Historic Photos of Minnesota ,2009-06-01 Minnesota's past is defined by its remarkable natural resources, and shaped by its native peoples and early settlers. From the fur trade and the establishment of Fort Snelling, to harnessing the power of the Mississippi River as a means to fuel emergent logging and milling industries, Minnesota's history is that of a land like no other. Pioneering Minnesotans embraced everything that the sprawling prairies, rich farmlands, and more than 10,000 lakes offered. Boomtowns and small towns sprang up and were connected to the thriving metropolises of Minneapolis and St. Paul through a great labyrinth of railways. From the time photographers first started pointing their cameras in the direction of Minnesota's land and people, crystallized moments from the state's history were captured, and stories preserved. The archival images collected in Historic Photos of Minnesota offer unique insights into the state's not-so-distant past. Spanning more than 100 years, this book documents everyday lives and significant events in Minnesota's extraordinary history.

Squash James Zug,2007-11-01 The first comprehensive history of squash in the United States, Squash incorporates every aspect of this increasingly popular sport: men's and women's play, juniors and intercollegiates, singles and doubles, hardball and softball, amateurs and professionals. Invented by English schoolboys in the 1850s, squash first came to the United States in 1884 when St. Paul's School in New Hampshire built four open-air courts. The game took hold in Philadelphia, where players founded the U.S. Squash Racquets Association in 1904, and became one of the primary pastimes of the nation's elite. Squash launched a U.S. Open in 1954, but its present boom started in the 1970s when commercial squash clubs took the sport public. In the 1980s a pro tour sprung up to offer tournaments on portable glass courts in dramatic locales such as the Winter Garden at the World Trade Center. James Zug, with access to private archives and interviews with hundreds of players, describes the riveting moments and sweeping historical trends that have shaped the game. He focuses on the biographies of legendary squash personalities: Eleo Sears, the Boston Brahmin who swam in the cold Atlantic before matches; Hashim Khan, the impish founder of the Khan dynasty; Victor Niederhoffer, the son of a Brooklyn cop; and Mark Talbott, a Grateful Dead groupie who traveled the pro circuit sleeping in the back of his pickup. A gripping cultural history, Squash is the book for which all aficionados of this fast-paced, exciting game have been waiting.

Begging for Change Robert Egger,2010-07-06 You are a good person. You are one of the 84 million Americans who volunteer with a charity. You are part of a national donor pool that contributes nearly \$200 billion to good causes every year. But you wonder: Why don't your efforts seem to make a difference? Fifteen years ago, Robert Egger asked himself this same question as he reluctantly climbed aboard a food service truck for a night of volunteering to help serve meals to the homeless. He wondered why there were still people waiting in line for soup in this day and age. Where were the drug counselors, the job trainers, and the support team to help these men and women get off the streets? Why were volunteers buying supplies from grocery stores when restaurants were throwing away unused fresh food every night? Why had politicians, citizens, and local businesses allowed charity to become an end in itself? Why wasn't there an efficient way to solve the problem? Robert knew there had to be a better way. In 1989, he started the D.C. Central Kitchen by collecting unused food from local restaurants, caterers, and hotels and bringing it back to a central location where hot, nutritious meals were prepared and distributed to agencies around the city. Since then, the D.C. Central Kitchen has been named one of President Bush Sr.'s Thousand Points of Light and has become one of the most respected and emulated nonprofit agencies in the world, producing and distributing more than 4,000 meals a day. Its highly successful 12-week job-training program equips former homeless transients and drug addicts with culinary and life skills to gain employment in the restaurant business. In Begging for Change, Robert Egger looks back on his experience and exposes the startling lack of logic, waste, and ineffectiveness he has encountered during his years in the nonprofit sector, and calls for reform of this \$800 billion industry from the inside out. In his entertaining and inimitable way, he weaves stories from his days in music, when he encountered legends such as Sarah Vaughan, Mel Torme, and Iggy Pop, together with stories from his experiences in the hunger movement -- and recently as volunteer interim director to help clean up the beleaguered United Way National Capital Area. He asks for nonprofits to be more innovative and results-driven, for corporate and nonprofit leaders to be more focused and responsible, and for citizens who contribute their time and money to be smarter and more demanding of nonprofits and what they provide in return. Robert's appeal to common sense will resonate with readers who are tired of hearing the same nonprofit fund-raising appeals and pity-based messages. Instead of asking the who and what of giving, he leads the way in asking the how and why in order to move beyond our 19th-century concept of charity, and usher in a 21st-century model of change and reform for nonprofits. Enlightening and provocative, engaging and moving, this book is essential reading for nonprofit managers, corporate leaders, and, most of all, any citizen who has ever cared enough to give of themselves to a worthy cause.

Affective Health and Masculinities in South Africa Hans Reihling,2020-04-03 Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very

distinct urban areas of Cape Town, this comparative ethnography shows that men’s struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African ‘tradition’ that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men’s vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.
