Bookmarks Are People Too! #1 Henry Winkler, Lin Oliver, 2014-02-06 Hank stars the same Hank as in the bestselling Hank Zipzer series, only this time he's in 2nd grade! Hank is a kid who doesn't try to be funny, but he somehow always makes the kids in his class laugh. He's pretty bad at memorizing stuff, and spelling is his worst subject. (But so are math and reading!) In the first book in this new series, Hank's class is putting on a play, and Hank wants the lead part: Aqua Fly. But he freezes in his audition and can only buzz like a fly. His teacher creates a special part for Hank, a silent bookmark. This may seem like an insignificant role, but when his enemy, Nick McKelty, freezes during the performance, it's up to Hank to save the play!

Bookmarks - A manual for combating hate speech online through human rights education , 2014-05-13 The work of the Council of Europe for democracy is strongly based on education: education in schools, and education as a lifelong learning process of practising democracy, such as in non-formal learning activities. Human rights education and education for democratic citizenship form an integral part of what we have to secure to make democracy sustainable. Hate speech is one of the most worrying forms of racism and discrimination prevailing across Europe and amplified by the Internet and social media. Hate speech online is the visible tip of the iceberg of intolerance and ethnocentrism. Young people are directly concerned as agents and victims of online abuse of human rights; Europe needs young people to care and look after human rights, the life insurance for democracy. Bookmarks is published to support the No Hate Speech Movement youth campaign of the Council of Europe for human rights online. Bookmarks is useful for educators wanting to address hate speech online from a human rights perspective, both inside and outside the formal education system. The manual is designed for working with learners aged 13 to 18 but the activities can be adapted to other age ranges.

Advanced Technologies Applied to Training Design Robert J. Seidel,Paul R. Chatelier,2012-12-06 This collection of papers is the result of a workshop sponsored by NATO's Defense Research Group Panel 8 in the Fall of 1991. The workshop is the second of a series, the first of which was held in the Spring of 1985. As you study these papers, recall that this workshop occurred during the time that many changes were occurring in Eastern Europe and world wide. The need to identify training technologies for maintaining a capable and ready force during times of decreases in military force structure was, and is currently, our challenge. The opportunities for these technologies to provide a service and opportunity for nonmilitary usage is our future. Therefore this workshop maintained its focus on technology and application, regardless of the user. These and other statements made herein are personal and reflect the opinions of the author(s) and in no way represent the official position or policy of our individual governments. v PREFACE The truly international contributions to this book reinforced our belief that training technology must be collaborative and data widely shared to strengthen our future. We want to thank the authors of these papers for their abilities to see beyond the near horizon. Their contributions, and the support of the organizations that sponsored their work is greatly appreciated. We also gratefully recognize the contributions of all who attended the workshop.
