The Nature Fix: Why Nature Makes Us Happier, Healthier, and More Creative Florence Williams, 2017-02-07 Highly informative and remarkably entertaining. —Elle From forest trails in Korea, to islands in Finland, to eucalyptus groves in California, Florence Williams investigates the science behind nature's positive effects on the brain. Delving into brand-new research, she uncovers the powers of the natural world to improve health, promote reflection and innovation, and strengthen our relationships. As our modern lives shift dramatically indoors, these ideas—and the answers they yield—are more urgent than ever.

Sensory Penalties Kate Herrity, Bethany E. Schmidt, Jason Warr, 2021-02-08 *Sensory Penalties* aims to reinvigorate a conversation about the role of sensory experience in empirical investigation. It explores the visceral, personal reflections buried within forgotten criminological field notes, to ask what privileging these sensorial experiences does for how we understand and research spaces of punishment and social control.

The Cactus League Emily Nemens, 2020-02-04 Named a Best Book of 2020 by NPR and Lit Hub. A Los Angeles Times Bestseller. A New York Times Book Review Editors' Choice In *The Cactus League* [Emily Nemens] provides her readers with what amounts to a miniature, self-enclosed world that is funny and poignant and lovingly observed. --Charles McGrath, *The New York Times Book Review* An explosive, character-driven odyssey through the world of baseball Jason Goodyear is the star outfielder for the Los Angeles Lions, stationed with the rest of his team in the punishingly hot Arizona desert for their annual spring training. Handsome, famous, and talented, Goodyear is nonetheless coming apart at the seams. And the coaches, writers, wives, girlfriends, petty criminals, and diehard fans following his every move are eager to find out why—as they hide secrets of their own. Humming with the energy of a ballpark before the first

pitch, Emily Nemens's *The Cactus League* unravels the tightly connected web of people behind a seemingly linear game. Narrated by a sportscaster, Goodyear's story is interspersed with tales of Michael Taylor, a batting coach trying to stay relevant; Tamara Rowland, a resourceful spring-training paramour, looking for one last catch; Herb Allison, a legendary sports agent grappling with his decline; and a plethora of other richly drawn characters, all striving to be seen as the season approaches. It's a journey that, like the Arizona desert, brims with both possibility and destruction. Anchored by an expert knowledge of baseball's inner workings, Emily Nemens's *The Cactus League* is a propulsive and deeply human debut that captures a strange desert world that is both exciting and unforgiving, where the most crucial games are the ones played off the field.

Odds Against Tomorrow Nathaniel Rich, 2013-04-02 While working for a financial consulting firm that offers insurance against catastrophic events, a young mathematician becomes increasingly obsessed with doomsday scenarios until one of his worst-case scenarios unfolds in Manhattan.

A Comedy of Tenors Ken Ludwig, 2016 One hotel suite, four tenors, two wives, three girlfriends, and a soccer stadium filled with screaming fans. What could possibly go wrong? It's 1930s Paris and the stage is set for the concert of the century--as long as producer Henry Saunders can keep Italian superstar Tito Merelli and his hot-blooded wife Maira from causing runaway chaos. Prepare for an uproarious ride, full of mistaken identities, bedroom hijinks, and madcap delight. --

The most beautiful world in the world Honey Luard, Andrew Berardini, Sarah Lehrer-Graiwer, 2011

Hannibal Thomas Harris, 2009-06-23 #1 NEW YORK TIMES BESTSELLER • "Is it as good as *Red Dragon* and *Silence of the Lambs*? No . . . this one is better."—Stephen King, *The New York Times Book Review* You remember Hannibal Lecter: gentleman, genius, cannibal. Seven years have passed since Dr. Lecter

escaped from custody. And for seven years he's been at large, free to savor the scents, the essences, of an unguarded world. But intruders have entered Dr. Lecter's world, piercing his new identity, sensing the evil that surrounds him. For the multimillionaire Hannibal left maimed, for a corrupt Italian policeman, and for FBI agent Clarice Starling, who once stood before Lecter and who has never been the same, the final hunt for Hannibal Lecter has begun. All of them, in their separate ways, want to find Dr. Lecter. And all three will get their wish. But only one will live long enough to savor the reward. . . . Praise for Hannibal "Interested in getting the hell scared out of you? Buy this book on a Friday . . . lock all doors and windows. And by Monday , you might just be able to sleep without a night-light."—Newsday "Strap yourself in for one heck of a ride. . . . It'll scare your socks off."—Denver Post "A stunner . . . writing in language as bright and precise as a surgeon's scalpel, Harris has created a world as mysterious as Hannibal's memory palace and as disturbing as a Goya painting. This is one book you don't want to read alone at night."—The Atlanta Journal-Constitution "Relentless . . . endlessly terrifying . . . 486 fast-paced pages, in which every respite is but a prelude to further furious action . . . Hannibal begins with a murderous paroxysm that leaves the reader breathless. . . . Hannibal speaks to the imagination, to the feelings, to the passions, to exalted senses and to debased ones. Harris's voice will be heard for a while."—Los Angeles Times "A pleasurable sense of dread."—The Wall Street Journal "Enormously satisfying . . . a smashing good time, turning the pages for thrills, chills, horror and finally, a bracing, deliciously wicked slap in the face . . . perhaps the very best the thriller/horror genre is capable of producing."—San Diego Union-Tribune

The 99th Monkey Eliezer Sobel, 2008-02-01 Suffused with a unique brand of irreverent humor, this account recalls the autobiographical explorations of the most significant alternative

communities, ashrams, gurus, shamans, and consciousness-raising seminars of the past 40 years. Serving as a human guinea pig for many of the most popular cutting-edge New Age, human potential, and spiritual experiments, Eliezer Sobel recounts intercontinental adventures in India, Israel, Brazil, and Haiti. From Primal Therapy to the Dalai Lama, this perceptively witty analysis includes brushes with cults, wild experiments with sex and psychedelics, and encounters with visionary gurus and contemporary madmen.

Transient Light Ian Cameron, 2014-03-17 Although aimed at keen amateur photographers who wish to break into the professional market, the superb images and technical expertise offer something for all levels of skill and will also inspire those just becoming interested in photography and more established photographers who need to re-focus their photographic motivation. The book's primary goal is to draw the attention of readers to the absolute importance of light and how to make the best use of it, with an emphasis on being in the right place at the right time, anticipating fine light and ensuring that for the short duration that those qualities are present, they are successfully recorded to film or pixel. However, composition and technical expertise are also vitally important and Ian outlines the best field techniques for choosing the correct exposure, discusses depth of field, hyper-focal focusing, exposure bracketing and the use of appropriate filters.

Designing Disney John Hench, 2009-01-06 Designing Disney sets into history and puts into context the extraordinary contributions of the late John Hench, who, at the age of 94, still came into his office at Imagineering each day. His principles of theme park design, character design, and use of color made him a legendary figure, not only for Disney fans but also for students and aficionados of architecture, engineering, and design. Designing Disney reveals the magic behind John's great

discoveries and documents his groundbreaking in several key areas: "Design Philosophy" examines the values, attitudes, aesthetics, and logic that went into the original concepts for Disney theme parks. In "The Art of the Show" and "The Art of Color," Hench reveals the essence of what makes the parks work so well. And in "The Art of Character," he lets the reader in on the how and why of the Disney characters' inherent popularity—their timeless human traits, archetypal shape and gestures that suggest these qualities graphically, and their emotional resonance in our lives.

David Lean Kevin Brownlow, 1996-08-15 A biography of the director of such movies as Lawrence of Arabia and Doctor Zhivago examines David Lean's life, from the troubled Quaker family he was born into to his learning of the art and industry of movie-making. First serial, Cineaste Magazine.

The Lost Notebook John Canemaker, 2014-05-27 Discover the secrets behind Fantasia, Pinocchio, Dumbo, and Bambi—all through the lens of early animation's most enigmatic and fascinating character, Herman Schultheis. A technician at the Disney Studio in the late 1930s, Schultheis kept a covert scrapbook of special effects wizardry, capturing in photographs and text the dazzling, behind-the-scenes ingenuity of early Disney films. Later, when he mysteriously disappeared into a Guatemalan jungle, his notebook was forgotten ... and with it, the stories of how these beloved animated classics were made. Miraculously unearthed in a chest of drawers in 1990, Schultheis's notebook is now available for all to see at the Walt Disney Family Museum in San Francisco—and in this compelling and beautiful book. Part annotated facsimile of the scrapbook itself, part biography of the complicated, overly ambitious man who made it, The Lost Notebook is a goldmine for Disney and animation enthusiasts and a vivid, riveting account of one man's plight to make it big in early

Hollywood.

I was a Bell M. Soledad Caballero, 2021 In this collection,

Caballero imagines how memory frames and reshapes the present, how memory illuminates and limits the stories of ourselves, and how, despite the passage of time, primal moments in the past are the ghosts and echoes of our present. These poems interweave an early childhood lived in another country and in another language with experiences of immigration and family histories in the United States. They create connections between a

child's naïve perspective of dictatorship and an adult perspective informed by bodily illness and political knowledge. Ultimately, Caballero traces a lineage of memory, exploring how present moments unearth the past that ripples through them. This collection does not reconcile the past and the present. Instead, these poems remind us that how we ask questions about ourselves, our histories, and our bodies is what creates our identities, our traumas, and our future hopes and possibilities. Caballero bears unflinching witness to the emotional trauma inherited from war-ravaged Chile to the exiled plains of Oklahoma. As though to witness is to love. These poems negotiate the transitions of language, memory, country, her battle with cancer, counterbalancing the violence from which she fled with a transformative devotion to details.--Richard Blanco, fifth Presidential Inaugural Poet
