Teamwork Glenn Parker,2009 In Volume I of The Parker Team Series, Teamwork:20 Steps to Success, acclaimed author Glenn Parker states that Successful teamwork requires doing lots of 'unspectacular little things, ' such as having a clear purpose, building effective relationships, honoring your commitments, and an obsessive concern for communicating information. This quick, easy-to-read title is full of the information required to conduct teams in a more effective manner, including job aids and assessments. Teamwork:20 Steps to Success is the perfect primer for any type of team, from on-site, existing teams to brand-new.

Personal Project Planner: Plan 20 Great Projects for Fun Or Work! Genius Press,2019-01-26 Are you one of those people who have a thousand ideas, but no way to keep them organized? Do you tend to get a little confused on what to do first, what resources you will need, how long it will take and what the eventual result will end up like? If so, then this book is right down your alley. Because of its decorative nature, this planning book will be appropriate both at work and at your home Use it to plan your next business achievement (with associated raise, you hope!), your next cruise, your next knitting project, or your home furniture and decorating update. This book also works perfectly as a new-house organizer: just use a project set of pages to enter information about the houses you are looking at, and then you won't get confused over what house had the pool, which had the convection oven, and which has the outdoor barbecue grill. It'll all be there in your planner! This book holds twenty separate projects and is presented in full color. It will be so much fun to use while you achieve your projects and even has an index in the front so you can find each of your projects easily. The details: Total of 49 FULL COLOR pages 8 x 10 for plenty of room to write Each project includes 2 pages for entering details Index in the front 12-month calendar to help you visualize your timelines Not dated, so you don't have to start on any particular date There's no better time than the present to get started on your next project. And even if you aren't ready to actually get moving on it, won't it be so nice to get the details out of your head and down on paper so you can start figuring out how you are going to do it! This project planner makes a wonderful gift for your friends and family . They will really appreciate your taking this step to help make it easy for them to actually make progress on their next projects.

Business Capital 101 Roberta A. Pellant,Tony Drexel-Smith,2021-04-26 The purpose of this book is to define the process and protocols of the TASASS™ score. It also serves as the textbook for the USCGA™ TASASS™ certification course. It was written as a manual for students, entrepreneurs, finance professionals, advisors, and consultants. It defines the types of capital available and documentation requirements to achieve “success” in the capital marketplace. Success is defined as a trifecta of: 1) the enterprise acquiring capital; 2) the business becoming successful and 3) the capital source(s) receiving a positive outcome. Business Capital 101 provides clarity in an otherwise complicated environment of gaining access to capital for qualified enterprises. Our mission is to provide a compliant, professional, time-sensitive, cost-conscious, and realistic approach to the business finance process. We accomplish this mission by the implementation of a due diligence process known as the TASASS™ score. The TASASS™ score was developed as a result of a study of more than 300 enterprises engaged by me since 2008 wherein, I was able to determine the more than 300 common attributes amongst successful and failed ventures. The TASASS™ score is a combination of a Transaction Analysis™ (TA), a Situation Analysis™ (SA) implemented in a Software (S) that results in a Score (S). The TASASS™ score is a standardized objective due diligence process that serves capital markets during the enterprise vetting phase of capitalization. The software was created based on a 10-year study of 300 applicants. The goal of the proprietary Software as a Service (SaaS) is to identify opportunities that achieve a TASASS™ score in excess of 92.5%, known as “TASASS Prime™.” TASASS™ is an acronym for: Transaction Analysis Situation Analysis Scoring Software™. The TASASS™ score was developed by Tony Drexel Smith through the financial and human capital resources of: TASASS, Inc, The Association of Blue Moon Advisors, Blue Moon Advisors, Inc., Blue Moon Consortium, Inc., US Capital Global, SUMATICI, Inc., and TD Smith & Associates. Enterprises that have raised capital successfully have the following commonalities: they sought the right type of capital for their stage of development and ability to repay; they created documentation that speaks to the correct capital; and they earned a minimum of 925 out of the 1,000 points possible in our TASASS™ score. Tony Drexel Smith Dr. Roberta Pellant

Teamwork Through Time Management R. Alec Mackenzie,1990 The practical techniques offered in MacKenzie's book will help managers do more in less time, create more efficient teamwork, and find their place on the high-productivity management track of the 1990s. Contents include chapters on identifying time concerns, managing time in the home, and solving a team's time concerns, among dozens more topics.

Goal Directed Project Management Erling S. Andersen,Kristoffer V Grude,Tor Haug,2009-06-03 Goal Directed Project Management (GDPM) is a unique methodology that has been developed and refined by the authors over a period of more than 20 years. In this time, organizations all over the world have adopted it as a standard approach. The central focus of Goal Directed Project Management, this fourth edition of one of the most influential project management books, is to develop understanding, commitment and involvement while managing successful and lasting change. Throughout the text, the authors emphasise the need for a 'PSO' (People, System and Organization) perspective that goes beyond the technical aspects dealt with by most project management literature, enhancing and prolonging the life of a project by allowing the people and organization involved to develop simultaneously with the system. Goal Directed Project Management gives detailed and practical guidance on how to plan, organise and control these PSO projects effectively, presenting methods and tools that will increase significantly the probability of project success. This newly updated fourth edition of Goal Directed Project Management addresses the financial control of projects in a new chapter, presenting a pragmatic approach - based on GDPM methods - to this aspect of project management. It includes guidelines to take you through setting up a project budget based on cost benefit analysis and shows how to report and control the running project using the milestone related budget. Online resources now include an additional chapter on GDPM in a multi-project environment. Further information about GDPM certification can be found at www.gdpm.com

101 Ways to Reward Team Members for \$20 (or Less!) Kevin Aguanno,2004 Even with the best ideas, rewards can fall flat if they are not suitable to the person, the organization, or the situation. Team Leadership Glenn Parker,2009 In Volume 3 of The Parker Team Series we learn that Effective leadership is effective leadership. Some universal truths cut across all types of teams... Effective leaders have a clear vision and are able to communicate that vision... They develop a sense of urgency about the team's work, involve team members in goal-setting and decision-making, and foster a climate of openness and honesty. People want to work with them... Everything you need to know to make you a better team leader is contained in this small book, from self-assessing your strengths and weaknesses to setting performance goals to tactfully influencing those on your team. There is no better value in team training materials than a Parker Team Series title!

Focus On Your One Thing Boss Planners,2019-10-02 Here are the essential habits to organize and optimize your work & life in 5 weeks: ✓ Write Things Down * Really organized people are not born organized, they have to cultivate healthy habits, which then help them to stay organized. * From planning things, jotting things down, to ditching the unnecessary and organizing things that matter, you will become an organized person as long as you're willing to learn and practice. ✓ Make Schedules and Deadlines * Organized people don't waste time. * They give each hour a purpose. *They make and keep schedules for the day and week. * They make deadlines and set goals. *And most importantly, they and stick to them! Similarly, by living a cluttered lifestyle, you will not have the time or space to make your deadlines or achieve your goals. * Write down the things you want to achieve this month in your life. Then write down what you need to do to achieve them. ✓ Focus on the Few: the 80/20 Principle * Life is short, make sure you're doing what matters to you most. Use this formatted planner to properly prioritize your work and life. Do the few things that bring the greatest results. ✓ Deep Work Tracker for Efficiency and Efficacy A la Cal Newport, deep work is the ability to focus without distraction on a cognitively demanding task. It's a skill that allows you to quickly master complicated information and produce higher quality and original results in less time. By completing deep work time blocks, you surpass gains you'd make by merely dabbling or multi-tasking. And the ability to master difficult, valued skills is what sets you apart from the masses who aren't willing to put in the effort, thus increasing your value in the marketplace. ✓ Know What You Want, Then TAKE ACTION * The key behavior that separates the achievers from the unfulfilled is ACTION. It doesn't have to be a huge deal. Do the small things consistently, daily, that progressively move you toward the realization of your ideal. * What stops most people from getting on with living the life of their dreams, is they lack clarity about what they want. Sit

down for ten minutes and imagine what service you can provide to improve the lives of others, thus improving your own quality of life. As an experiment, think of one thing such that by doing it everything else will be easier or unnecessary-- this is the focusing question that will organize your life. Write down your thoughts. Then write down when you can do it and what you need to get it done. If you can get it done right now, then go do it! Get your life on-point today!

Scalable Uncertainty Management Steven Schockaert,Pierre Senellart,2016-08-29 This book constitutes the refereed proceedings of the 10th International Conference on Scalable Uncertainty Management, SUM 2016, held in Nice, France, in September 2016. The 18 regular papers and 5 short papers were carefully reviewed and selected from 35 submissions. Papers are solicited in all areas of managing and reasoning with substantial and complex kinds of uncertain, incomplete or inconsistent information. These include (but are not restricted to) applications in decision support systems, risk analysis, machine learning, belief networks, logics of uncertainty, belief revision and update, argumentation, negotiation technologies, semantic web applications, search engines, ontology systems, information fusion, information retrieval, natural language processing, information extraction, image recognition, vision systems, data and text mining, and the consideration of issues such as provenance, trust, heterogeneity, and complexity of data and knowledge.

Making Friends on the Fly: Advances in Ad Hoc Teamwork Samuel Barrett,2015-05-25 This book is devoted to the encounter and interaction of agents such as robots with other agents and describes how they cooperate with their previously unknown teammates, forming an Ad Hoc team. It presents a new algorithm, PLASTIC, that allows agents to quickly adapt to new teammates by reusing knowledge learned from previous teammates. PLASTIC is instantiated in both a model-based approach, PLASTIC-Model and a policy-based approach, PLASTIC-Policy. In addition to reusing knowledge learned from previous teammates, PLASTIC also allows users to provide expert-knowledge and can use transfer learning (such as the new Two Stage Transfer algorithm) to quickly create models of new teammates when it has some information about its new teammates. The effectiveness of the algorithm is demonstrated on three domains, ranging from multi-armed bandits to simulated robot soccer games.
