Jesse Stuart

**Those who Can-- Teach!** Lorraine Glennon, Mary Mohler, 1999 Many successful people can point to a single teacher whose talent and dedication made a crucial difference in their lives. Sometimes former students clearly recall a teacher's casually brilliant remark that produced an instant aha! response; sometimes they are affected by a teacher's passionate devotion to professional duty. The methods of a great teacher are as varied and distinctive as teachers themselves, but the result - inspired teaching - is a gift enjoyed for a lifetime. *Those Who Can . . . Teach* brings together personal reminiscences about gifted educators from a wide array of contributors, including writers, entertainers, business leaders, religious figures, politicians - and of course teachers themselves. Some are humorous, others irreverent, others sweet, still others passionately polemical. Based on interviews conducted by the editors, the book includes many excerpts culled from literature, personal letters, and film.

**To Teach, to Love** Jesse Stuart, 1970 In *To Teach, To Love*, the great Kentucky novelist, short-story writer, poet, and teacher writes about his boyhood, his elementary school and high-school experiences, his days at Lincoln Memorial College and Vanderbilt University. He describes the teachers who inspired him, and those who did not, and tells what made the difference. With great warmth and the wisdom that comes from nearly fifty years in the classroom, Jesse Stuart tells of teaching in one-room rural schoolhouses ... He recounts his experiences as a country school superintendent and as a high-school principal and describes his stay at the American University in Cairo, Egypt, where he taught creative writing. He explains what classroom methods worked best, and why, and speculates on what has gone wrong in American schools today--From jacket flap.

*Teaching with Heart* Sam M. Intrator, Megan Scribner, 2014-05-19 Each and every day teachers show up in their classrooms with a relentless sense of optimism. Despite the complicated challenges of schools, they come to and remain in the profession inspired by a conviction that through education they can move individuals and society to a more promising future. In *Teaching with Heart: Poetry that Speaks to the Courage to Teach* a diverse group of ninety teachers describe the complex of emotions and experiences of the teaching life - joy, outrage, heartbreak, hope, commitment and dedication. Each heartfelt commentary is paired with a cherished poem selected by the teacher. The contributors represent a broad array of educators: K-12 teachers, principals, superintendents, college professors, as well as many non-traditional teachers. They range from first year teachers to mid-career veterans to those who have retired after decades in the classroom. They come from inner-city, suburban, charter and private schools. The teachers identified an eclectic collection of poems and poets from Emily Dickinson, to Richard Wright, to Mary Oliver to the rapper Tupac Shakur. It is a book by teachers and for all who teach. The book also includes a poignant Foreword by Parker J. Palmer (*The Courage to Teach*), a stirring Introduction by Taylor Mali (*What Teachers Make*), and a moving Afterword by Sarah Brown Wessling (*Teaching Channel*). Where *Teaching with Fire* honored and celebrated the work of teachers; *Teaching with Heart* salutes the tenacious and relentless optimism of teachers and their belief that despite the many challenges and obstacles of the teaching life, much is possible.

**My Students Taught Me How To Teach** Jim Seaman, 2021-09-22 About the Title If you're reading this back cover, you obviously have read the title of my book. And if you read the title then you must be thinking to yourself: What is he talking about? How is it possible for students to teach the teacher how to teach? They spend 5 years in college securing their teaching certificate, then several months student teaching in a teacher's classroom. This is followed up with district training throughout each year and after-school weekly learning sessions. So let me explain how this title is both appropriate and accurate. My style and persona are one of having fun and bringing smiles and laughter into people's lives. I wanted this to include my students. But I wasn't sure if I could bring the real me into the classroom. I was concerned that if I acted silly or a little crazy or played a prank, the students would not be able to re-focus and immediately get back on track. I told my students on their first day, I could be strict or we could have fun. It's up to you. Every year my students chose laughter and fun and as a result, they tried harder and scored higher than most classes in the district. They surely did teach me that by utilizing unorthodox teaching methods, they would rise up and excel (as if I were teaching an honors class). About the Author Jim Seaman is now a retired 5th and 6th-grade teacher who relocated to the Seattle area after losing his home in the 1994 Northridge, California earthquake. He pursued a nagging desire to become a teacher and went back to college at the age of 52 to receive his teaching certificate. His hobbies include Photography in which he and his wife, Karen, have received numerous awards, writing magazine articles, downloading his favorite songs (about 1100), writing poetry, and writing books. He has recently published, *Where Does the Trombone Go?* *The Sex Ed Questions You Won't Believe Kids Ask* (and answered by their teachers) and *Partly Sunny with a Chance of Laughter*, Poems that will make you think, wonder, question, and smile. He is currently in the process of completing, *54 Years (and counting) of Love, Laughs, and Lunacy: A Marriage lived as a T.V. Comedy Show*. **Those Who Teach Do More** Linda Evanchyk, Carol Mendenhall, 2003-03-21 She was a writer of romance and a gentle singer of Celtic music; he was a rock star. He had lived for years in the seamy world of L.A. rock and roll; she had grown up in the shelter of the mountains of Idaho. She was young and lovely; he still turned heads with his long hair and good looks even though he was old enough to be her father. He had a daughter who wouldn't stand for another woman in his life; she shied away from the predatory men she met in this business. Could they possibly have any less in common or more strikes against them? Well, for Marian, the greatest impediment was that he was married. Thrown together on a concert tour, the attraction between them was impossible to ignore as they both remembered an encounter two years earlier when she had been in over her head and he had rescued her from a harrowing situation and neither of them had been able to forget it. Slowly he reached out to her again, and slowly she learned to trust, until she found herself Loving Andy. But even though love can be profound, obstacles can be also. And sometimes, they can seem insurmountable. Sometimes choices must be made, and sometimes . . . love is not enough. But when love is real, when the heart is steadfast, can love overcome in the end?

**Teach to the Heart** Roberta Marsh, 2014-08-10 In *Teach to the Heart*, the author shares vital tips and techniques to enhance the entire teaching experience. All students have their problems and reason to cry, but there is still hope to be treated with kindness and understanding. Reaching those hearts is what this book is all about. There is hope in every heart and a desire to be accepted and loved. Students are waiting for the right teacher. Are you that teacher?

**Who Will Teach the Children** Harriet Tyson, 1994-01-18 Tyson shows that in the most successful colleges, teachers-in-training

learn how to convey knowledge to students while they themselves are acquiring that knowledge. The best teacher training is an energetic synthesis of content and pedagogy, and of theory and practice, throughout college and beyond certification.

**And Gladly Teach** MaryMelissa Grafflin,2010-07-28 Too often, new teachers with ideals and pure intentions are thrown onto the front lines with no clear guidelines about how to survive opening daylet alone the moments, days, and years that follow. In her handbook tailored for novice teachers, seasoned educator MaryMelissa Grafflin shares practical suggestions and tested advice in order to help new teachers not only survive, but also thrive in Americas most challenging school systems. Grafflin has been teaching secondary students for fifty years and uses her vast experience to ask crucial questions of new teachers that will help them navigate more easily through their profession, focus the direction of their careers, and attain consistent success in the classroom. Beginner teachers will learn specifically how to write a syllabus; develop a grading policy; plan a lesson; organize successful back-to-school and parent conference nights; incorporate ethics, professionalism, and discipline into every classroom. Teachers, just like their students, are continuous learners and works-in-progress. And Gladly Teach provides the kind of expert guidance that will help new educators achieve success, motivate their students, and wake up every morning knowing they are making a profound difference in the lives of their students.

**So You Think You Can Teach** Nyle D. Monismith,2009-05 Mr. Monismith., that man back there is alive! Early in my teaching career an experienced teacher told me that if you could save just one student for every year you taught, you would have done your job. I found that to be a profound statement. As I think back on my forty years, I honestly feel that I had a positive impact on at least one student per year. I guess that you could say mission accomplished.

**The Elephant in the Classroom** Robert Stumpf,2024-02 So the other day I was talking with Ashley towards the end of the class and mentioned she'd been absent a lot and asked if she had been ill. She said, No, we've been getting the place ready for my parents. They're coming home. Really? I was a bit puzzled. Yeah, she said, I pick dad up from prison on Monday and mom on Wednesday. Somebody Else's Problem\* just walked in the classroom door. Don't take it personally Arthur and I know they didn't cover this in the undergrad education courses you took... of course said courses were an easy A and a joke. After I'd been teaching a few years the Head of the Education College invited me to teach teachers since I was such a good teacher. I took the bait but soon realized I couldn't teach them how to be me and wasn't sure what it was that I was doing that was so good. Since then I've figured out a few things and thought I'd share what they don't cover in those college classes. The most important thing we can teach our students is that learning is fun and they can do it. If we don't teach them that it doesn't matter what we teach. S.E.P.s... from Douglas Adams Life, the Universe and Everything, \*This is the best book on education I've ever read. It's the portrait of a teacher. Bruce Knecht
