Post-War Planning on the Periphery Thomas C. Mills,2012-08-06 Explores Anglo-American economic diplomacy in South America during the Second World War. Thomas Mills explores Anglo-American relations in the previously neglected region of South America during the Second World War to add a new dimension to our understanding of the two powers. He shows how these relations followed a very different pattern to the high-level discussions concerning the economic shape of the post-war world that were going on at the same time. In this way, he highlights the need for a more nuanced understanding of the broader process of Anglo-American economic diplomacy. Based on extensive archival research and a thorough knowledge of the secondary literature, this is a major addition to the study of Anglo-American relations in the 20th century.

The Dismantling of the Good Neighbor Policy Bryce Wood,2010-07-22 The Good Neighbor Policy was unique: a great power obligated itself not to use force in its dealings with twenty smaller powers and not to interfere in their domestic politics. It was a policy that lasted, with some perturbations, for

twenty years: instituted by President Roosevelt in 1933 and carried out effectively from 1933 to 1943 by word and action, maintained during the Second World War largely as a result of British concern for continuance of Argentine beef exports, codified in the Charter of the Organization of American States in 1948, and reasserted by Truman and Acheson in 1950–51, it was covertly repudiated in Guatemala in 1954 by Eisenhower and the Dulles brothers, and not so secretly by Kennedy in the disastrous Bay of Pigs invasion of 1961. Openly shattered in the Dominican Republic by Johnson in 1965, it has since been completely abandoned in favor of the usual relationships between large and small powers. Working with documents from the Public Records Office in London and the National Archives, with recently released materials from the U.S. Department of State, and with secondary sources, Bryce Wood describes the temptations laid before the leaders of one powerful state by its occasionally recalcitrant neighbors, and the ways of reacting that were found. Having told half the story in his *The Making of the Good Neighbor Policy*, Wood now concludes it in the present volume. One of the chief casualties is shown to be the Organization of American States, which since 1954 has found itself badly crippled in its work to promote harmony and continued cooperation among the member states.
