Classic Home Video Games, 1972-1984 Brett Weiss,2011-12-20 This reference work provides a comprehensive guide to popular and obscure video games of the 1970s and early 1980s, covering virtually every official United States release for programmable home game consoles of the pre-Nintendo NES era. Included are the following systems: Adventure Vision, APF MP1000, Arcadia 2001, Astrocade, Atari 2600, Atari 5200, Atari 7800, ColecoVision, Fairchild Channel F, Intellivision, Microvision, Odyssey, Odyssey2, RCA Studio II, Telstar Arcade, and Vectrex. Organized alphabetically by console brand, each chapter includes a history and description of the game system, followed by substantive entries for every game released for that console, regardless of when the game was produced. Each video game entry includes publisher/developer information and the release year, along with a detailed description and, frequently, the author's critique. An appendix lists "homebrew" titles that have been created by fans and amateur programmers and are available for download or purchase. Includes glossary, bibliography and index.

In Search of Tunga André Chappatte,2022-11-01 This volume on Muslim life focuses on young male migrants of rural origin who move to build better lives in Bougouni, a provincial town in southwest Mali. Describing themselves as "simply Muslims" and "adventurers," these migrants aim to be both prosperous and good Muslims. Drawing upon seventeen months of fieldwork, author André Chappatte explores their sense of prosperity and piety as they embark on tunga (adventure), a customary search for money and more in a tradition that dates back to the colonial period. In the context of the current global war on terrorism, most studies of Muslim life have focused on the politics of piety of reformist movements, their leaders, and members. By contrast, *In Search of "Tunga"* takes a perspective from below. It opens piety up to "simply Muslims," although the religious elites have always claimed authority and legitimacy over piety. Is piety an exclusive field of experiences for those who claim to strive for it? What does piety involve for the majority of Muslims, the non-elite and unaffiliated Muslims? This volume "democratizes" piety by documenting its practice as going beyond sharply defined religious affiliations and Islamic scholarship, and by showing it is both alive and normative, existential and prescriptive. As opposed to studies that build on the classic historical connections between the Maghreb and the Sahel, the southbound migration from the Sahel documented in this book stresses the overlooked historical connections between the southern shores of the Sahara and the lands south of those shores. It demonstrates how the Malian savanna, this former buffer-zone between ancient Mande kingdoms and thereafter remote areas of French Sudan, is increasingly becoming central in today's Sahel contexts of desiccation and insecurity.

Reading Jewish History in the Renaissance Nadia Zeldes,2020-10-28 Using the Hebrew Book of Josippon as a prism, this study analyzes the dialogue surrounding Jewish history among Renaissance humanists. Notwithstanding its focus on the Renaissance, the author's analysis extends to the consumption of Josippon in the High Middle Ages and into interpretations by sixteenth- and seventeenth-century humanists. With a focus on both Christian and Jewish discourse, the author examines the mythical and historical narratives that developed from Josippon.

**Paratexts** James Gunn,2013-04-18 In the mid-1980s, Easton Press began publishing a series of leather-bound collector editions called "Masterpieces of Science Fiction," and "Masterpieces of Fantasy," which featured some of the most important works in these genres. Author James Gunn was commissioned to write introductions to these works, which allowed him to pay tribute to many authors who inspired and influenced him. In *Paratexts: Introductions to Science Fiction and Fantasy*, Gunn has collected the most significant essays produced for the Easton series, along with prefaces he wrote for reprints of his own novels. Drawing upon Gunn's lifetime of work in the field, these introductions include analyses of the individual works and the fields in which they were written. Gunn also briefly discusses each novel's significance in the science fiction canon. Collected here for the first time, these prefaces and introductions provide readers with insight into more than seventy novels, making *Paratexts* a must read for science fiction and fantasy aficionados.

Beyond Rationalism Bruce Kapferer,2003-02-01 This book seeks a reconsideration of the phenomenon of sorcery and related categories. The contributors to the volume explore the different perspectives on human sociality and social and political constitution that practices typically understood as sorcery, magic and ritual reveal. In doing so the authors are concerned to break away from the dictates of a western externalist rationalist understanding of these phenomena without falling into the trap of mysticism. The articles address a diversity of ethnographic contexts in Africa, Asia, the Pacific and the Americas.

**Charles Johnson's Fiction** William R. Nash,2003 A fearless experimenter and one of the most important contemporary American writers, Charles Johnson challenges separatist politics and tries to get beyond race as a literary category. In *Charles Johnson's Fiction*, William R. Nash emphasizes and explores the tensions in Johnson's work between his ideal of race as illusion and his methods of articulating racial grievance. Nash examines Johnson's short stories, novels--*Faith and the Good Thing*, *Oxherding Tale*, *Middle Passage*, and *Dreamer*--and the nonfiction work *Being and Race*. Tracing the themes of Johnson's political and artistic concerns as they evolved in his work, Nash locates his fascination with the aesthetics of the Black Arts Movement and his dismissal of separatist black politics and racialist thought. He also considers Johnson's adoption of Western and Eastern philosophies and belief that race is a blinding, limiting category that impedes the exploration of individual and collective identity. In formulating a mode of expression that balances the conflicting demands of race and aesthetics, Johnson crafts a new vision of history and African American identity that signifies on a range of black and white literary predecessors, including Zora Neale Hurston, Theodore Dreiser, Ralph Waldo Emerson, Ralph Ellison, James Baldwin, and Herman Melville. Nash argues that Johnson's hybrid philosophy of Buddhism and phenomenology defies the basic premises of identity formation and leads to the perception of a different self. Juxtaposed with jarring storylines of racial injustice, Johnson's notion that race is an illusion informs his aesthetic, promotes his strategies for battling oppression, and reminds readers what African Americans have already overcome in the quest to cultivate new visions of identity. *Charles Johnson's Fiction* also includes eight of Johnson's cartoons published in *Black Humor* and *Half-Past Nation Time* in the early 1970s.

*The Last Laugh* Murray Pomerance,2013-05-15 For critics, fans, and scholars of drama and film, the laugh has traditionally been tied to comedy, indicating and expressing mirth, witty relief, joyous celebration, or arch and sarcastic parody. But strange, dark laughter that illuminates non-comedic, unfunny situations gets much less attention. In *The Last Laugh: Strange Humors of Cinema*, editor Murray Pomerance has assembled contributions from thirteen estimable scholars that address the strange laughter of cinema from varying intellectual perspectives and a wide range of sources. Contributors consider unusual humors in a variety of filmic settings, from the chilling unheard laughter of silent cinema to the ribald and mortal laughter in the work of Orson Welles; the vagaries and nuances of laughter in film noir to the eccentric laughter of science fiction. Essays also look at laughter in many different applications, from the subtle, underlying wit of the thriller *Don't Look Now* to the deeply provocative humor of experimental

film and the unpredictable, shadowy, insightful, and stunning laughter in such films as *Black Swan*, *Henry Fool*, *The Treasure of the Sierra Madre*, *Kiss of Death*, *The Dark Knight*, and *A.I. Artificial Intelligence*. The accessibly written, unique essays in *The Last Laugh* bring a new understanding to the delicate balance, unsettled tensions, and fragility of human affairs depicted by strange humor in film. For scholars of film and readers who love cinema, these essays will be rich and playful inspiration.

*Where Are the Women?* Sarah Tyson,2018-10-16 Philosophy has not just excluded women. It has also been shaped by the exclusion of women. As the field grapples with the reality that sexism is a central problem not just for the demographics of the field but also for how philosophy is practiced, many philosophers have begun to rethink the canon. Yet attempts to broaden European and Anglophone philosophy to include more women in the discipline’s history or to acknowledge alternative traditions will not suffice as long as exclusionary norms remain in place. In *Where Are the Women?*, Sarah Tyson makes a powerful case for how redressing women’s exclusion can make philosophy better. She argues that engagements with historical thinkers typically afforded little authority can transform the field, outlining strategies based on the work of three influential theorists: Genevieve Lloyd, Luce Irigaray, and Michèle Le Doeuff. Following from the possibilities they open up, at once literary, linguistic, psychological, and political, Tyson reclaims two passionate nineteenth-century texts—the Declaration of Sentiments from the 1848 Seneca Falls Convention and Sojourner Truth’s speech at the 1851 Akron, Ohio, Women’s Convention—showing how the demands for equality, rights, and recognition sought in the early women’s movement still pose quandaries for contemporary philosophy, feminism, and politics. *Where Are the Women?* challenges us to confront the reality that women’s exclusion from philosophy has been an ongoing project and to become more critical both of how we see existing injustices and of how we address them.

**Transparency and Conspiracy** Harry G. West,Todd Sanders,2003-04-17 Transparency has, in recent years, become a watchword for good governance. Policymakers and analysts alike evaluate political and economic institutions—courts, corporations, nation-states—according to the transparency of their operating procedures. With the dawn of the New World Order and the “mutual veil dropping” of the post-Cold War era, many have asserted that power in our contemporary world is more transparent than ever. Yet from the perspective of the relatively less privileged, the operation of power often appears opaque and unpredictable. Through vivid ethnographic analyses, *Transparency and Conspiracy* examines a vast range of expressions of the popular suspicion of power—including forms of shamanism, sorcery, conspiracy theory, and urban legends—illuminating them as ways of making sense of the world in the midst of tumultuous and uneven processes of modernization. In this collection leading anthropologists reveal the variations and commonalities in conspiratorial thinking or occult cosmologies around the globe—in Korea, Tanzania, Mozambique, New York City, Indonesia, Mongolia, Nigeria, and Orange County, California. The contributors chronicle how people express profound suspicions of the United Nations, the state, political parties, police, courts, international financial institutions, banks, traders and shopkeepers, media, churches, intellectuals, and the wealthy. Rather than focusing on the veracity of these convictions, *Transparency and Conspiracy* investigates who believes what and why. It makes a compelling argument against the dismissal of conspiracy theories and occult cosmologies as antimodern, irrational oversimplifications, showing how these beliefs render the world more complex by calling attention to its contradictions and proposing alternative ways of understanding it.
