*All Quiet on the Western Front* Erich Maria Remarque, 2013-09-03 The masterpiece of the German experience during World War I, considered by many the greatest war novel of all time—with an Oscar-winning film adaptation now streaming on Netflix. “[Erich Maria Remarque] is a craftsman of unquestionably first rank.”—The New York Times Book Review I am young, I am twenty years old; yet I know nothing of life but despair, death, fear, and fatuous superficiality cast over an abyss of sorrow. . . . This is the testament of Paul Bäumer, who enlists with his classmates in the German army during World War I. They become soldiers with youthful enthusiasm. But the world of duty, culture, and progress they had been taught breaks in pieces under the first bombardment in the trenches. Through years of vivid horror, Paul holds fast to a single vow: to fight against the principle of hate that meaninglessly pits young men of the same generation but different uniforms against one another . . . if only he can come out of the war alive.

*The Cult of Smart* Fredrik deBoer, 2020-08-04 Named one of *Vulture's* Top 10 Best Books of 2020! Leftist firebrand Fredrik deBoer exposes the lie at the heart of our educational system and demands top-to-bottom reform. Everyone agrees that education is the key to creating a more just and equal world, and that our schools are broken and failing. Proposed reforms variously target incompetent teachers, corrupt union practices, or outdated curricula, but no one acknowledges a scientifically-proven fact that we all understand intuitively: Academic potential varies between individuals, and cannot be dramatically improved. In *The Cult of Smart*, educator and outspoken leftist Fredrik deBoer exposes this omission as the central flaw of our entire society, which has created and perpetuated an unjust class structure based on intellectual ability. Since cognitive talent varies from person to person, our education system can never create equal opportunity for all. Instead, it teaches our children that hierarchy and competition are natural, and that human value should be based on intelligence. These ideas are counter to everything that the left believes, but until they acknowledge the existence of individual

cognitive differences, progressives remain complicit in keeping the status quo in place. This passionate, voice-driven manifesto demands that we embrace a new goal for education: equality of outcomes. We must create a world that has a place for everyone, not just the academically talented. But we'll never achieve this dream until the Cult of Smart is destroyed.

**13, rue Thérèse** Elena Maui Shapiro, 2011-02-02 American academic Trevor Stratton discovers a box full of artifacts from World War I as he settles into his new office in Paris. The pictures, letters, and objects in the box relate to the life of Louise Brunet, a feisty, charming Frenchwoman who lived through both World Wars. As Trevor examines and documents the relics the box offers up, he begins to imagine the story of Louise Brunet's life: her love for a cousin who died in the war, her marriage to a man who works for her father, and her attraction to a neighbor in her building at 13 rue Thérèse. The more time he spends with the objects though, the truer his imaginings of Louise's life become, and the more he notices another alluring Frenchwoman: Josianne, his clerk, who planted the box in his office in the first place, and with whom he finds he is falling in love.
