**William Breiby**

Life Insurance for the American Family Ed Kelly, 2008-03 Ed

Kelly is on a mission to help American families. They are grossly underinsured with their current life insurance coverage, and something must be done about it, soon. In this book, Ed exposes the 10 myths that most consumers and their current advisors hold about life insurance. Once these myths are dispelled, then the mothers and fathers, husbands and wives, insurance agents and financial planners can all move on to address the truth about Time Diversification and Tax Diversification. This book is a call for Americans to take responsibility for themselves and the real risks we all face. While most people can think of only one reason to own life insurance (to provide money for a survivor), Ed shows there are actually 1000 reasons to own life insurance, from cradle to grave. Many of these are driven by the tax advantages inherent in a life insurance policy. His mission is to drive you to a better conversation and a better meeting with your financial professional. This book will help you see life insurance from a new philosophical and practical perspective.

**How To Buy Life Insurance** ARX Reads, Life may be like a box of chocolates. But buying life insurance is more like ordering coffee at Starbucks, says Faisa Stafford, CEO, and president of Life Happens, an industry-funded nonprofit that educates consumers about insurance. There are so many options that it's hard to know what to get. "It can be extremely confusing," she says. In fact, confusion over how much and what type of life insurance to buy is one of the top reasons people give for not having life insurance, according to a survey by Life Happens and LIMRA. But the COVID-19 pandemic has been a wake-up call for many Americans, with almost one in three people (31%) reporting they are more likely to buy a policy because of the pandemic, according to the 2021 Insurance Barometer study. If you're considering buying life

insurance but are confused, these 10 tips will help.
