Starting a Pet Hotel Business ARX Reads, Do you love animals? Are you responsible and good at managing your own time? Do you have experience in business, or are you willing to learn? Are you flexible and willing to face different experiences and challenges every day? If you answered yes to these questions, then pet sitting may be a viable career choice for you. In this book, we will talk about brand identity, setting services and prices, creating a website, and other legal and practical steps for the new business owner.

Trust in Technology: A Socio-Technical Perspective Karen Clarke,Gillian Hardstone,Mark Rouncefield,Ian Sommerville,2006-07-07 Computer systems can only deliver benefits if functionality, users and usability are central to their design and deployment. This book encapsulates work done in the DIRC project (Interdisciplinary Research Collaboration in Dependability), bringing together a range of disciplinary approaches - computer science, sociology and software engineering - to produce a socio-technical systems perspective on the issues surrounding trust in technology in complex settings.

Research Anthology on Implementing Sentiment Analysis Across Multiple Disciplines Management Association, Information Resources,2022-06-10 The rise of internet and social media usage in the past couple of decades has presented a very useful tool for many different industries and fields to utilize. With much of the world’s population writing their opinions on various products and services in public online forums, industries can collect this data through various computational tools and methods. These tools and methods, however, are still being perfected in both collection and implementation. Sentiment analysis can be used for many different industries and for many different purposes, which could better business performance and even society. The Research Anthology on Implementing Sentiment Analysis Across Multiple Disciplines discusses the tools, methodologies, applications, and implementation of sentiment analysis across various disciplines and industries such as the pharmaceutical industry, government, and the tourism industry. It further presents emerging technologies and developments within the field of sentiment analysis and opinion mining. Covering topics such as electronic word of mouth (eWOM), public security, and user similarity, this major reference work is a comprehensive resource for computer scientists, IT professionals, AI scientists, business leaders and managers, marketers, advertising agencies, public administrators, government officials, university administrators, libraries, students and faculty of higher education, researchers, and academicians.

Network World ,1996-04-08 For more than 20 years, Network World has been the premier provider of information, intelligence and insight for network and IT executives responsible for the digital nervous systems of large organizations.
