Strategic Communication Practices Darrel W. Stephens, Julia Hill, Sheldon F. Greenberg, 2011-10-18 Strategic Communication Practices: A Toolkit for Police Executives was developed to help police executives communicate more effectively with their communities and organizations. It addresses the changes in the news media and how that has affected the way people obtain information. It is designed to provide greater insight into communications strategies and planning. It will provide examples of strategic communications plans and how police have used various communications tools to more effectively reach their community. It is a companion piece and builds on the 2010 Major Cities Chiefs Association/COPS Office white paper - Key Leadership Strategies to Enhance Communication.

Modelling and Simulation for Autonomous Systems Jan Mazal, 2019-03-15 This book constitutes the thoroughly refereed post-workshop proceedings of the 5th International Workshop on Modelling and Simulation for Autonomous Systems, MESAS 2018, held in Prague, Czech Republic, in October 2018. The 46 revised full papers included in the volume were carefully reviewed and selected from 66 submissions. They are organized in the following topical sections: Future Challenges of Advanced M&S Technology; Swarming - R&D and Application; M&S of Intelligent Systems - AI, R&D and Application; AxS in Context of Future Warfare and Security Environment (Concepts, Applications, Training, Interoperability, etc.).

Criminal Futures Simon Egbert, Matthias Leese, 2020-12-14 This book explores how predictive policing transforms police work. Police departments around the world have started to use data-driven applications to produce crime forecasts and intervene into the future through targeted prevention measures. Based on three years of field research in Germany and Switzerland, this book provides a theoretically sophisticated and empirically detailed account of how the police produce and act upon criminal futures as part of their everyday work practices. The authors argue that predictive policing must not be analyzed as an isolated technological artifact, but as part of a larger sociotechnical system that is embedded in organizational structures and occupational cultures. The book highlights how, for crime prediction software to come to matter and play a role in more efficient and targeted police work, several translation processes are needed to align human and nonhuman actors across different divisions of police work. Police work is a key function for the production and maintenance of public order, but it can also discriminate, exclude, and violate civil liberties and human rights. When criminal futures come into being in the form of algorithmically produced risk estimates, this can have wide-ranging consequences. Building on empirical findings, the book presents a number of practical recommendations for the prudent use of algorithmic analysis tools in police work that will speak to the protection of civil liberties and human rights as much as they will speak to the professional needs of police organizations. An accessible and compelling read, this book will appeal to students and scholars of criminology, sociology, and cultural studies as well as to police practitioners and civil liberties advocates, in addition to all those who are interested in how to implement reasonable forms of data-driven policing.

Working for Justice Milkman Ruth, Joshua Bloom, Victor Narro, 2013-09-30 Working for Justice, which includes eleven case studies of recent low-wage worker organizing campaigns in Los Angeles, makes the case for a distinctive L.A. Model of union and worker center organizing. Networks linking advocates in worker centers and labor unions facilitate mutual learning and synergy and have generated a shared repertoire of economic justice strategies. The organized labor movement in Los Angeles has weathered the effects of deindustrialization and deregulation better than unions in other parts of the United States, and this has helped to anchor the city's wider low-wage worker movement. Los Angeles is also home to the nation's highest concentration of undocumented immigrants, making it especially fertile territory for low-wage worker organizing. The case studies in Working for Justice are all based on original field research on organizing campaigns among L.A. day laborers, garment workers, car wash workers, security officers, janitors, taxi drivers, hotel workers as well as the efforts of ethnically focused worker centers and immigrant rights organizations. The authors interviewed key organizers, gained access to primary documents, and conducted participant observation. Working for

Justice is a valuable resource for sociologists and other scholars in the interdisciplinary field of labor studies, as well as for advocates and policymakers.

German Military Abbreviations ,1943 Perhaps to a greater extent than any other army, the German Armed Forces employ military abbreviations on their maps and charts, on task force tables of organization, on direction and location sign posts in combat zones, on field orders, and, in short, in every case where abbreviations may possibly be used. These abbreviations are often used in connection with military symbols (see German Military Symbols, January 1943, Military Intelligence Service). A thorough knowledge of both abbreviations and symbols is therefore essential to military personnel engaged in the interpretation of captured documents.--Page 1.

Brown Water, Black Berets Thomas J Cutler,2012-04-15 The men of the U.S. Navy's brown-water force played a vital but often overlooked role in the Vietnam War. Known for their black berets and limitless courage, they maneuvered their aging, makeshift craft along shallow coastal waters and twisting inland waterways to search out the enemy. In this moving tribute to their contributions and sacrifices, Tom Cutler records their dramatic story as only a participant could. His own Vietnam experience enables him to add a striking human dimension to the account. The terror of firefights along the jungle-lined rivers, the rigors of camp life, and the sudden perils of guerrilla warfare are conveyed with authenticity. At the same time, the author's training as a historian allows him to objectively describe the scope of the navy's operations and evaluate their effectiveness. Winner of the Navy League's Alfred Thayer Mahan Award for Literary Achievement in 1988 when the book was first published, Cutler is credited with having written the definitive history of the brown-water sailors, an effort that has helped readers better understand the nature of U.S. involvement in the war.

New York and Los Angeles David Halle,Andrew A. Beveridge,2013-05-23 This interdisciplinary analysis of New York and Los Angeles—the nation's two largest cities and urban regions—is the first in-depth study of the two cities and regions to incorporate new census data and an analysis of the impact of the ongoing financial crisis and economic recession.

Investigating Identity Theft Judith M. Collins,2006-02-17 What will you do when you encounter identity theft within your business? Chances are, you have already lost money to identity theft and business fraud. Look no further than the latest newspaper headlines to know that it is an epidemic problem and an alarming reality from which no business—whether small or large—is immune. Although you can't completely stop identity theft from happening, you can be prepared when it takes place. *Investigating Identity Theft: A Guide for Businesses, Law Enforcement, and Victims* is your practical guide for fully understanding and investigating identity theft. The training that I received from Judy Collins at MSU has been instrumental to my helping victims of identity theft and locating the person(s) who caused their nightmare. I have even used the training methods she outlines in this book on a homicide investigation and it paid off: the perpetrator is now in jail for the rest of his life. I can't say enough about Dr. Collins and her knowledge of tracking criminals on the Internet; she is a great asset to law enforcement. -Anthony Abdallah, Police Detective, Inkster Police Department (CID), Inkster, Michigan This valuable book is an essential, pragmatic guide for the full understanding and investigation of identity theft crimes. It also establishes Dr. Judith Collins as a foremost national expert on this growing crime problem that threatens our future. -Dr. Bruce L. Benson, Police Chief Emeritus, Associate Professor, Criminal Justice, Michigan State University Whether the investigator is working in the private or public sector, Dr. Collins presents valuable information on the methodology required to successfully resolve identity theft cases. The use of real-life investigations, with lessons learned, provides an intriguing and entertaining format while at the same time sharpening the investigator's skills. If you think investigating identity theft is not worthwhile because the crime is committed by individuals on randomly selected victims without specific objectives, goals, or purpose, you need to read this book. -Rod Kinghorn, Director of Investigations, General Motors Global Security An excellent book. Judith Collins has spent many years investigating identity theft. Her willingness to share her knowledge with law enforcement, businesses, and victims is truly a benefit that cannot be found elsewhere. -Juli Liebler, Captain, East Lansing Police Department, East Lansing, Michigan Well

done. Smart idea. . . . This is an excellent, professionally written book . . . and much needed. -Salman Anwar, Computer Forensic Engineer, Western Michigan University Police Department As a retired special agent with the Federal Bureau of Investigation, and having worked the past six years in the private sector, I found Dr. Collins's book to be an invaluable tool for both the private sector and the law enforcement community. Dr. Collins provides genuine insight into the complex issues surrounding identity theft. I am confident her book will assist in both the prevention of identity theft and the detection of those who prey on other's identities. -Frank Laudan, Investigator, Securitas Security Services USA, Inc. Excellent guide! A must-read for anyone involved in investigating identity theft! Dr. Collins has become one of the most respected and knowledgeable authorities in this relatively new field. -Detective Gary A. Guiles (Retired), Fraud Investigator, Lansing Police Department, Lansing, Michigan

Hobos, Hustlers, and Backsliders Teresa Gowan, 2010 Gowan shows some of the diverse ways that men on the street in San Francisco struggle for survival, autonomy, and self-respect. Living for weeks at a time among homeless men--working side-by-side with them as they collected cans, bottles, and scrap metal; helping them set up camp; watching and listening as they panhandled and hawked newspapers; and accompanying them into soup kitchens, jails, welfare offices, and shelters--Gowan immersed herself in their routines, their personal stories, and their perspectives on life on the streets. She observes a wide range of survival techniques, from the illicit to the industrious, from drug dealing to dumpster diving. She also discovered that prevailing discussions about homelessness and its causes--homelessness as pathology, homelessness as moral failure, and homelessness as systemic failure--powerfully affect how homeless people see themselves and their ability to change their situation.

Vietnam Studies - RIVERINE OPERATIONS 1966-1969 [Illustrated Edition] Major General William B. Fulton, 2014-08-15 [Includes 2 charts, 6 diagrams, 16 maps, and 21 illustrations] "This monograph describes U.S. Army Riverine planning and operations in the Republic of Vietnam during the years 1966 through 1969. Since the personal experience of the author was with preparations for riverine operations and the initial operations themselves, emphasis has been placed on these activities through early 1968. In summarizing operations conducted in the balance of the three-year period, particular attention has been called to significant trends or changes in riverine operations in Vietnam, a co-operative enterprise of the U.S. Army and the U.S. Navy. "Looking back from the vantage point of early 1972, this study attempts to reconstruct the events and describe the situation as it was from 1966 through 1969, using official records, reports, and personal interviews." The Author - "Major General William Fulton, was intimately involved in the early development of the riverine warfare concept as commander of the 2d Brigade, 9th Infantry Division, which arrived in Vietnam in January 1967 and immediately began combat operations in the Mekong Delta. In March the brigade moved into Dong Tam, the base created by dredging sand from the bottom of an arm of the Mekong River. In early June the brigade teamed with Navy Task Force 117 to form the Mobile Riverine Force. During World War II General Fulton fought in Italy and during the Korean War served on the staff of Army Forces Far East Advance."

Strategic Communication Practices: a Toolkit for Police Executives United States Government, 2021-05-15 This United States Department of Justice Community Oriented Policing Services (COPS) manual, *Strategic Communication Practices: A Toolkit for Police Executives*, was developed with invaluable input from chiefs, sheriffs, police executives, and communications personnel from departments across the United States and Canada. It is intended to assist law enforcement executives and communications directors in navigating the shark-infested communication waters. It is designed to help police executives and communications personnel understand how the news media have changed over the past 20 years. It provides guidance on how to develop a strategic communications plan, focuses on the role of the chief and sheriff, discusses the various tools that are available, and explores the unique communication needs that crop up during times of crisis. Finally, the Toolkit outlines the process for developing a strategic communication plan to guide this critically important work.

Old Men Drunk and Sober Howard M. Bahr, 1973

Congressional Record United States. Congress, 1973

You Owe Yourself a Drunk James P. Spradley, 1999-11-06 While *You Owe Yourself a Drunk* was far from the first anthropological study of a non-native population in North America, its appearance marked an early stage in an increasingly evident shift toward bringing anthropology home. Now available from Waveland Press, Spradley's carefully researched portrayal of skid row men in Seattle in the late sixties documents their treatment by jails and the legal system in a time before homelessness became a recognized problem. As a result of Spradley's elegant and impassioned writing, the book became a sharp challenge to politicians, policymakers, judges, police, and others inclined to punish people for the crime of poverty. The insights he gained from studying the tramp culture of Seattle ultimately were seen as highly significant in the treatment of recidivist alcoholics as well as in creating a more appropriate and human response to public drunkenness. This now-classic landmark study in urban ethnography stands as a shining example of the direct application of distinctly anthropological concepts and methods to address real-world problems. But more important, it represents a poignant challenge to society about our capacity to endure and accept nonconformity and social diversity. The Waveland reissue includes a valuable retrospective introduction by Merrill Singer.

Inclusion in Action Phil Foreman, Michael Arthur-Kelly, 2017-04-05 How can classroom teachers effectively differentiate learning and teaching programs to provide for the needs of every student in their class? This best-selling text begins by asking Why include all students? in regular classrooms and then shows how this can be done. It outlines the philosophy of inclusive education and focuses on the use of individualised planning and effective teaching practices to maximise learning outcomes within positive and productive environments. Vignettes and narratives provide real-life examples that help put the theory in context. This fifth edition includes broader coverage of issues to do with diversity and individual differences, particularly cultural and multicultural inclusion, linguistic diversity and giftedness. There is more throughout on the universal design for learning framework and on partnerships with families, while new pedagogical features encourage readers to reflect. Throughout, it emphasises a practical, research-based approach to teaching that can be applied to support students with a range of differences and additional needs.

Facing Hazards and Disasters National Research Council, Division on Earth and Life Studies, Committee on Disaster Research in the Social Sciences: Future Challenges and Opportunities, 2006-09-10 Social science research conducted since the late 1970's has contributed greatly to society's ability to mitigate and adapt to natural, technological, and willful disasters. However, as evidenced by Hurricane Katrina, the Indian Ocean tsunami, the September 11, 2001 terrorist attacks on the United States, and other recent events, hazards and disaster research and its application could be improved greatly. In particular, more studies should be pursued that compare how the characteristics of different types of events—including predictability, forewarning, magnitude, and duration of impact—affect societal vulnerability and response. This book includes more than thirty recommendations for the hazards and disaster community.

The Sand Creek Massacre Stan Hoig, 2013-02-27 Sometimes called The Chivington Massacre by those who would emphasize his responsibility for the attack and The Battle of Sand Creek by those who would imply that it was not a massacre, this event has become one of our nation's most controversial Indian conflicts. The subject of army and Congressional investigations and inquiries, a matter of vigorous newspaper debates, the object of much oratory and writing biased in both directions, the Sand Creek Massacre very likely will never be completely and satisfactorily resolved. This account of the massacre investigates the historical events leading to the battle, tracing the growth of the Indian-white conflict in Colorado Territory. The author has shown the way in which the discontent stemming from the treaty of Fort Wise, the depredations committed by the Cheyennes and

Arapahoes prior to the massacre, and the desire of some of the commanding officers for a bloody victory against the Indians laid the groundwork for the battle at Sand Creek.
