Valentin Haussmann (1565/70-ca. 1614) Robert Burgess Lynn,Klaus-Peter Koch,1997 Valentin Haussmann was a highly regarded composer in his time whose works had great popular appeal and were frequently reprinted, anthologized, and copied in lute or keyboard arrangements. His extensive travels and pioneering spirit led him to search out interesting repertoires, such as Italian villanellas, canzonettas, and balletti which he published with his own German texts, as well as Polish dances which he heard in East Prussia. The main body of this catalogue is organized by musical sources, expanded to include manuscript sources, lost works, works in seventeenth-century collections, works edited by Haussmann with his own German texts, modern manuscript copies, and works by other composers using Haussmann's melodies or texts. Many sources, listed as lost in recent bibliographies, have been located and are included here. Title pages, dedications, laudatory poems, and letters are transcribed in full, and Cantus incipits are provided in musical notation. Additional sections include an Index of First Lines, two indexes of Cantus incipits (one indicating pitches and rhythms, the other interval progression), a listing of works in modern editions, and an extensive bibliography. This catalogue will be a basic research tool for anyone investigating the history of German music at the beginning of the seventeenth century.

Grammar Uses Version for Majority Text-Received Text Gary Gallant,2023-08-25 This translation stems from 30 years of dedication. The source of this translation is the BYZ (Majority Text). We have included variant readings from the Textus Receptus. A better understanding of typing skills is employed to highlight grammar nuances: underlining is used to show the main thought of the writer, bold to emphasize the first word in the sentence, and italics to indicate words not present in the Greek text but are added for better reading. Words in parentheses (brackets) denote prepositions in the Greek text. When referring to God, Christ, or the Holy Spirit, pronouns will be capitalized. For the Received Text, we use '&' to indicate a preposition that belongs to genitive or dative nouns. This Grammar Uses Version of the Received Text has strong numbering and you can purchase the Lexicon for every word used in this translation. This Lexicon is called: Lexicon of the Grammar Uses Version of the Received Text. While Greek is a participle-rich language, this translation will provide only one usage, but the notes will mention other possible translations to offer further alternatives. Nouns and adjectives: Nominatives serve as subjects of the verbs; genitives indicate possession by other nouns; datives function as indirect objects of the verb; and accusatives are direct objects. These are standard interpretations, though exceptions exist as in all languages. Second-person personal pronouns: 'You' (you) when used as the subject corresponds to 'you (singular) and '%you' (plural). For possession, 'your' (singular) and '%your' (plural) are used. As direct objects, 'you' (singular) and '%you' (plural) are employed. Verbs: Greek grammar features six tenses: Present (is doing), Imperfect (was doing), Aorist (which in the notes indicates the past – did), Perfect (have done), Pluperfect (had done), and Future (will/shall do). There are six moods: Indicative (normal), Participle (present: doing; aorist: having done, also future and perfect), Infinitive (present: to be doing; aorist: to have done), Imperative (present: keep doing or stop doing; aorist: do or do not), Subjunctive (present: may do/should be doing; aorist: might do/ should do), and Optative (may do with wishful thinking). Three voices are present: Active, Middle, and Passive. Given Greek's affinity for participles, it's beneficial to grasp their syntactical uses. PARTICIPLES: Time (while: with the present tense; after: with the aorist tense), Means, Manner, Purpose, Result, Cause (because), Concession (although), Substantive, Attendant Circumstance (and), Periphrastic Participle, Indirect Discourse, Adjectival Participle, Redundant (Appositional) Absolute, Genitive Absolute / Nominative Absolute, and Imperative. INFINITIVES: Complementary, Purpose, Result, Causal, Time, Subject, Indirect Discourse, Appositional, Direct Object, and Imperative.

The Guiding Helper: Main Text and Explanatory Notes Abu Qanit al-Sharif al-Hasani,2009-11-24 The Guiding Helper is a practical guide to the Din that the Prophet Muhammad (May Allah bless him and give him peace) brought.The Guiding Helper is based on a famous metered verse song written by a scholar named Ahmad ibn 'Ali ibn 'Abd al-Wahid ibn 'Ashir born in Spain and raised in Fez, Morocco about seven hundred years ago. This scholar divided his song into three books: (1) one about Islamic beliefs, (2) one about Islamic law, and (3) one about Islamic spirituality. He based the first book on a famous text of beliefs called The Mother of Proofs for the Tenets of Belief written by Muhammad ibn Yusuf al-Sunusi al-Husayni. He based his second book on a renown text of Maliki law called The Concise Text written by Khalil Ibn Ishaq ibn Ya'qub. He based his third book on a popular text on spirituality called The Letter of Qushayri written by 'Abd al-Karim al-Qushayri.The Maliki Fiqh is used to describe the practices of Islam.

Digital Pedagogies and the Transformation of Language Education Montebello, Matthew,2021-05-14 Education has undergone numerous radical changes as the digital era has transformed the way we as humans communicate, inform ourselves, purchase goods, and perform other mundane chores at home and at work. Social media is one of those phenomena that has affected not only society at large but has heavily influenced educational processes around the world. The demand for and availability of networked educational services have also increased, enabling online education to gain popularity and become an internationally accessible option. Furthermore, universities and other private higher educational institutions embrace digital technology and have adopted the new learning medium as they realize the prospects of having the world's population as a potential source of revenue. A related phenomenon has been the proliferation of massive open online courses (MOOCs). These have changed the ways in which learners interact with educational institutions, professors, and with each other. At the same time, the upsurge in digital education has raised issues with language as online learners from all over the world and from a plethora of cultures and foreign languages have found themselves challenged to take full advantage and optimally benefit from the same educational media and resources that English-speaking counterparts have tapped into. Digital Pedagogies and the Transformation of Language Education will answer questions of how to optimize language learning in such a defining new era and what the educational, sociological, and technological dimensions of radical change are. The book will explore the different challenges and the multitude of opportunities that new and transformative pedagogies have enabled. Beyond teaching/learning practices being presented, this book also focuses on how learners will adjust to the technology and the readiness of practitioners to psychologically adjust to the changing and demanding media technology has unleashed. The chapters provide international experiences and perspectives on the impact of e-educational technologies on student experience, success, learning, and comprehension in the realm of language learning specifically. This book is essential for educational technologists, online instructional designers, education policymakers and administrators, curriculum developers, practitioners, stakeholders, researchers, academicians, and students who are interested in digital language pedagogies.

Cycle Style Horst A. Friedrichs,2012 An acclaimed photographer introduces the incredible variety of stylish cyclists pedaling through city streets in this stunningly illustrated book. No city boasts of a more fashion-forward population of bicyclists than London. Photographer Horst Friedrichs meets his subjects in their own milieu: zooming around the city's streets on two wheels. There he encounters a dazzling array of style and a surprising amount of substance. In tweeds (both Harris and hipster) and Saville Row suits, in hightops and stilettos, in flowing skirts and the skinniest jeans, wildly tattooed and impeccably manicured, sporting bowler hats and racing caps, London's cyclists are jubilantly exercising their fashion freedom. Whether they're leisurely filling their baskets from market to home or pedaling purposefully to an important meeting, experiencing the city as cycling tourists, or getting from place to place in the most economical way possible, Friedrichs' subjects share a love of the bicycle culture that is sweeping the streets of London and the rest of the world.
