have covered the topic admirably and I expect the book to attract a wide readership.” —Vinit Mukhija, Associate Professor and Vice Chair of Urban Planning, UCLA

The Zen Monastic Experience Robert E. Buswell

Jr., 2020-07-21 Robert Buswell, a Buddhist scholar who spent five years as a Zen monk in Korea, draws on personal experience in this insightful account of day-to-day Zen monastic practice. In discussing the activities of the postulants, the meditation monks, the teachers and administrators, and the support monks of the monastery of Songgwang-sa, Buswell reveals a religious tradition that differs radically from the stereotype prevalent in the West. The author's treatment lucidly relates contemporary Zen practice to the historical development of the tradition and to Korean history more generally, and his portrayal of the life of modern Zen monks in Korea provides an innovative and provocative look at Zen from the inside.

Sonic Theology Guy L. Beck, 1995

The Great East Asian War and the Birth of the Korean Nation JaHyun Kim Haboush, 2016-03-08 The Imjin War (1592-1598) was a grueling conflict that wreaked havoc on the towns and villages of the Korean Peninsula. The involvement of Chinese, Japanese, and Korean forces, not to mention the regional scope of the war, was the largest the world had seen, and the memory dominated East Asian memory until World War II. Despite massive regional realignments, Korea's Chosôn Dynasty endured, but within its polity a new, national discourse began to emerge. Meant to inspire civilians to rise up against the Japanese army, this potent rhetoric conjured a unified Korea and intensified after the Manchu invasions of 1627 and 1636. By

documenting this phenomenon, JaHyun Kim Haboush offers a compelling counternarrative to Western historiography, which ties Korea's idea of nation to the imported ideologies of modern colonialism. She instead elevates the formative role of the conflicts that defined the second half of the Chosôn Dynasty, which had transfigured the geopolitics of East Asia and introduced a national narrative key to Korea's survival. Re-creating the cultural and political passions that bound Chosôn society together during this period, Haboush reclaims the root story of solidarity that helped Korea thrive well into the modern era.

Polish Cinema in a Transnational Context Ewa

Collaborative Writing in L2 Classrooms Neomy

Storch, 2013-07-04 In this first book-length treatment of collaborative writing in second language (L2) classrooms, Neomy Storch provides a theoretical, pedagogical and empirical rationale for the use of collaborative writing activities in L2 classes, as well as some guidelines about how to best implement such activities in both face-to-face and online mode. The book discusses factors that may impact on the nature and outcomes of collaborative writing, and examines the beliefs about language learning that underpin learners' and teachers' attitudes towards pair and group work. The book critically reviews the available body of research on collaborative writing and identifies future research directions, thereby encouraging researchers to continue investigating collaborative writing activities.

The Global Digital Economy: A Comparative Policy Analysis - Student Edition Holroyd, Carin, Coates, Ken S., 2015-01-08 Note: this is an abridged version of the original book with references removed. The complete edition is also

available. This book explores the intersection of public policy and the fast changing digital media economy. Over the last 20 years, digital technologies and digital content have revolutionized many aspects of social, economic and political life around the world. Governments, locked into the policies and programs of the traditional economy, are struggling to respond to this dynamic and commercially unique global ecosystem. This study examines the nature and extent of the digital economy, looking at both the commercial diversity within the sector and the different digital implementations across the world. While the digital engagement of North America is well known, the scale and intensity of digital growth in East Asia is not fully understood not are the transformative changes occurring in parts of Africa. The digital world is marked by the unexpected and rapid re-orientation of economic, social, cultural and political affairs. The digitization of work, for example, has already brought major disruptions within national economies. Governments are struggling to respond, in part because of pressures from the traditional industrial and resource sectors but also because of the unique, somewhat anarchistic nature of the digital content industry. The Global Digital Economy provides a profile of the global digital environment, reviews current government digital policies (with an emphasis on innovative strategies), and offers policy suggestions for national and subnational governments. Countries that respond creatively to the digital economy--like Taiwan, South Korea, Finland and Israel--stand to prosper from the anticipated accelerated growth of the sector. Those nations that struggle to keep pace with the digital infrastructure needs of the new economy and with the potential for employment and business creation stand to fall behind economically. This book provides a policy roadmap for the digital economy and identifies the risks and opportunities of this core sector in the twenty-first-century economy.
