**Tao Te Ching** Stefan Stenudd,2015-06-04 Tao Te Ching is the 2,500 years old source to Taoism, written by the legendary Taoist philosopher Lao Tzu. In 81 short chapters, he presented the world according to Tao, the Way, and how mankind should adapt to it. The book has become one of the foremost world classics of wisdom – maybe even more relevant today, than it was to Lao Tzu's contemporaries. This translation of the text focuses on the clarity and simplicity by which Lao Tzu expresses his fascinating cosmology and profound ethics. Each chapter is thoroughly explained, also regarding how this old wisdom can be understood and applied today. Stefan Stenudd is a Swedish writer of both fiction and non-fiction. As a historian of ideas, he studies the thought patterns in creation myths around the world. He is also a high-grade instructor of the peaceful martial art aikido, which he has practiced for almost 40 years.

*Tao Te Ching* Ralph Allen Dale,2016-10-11 'This is an extraordinary book, enlightening and insightful in personal and social realms. Many readers will value it as a work of art, others because of the new meaning it gives to their lives. Dr. Dale's work is, in fact, a treasure for today and for the future.' Milton Schwebel, Ph.D., Professor Emeritus of Psychology, Professional Psychology, Rutgers. The late Ralph Alan Dale translates Tao as the Great Integrity, that is the return to holism, honesty and creativity; our harmony with each other, with the environment and indeed with ourselves. According to tradition, it was written around 6th century BC by the sage Laozi , a record-keeper at the Zhou dynasty court, by whose name the text is known in China. The text's true authorship and date of composition or compilation are still debated, although the oldest excavated text dates back to the late 4th century BC. The Tao Te Ching, along with the Zhuangzi, is a fundamental text for both philosophical and religious Taoism, and strongly influenced other schools, such as Legalism, Confucianism, and Chinese Buddhism, which when first introduced into China was largely interpreted through the use of Daoist words and concepts. Many Chinese artists, including poets, painters, calligraphers, and even gardeners, have used the Daodejing as a source of inspiration. Its influence has also spread widely outside East Asia, and is among the most translated works in world literature. The Wade-Giles romanization Tao Te Ching dates back to early English transliterations in the late 19th century; its influence can be seen in words and phrases that have become well established in English. Daodejing is the pinyin romanization.

Daodejing Laozi,2008-09-11 'Of ways you may speak, but not the Perennial Way; By names you may name, but not the Perennial Name.' The best-loved of all the classical books of China and the most universally popular, the Daodejing or Classic of the Way and Life-Force is a work that defies definition. It encapsulates the main tenets of Daoism, and upholds a way of being as well as a philosophy and a religion. The dominant image is of the Way, the mysterious path through the whole cosmos modelled on the great Silver River or Milky Way that traverses the heavens. A life-giving stream, the Way gives rise to all things and holds them in her motherly embrace. It enables the individual, and society as a whole, to harmonize the disparate demands of daily life and achieve a more profound level of understanding. This new translation draws on the latest archaeological finds and brings out the word play and poetry of the original. Simple commentary accompanies the text, and the introduction provides further historical and interpretative context. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

The Tao of the Tao Te Ching Michael LaFargue,2010-03-31 In this new translation and commentary, LaFargue interprets the concept of “Tao” in the Tao Te Ching as a spiritual state of mind cultivated in a particular school in ancient China, a state of mind which also expressed itself in a simple but satisfying life-style, and in a low-key but effective style of political leadership. The interpretation offered here is not only historically accurate, but also conveys the spiritual depth of the Tao Te Ching and its contemporary relevance. The translation is made transparent by a design that presents all of the commentary on the page facing the relevant text.

**Tao Te Ching** Lao Tzu,2019-10-29 Taoism is an historic Chinese philosophical religion based on the idea of Dao (Tao), or the way, an approach to life that seeks to

live in balance and harmony with oneself, human society, and the natural world. The formative text of Taoism includes this 6th century B.C.E. collection of teachings known as Dao De Jing (or Tao Te Ching) by the Chinese philosopher Lao Tzu. Written approximately 500 years before the Hebrew Messiah Jesus Christ walked the earth, there is a good chance Christ was familiar with and studied this work. Along with an in depth analysis into the profound teachings of the Dao De Jing, this edition gives reasonable explanations of possible connections between it and the teachings of the Son of Man Jesus Christ, the Way, the Truth, and the Life. \*This is a large print edition making it much easier to read.

The Divine Feminine Tao Te Ching Rosemarie Anderson,2021-03-30 • Restores the feminine essence of the Tao Te Ching as well as the simplicity and poetic undertones of the chapters • Offers commentary for each of the 81 chapters and key Chinese characters to reveal their profound wisdom • Translated from ancient silk and bamboo slip manuscripts, the oldest known copies of the Tao Te Ching • Paper with French flaps In this book, Rosemarie Anderson shares her discoveries of the Divine Feminine Tao alongside her original translation of the Tao Te Ching. Working from ancient silk and bamboo slip manuscripts, the oldest known copies of the Tao Te Ching, the author slowly translated all 81 chapters over the course of two years, allowing each section to reveal its intimate poetic and spiritual nature. To her surprise, she discovered that the Tao was unmistakably feminine, consistently referred to as “mother,” “virgin,” and the “womb” of creation. Anderson explains how the Tao is a feminine force, the Dark Womb of Creation, the Immortal Void renewing life again and again in ordinary times and in times of crisis. She offers commentary for each of the 81 chapters to help reveal their profound wisdom. The author also restores the chapters’ simplicity and musical undertones, explaining how, in the original Chinese manuscripts, the text is poetic and rhymed because the Tao Te Ching was often recited or sung--yet most English translations are written in scholarly prose with long sentences and complex syntax. She shows how the great Tao’s message of wei wu wei--“act without acting” and “do without doing”--offers a path of peace and well-being for ourselves and for our relationships with others and the earth, a path that arises from spontaneous action that seeks no gain for the self. Capturing the original feminine nature of this ancient text, Anderson’s translation sheds new light on the esoteric wisdom contained within the Tao Te Ching and on the mystical feminine essence of the Tao.
