Critical Pedagogy in the Twenty-First Century Curry Malott,Brad J. Porfilio,2011-03-01 This book simultaneously provides multiple analyses of critical pedagogy in the twenty-first century while showcasing the scholarship of this new generation of critical scholar-educators. Needless to say, the writers herein represent just a small subset of a much larger movement for critical transformation and a more humane, less Eurocentric, less paternalistic, less homophobic, less patriarchal, less exploitative, and less violent world. This volume highlights the finding that rigorous critical pedagogical approaches to education, while still marginalized in many contexts, are being used in increasingly more classrooms for the benefit of student learning, contributing, however indirectly, to the larger struggle against the barbarism of industrial, neoliberal, militarized destructiveness. The challenge for critical pedagogy in the twenty-first century, from this point of view, includes contributing to the manifestation of a truly global critical pedagogy that is epistemologically democratic and against human suffering and capitalist exploitation. These rigorous, democratic, critical standards for measuring the value of our scholarship, including this volume of essays, should be the same that we use to critique and transform the larger society in which we live and work.

Baptism Jack Cottrell,1989 Scripture is far from silent on the subject of baptism, yet history is strewn with such a variety of perspectives that it becomes difficult to gain a clear view of what the Bible itself actually has to say: How would the original readers of Acts, Romans, or Colossians have understood the texts concerning baptism when they read them for the very first time? How do readers of today understand the baptismal references of the New Testament if they have no particular commitment to a certain theological point of view? In thirteen chapters, Dr. Cottrell discusses the twelve major texts in the New Testament and does so by examining the meaning of the original words, the historical background, and the comparative references. The texts covered: Matthew 28:18-20, Mark 16:15-16, John 3:3-5, Acts 2:38-39, Acts 22:16, Romans 6:3-4, 1 Corinthians 12:13, Galatians 3:26-27, Ephesians 5:25-27, Colossians 2:11-13, Titus 3:5, 1 Peter 3:21--P. [4] of cover.

Differentiating for Success Mary McMackin,Nancy Witherell,2016-06-16 Creating differentiated instruction is an essential yet time-consuming component of effective teaching. Since students learn at different paces and in different ways, some students may be able to apply a targeted comprehension skill in cognitively complex ways immediately after being taught the skill while other students may need additional scaffolding in order to grasp it. All students, regardless of their skill level, benefit from activities that are at their just right level. This means activities are not too difficult or too easy. In this book, Nancy Witherell and Mary McMackin share easy-to-follow lesson plans that address key reading skills for students in grades 3 to 5. A set of three, tiered, differentiated follow-up activities accompanies each lesson. Fiction and nonfiction mentor text suggestions are included.

Everybody's Classroom Carol Ann Tomlinson,2022 Most people are keenly aware that every student is different and that today's classrooms challenge educators to build safe and successful learning communities comprising students whose races, languages, cultures, experiences, assets, and dreams vary greatly. This book offers K-12 teachers both the foundations for differentiating their instruction and the means to maximize learning opportunities by getting to know students beyond the labels and stereotypes that often accompany them into the classroom. Tomlinson shows how to use "Highways and Exit ramps" to reach the whole class, with "highway" content and "exit ramps" to specialize needs. Chapters offer numerous recommendations for modifying environments, activities, and assessments; for helping teachers move forward in their instructional planning; and for helping each learner grow academically. *Everybody's Classroom* extends Tomlinson's previous work by looking more deeply at specific student populations to help educators create classrooms that are more inclusive than ever before. Chapters cover successful differentiation for English learners; students experiencing poverty; students with different ethnic, cultural, religious, and gender orientations; and students with diverse identified special needs. Book Features: Provides a framework for understanding the scope of differentiation, as opposed to seeing it as a prescribed set of instructional strategies.Shows how to recognize common student needs that cut across student labels, from gifted to traumatized.Offers suggestions for teacher actions based on observation of students and student work.Classroom examples and helpful tables, charts, and graphics.

Krishna's Song Steven J. Rosen,2007-09-30 Rosen offers Westerners an easy-to-read introduction to a sacred text, demystifying its considerable philosophy in a user-friendly way. This is not yet another translation, merely reiterating what the Gita itself has to say. It is rather an attempt to culturally translate the text, making use of concepts and categories to which Western readers are accustomed. By engaging familiar motifs—such as issues of modernity, pop-culture icons, and well-known philosophers in the West—the author brings the Gita into focus for non-specialists and scholars alike. Through a series of contemporary news references and insightful summaries, readers will finally understand the facts and personalities that make up the Bhagavad Gita. Using his many years of Gita-centered research, Rosen unlocks the mysteries of the text's spiritual underpinnings. He provides an overview of the Gita's narrative and teachings alongside documentation of its traditional application and more modern ways in which the text can be understood. Students and scholars alike will rejoice in how well this book lays bare the culture and the context of the Gita, resulting in a reader's deep familiarity with this most sacred of all the world's wisdom texts.

Adapting to E-Books William Miller,Rita Pellen,2013-09-13 This book provides models for acquisitions policies and reports on several surveys of faculty and librarian attitudes toward e-books. It also discusses certain issues in acquiring cataloguing and collection development regarding this important new library resource.

Speaking of Speaking Samuel Meier,2014-09-03 Direct speech appears on nearly every page of the Hebrew Bible, and the large number of publications on direct discourse in the Bible highlights the importance of the subject for biblical studies. However, thus far only isolated aspects of the various problems that direct discourse presents have received attention. Studies of individual verbs introducing direct discourse, such as answer, speak, say, and others are necessarily atomistic, even though appropriate in their own right. Other markers of direct discourse, such as Thus said Yahweh, or oracle of Yahweh, tend to be treated as theological constructs isolated from the larger issues of direct discourse marking in general. *Speaking of Speaking* aims to enrich the reading of the biblical text by offering a coordinated analysis of all such markers, not only in order to consolidate a considerable body of work that is often overlooked by scholars, but also to move further toward a synthesis that can permit informed generalizations not possible at the present time. The comprehensive index facilitates the use of this book as a valuable reference tool. The exegetical, literary, and theological findings of this book will be of great significance for all levels of research in biblical studies.

Linguistic Complexity and Text Comprehension Alice Davison,Georgia M. Green,1988 Standard readability formulas are widely accepted as reliable means of determining text difficulty for readers. This book examines the shortcomings of these formulas, both for professionals who try to use these formulas to match texts with readers and for others who study how language is understood. Language comprehension experts in cognitive psychology, education, and linguistics present alternative viewpoints concerning the issue of effective readability predictors. The long-term result: new questions raised by the research in this book should help to make texts more comprehensible and to provide a theoretically sound model of language processing and interpretation.

A Short Account of the Destruction of the Indies Bartolomé de las Casas,2022-11-01 A Spanish friar documents the brutal treatment of Caribbean natives at the hands of colonial authorities in the sixteenth century. After traveling to the New World, Dominican friar Bartolomé de Las Casas witnessed conquistadors wreak unimaginable horrors upon the Indigenous people of the Caribbean. He later dedicated his life to fighting for their protection. Following numerous failed attempts to reason with authorities in Spain, he chose to document everything he had seen over a span of fifty years and to give it to Spain's Prince Philip II. In A Short Account of the Destruction of the Indies, Las Casas catalogues the atrocities he observed the Spanish colonial authorities inflict upon the native people. He discusses the brutal torture, mass genocide, and enslavement. He passionately pleas for an end to this treatment and for the native peoples to be given basic human rights.
