They share five simple building blocks that can save money and reveal twenty of the most common tax strategies to substantially reduce an individual's tax burden. Taxpayers have been conditioned to believe myths about taxes that are simply not true, such as: "Taxes are a fact. I have no control over how much I pay." "As long as I get a refund, I've won." Kulsrud, 2009-06-02 For over 20 years the Pratt & Kulsrud Taxation series has provided educators, students, and professionals alike with an engaging and clear presentation and examples of tax law. The series has consistently held to the principle that the key to learning taxation is an understanding of the underlying purpose for each and every rule. *Doing Your Own Taxes Is As Easy As 1, 2, 3.* Milton G. Boothe, 2014 Learn to do your own taxes, and claim your financial independence! Doing your own taxes is not as daunting a task as your tax professional might want you to perceive it to be. As a matter of fact, doing your own taxes can be as easy as 1, 2, 3. Actually, tax preparation software has come a long way in the past few years, making it so easy for you to prepare your own taxes, that it's virtually impossible not to be able to understand the process, even with absolutely no knowledge of tax laws. It is a fact, that every year, millions of taxpayers in the USA collectively lose millions of dollars to the government. This unfortunate situation basically happens because their tax returns have been erroneously prepared. Typically, this usually happens because of ignorance on their part, which of course is understandable, but more preposterously, because of ignorance or negligence on the part of the professionals they have paid to prepare their tax returns. The fact of the matter is that you can literally save hundreds of dollars each year, and probably even thousands, just by being in the position to be able to prepare your tax returns yourself. Why, then, should you suffer at hands of incompetent or negligent paid tax preparers? This publication aims to educate you, the taxpayer, on how you can "optimize" your tax return. Optimizing your tax return, essentially means claiming all the deductions and credits that you are legally entitled to, thus maximizing your tax refund, or minimizing your tax liability, if one exists. This publication will effectively equip you with a good basic knowledge of the tax code, so that you will be in the position to protect your cash flows, as far as your dealings with the IRS is concerned. No longer do you have to be intimidated by the complexity of the tax code. Unlike most other tax publications, this publication has been compiled specifically with the taxpayer in mind, and although very comprehensive, it is also concise, and very easy to understand. This publication is very "reader friendly"—having been compiled in layman's terms, using simple language, and avoiding tax jargon as much as possible, as it breaks down the relevant areas of the tax code into understandable segments. The reader, therefore, does not need to have any prior tax knowledge to easily follow what's contained therein. This publication explains every line on the Form 1040 tax return, and in doing so, makes it absolutely clear that preparing your own taxes is not as formidable a task as many of you might perceive it to be. So, for those of you who wish to take on the challenge and prepare your tax returns yourself, you will definitely find this publication to be a very powerful resource tool. Following the guidelines in this publication will enable you to prepare almost any Form 1040 tax return. Furthermore, you need to take into account even the basic savings you can enjoy by just doing it yourself.

**Tax Preparation for Beginners** Instafo, George Cohen, 2021-03-01 The Beginner's Guide to "Tax Preparation" Welcome Newbie - who wants to prepare, reduce, and file taxes yourself.. Taxes suck! They suck so bad that they might as well be called "tasses" because they truly are a pain...of a task...to keep track of, prepare, calculate, and file every year. What about hiring an accountant to do the work? Wait, did you forget about needing to stash a couple hundred bucks or more depending on how complicated your tax situation is to pay a professional, which you don't have or don't want to depart with? Simply put - we all hate doing taxes and, even more, giving up a portion of our hard-earned money to the Taxman. We dread them. We can't avoid them. The penalties are there for not complying. Psst...now let us let you in on a little secret. Tax prep isn't as perplexing as you may think. Sure, tax returns are designed with all sorts of convoluted technical wordings and footnotes to throw us, taxpayers, off from easily gaming the taxation system that funds our government and from us easily gaining the optimal tax efficiency for saving on our tax bill, because Uncle Sam does want to squeeze out every last cent. The fact of the matter is, anybody can file taxes - and for free - without ever needing to pay for an accountant or throw money at the latest popular tax software. If you have never done your own taxes before, you're in luck. "Tax Preparation for Beginners" is precisely what the greedy Taxman hates and what you need to get you up to speed and

empower you to feel confident and competent to file taxes for the first time, all by yourself. “Tax Preparation for Beginners” will guide you through: - The personal information and documentation needed upon filing your tax return - The good old-fashioned doing taxes by hand-on-paper for seniors or technophobes - The eFile way of submitting taxes directly to the IRS for free with no muss, no fuss - The convenient software to handle complex tax situations, expenses, and deductions - The safely-guarded methods nobody uses, except the rich, to pay as little to no taxes ...on top of everything else that beginners need to know. You will not only get a guiding hand on preparing taxes - but also the secret to NOT paying taxes...legally...like how the wealthy do. Alright, that might be too far of a stretch - so at the very least, lower your taxes dramatically below the standard limitation via “tax hack strategies,” which even an accountant probably doesn’t disclose upfront unless you already know how to exploit those things and bring them up. Also, shall we dare say that you might find doing taxes fun? We know! That’s likely blasphemy to associate “tax” with “fun.” Yet, there’s no denying that getting bigger than anticipated “tax refund” is always “tax fun.” Right? Fear no more of the Taxman and taxes, newbie. Now even a high schooler, who knows diddly-squat about finance while still living in their parent’s basement, can file taxes on their own after getting their first job and paycheck ever. You’ll never have apprehension again but instead - the capability in doing all your taxes from now on.
