12 Cups of Coffee Dave Goossen,2008-04 Jamie has got it made. A great apartment, an excellent job flying all over the world selling something he would rather not talk about - accounting software. When he comes home to Seattle, the love of his life is waiting for him - a mint condition 1972 Faema one group espresso machine. Jamie loves coffee. Good coffee. Really good coffee. Oh, and he lives with a great girl named Ellen who loves him for exactly who he is. Except Jamie is rarely who he says he is. Jamie gives everyone in his life exactly what they want to see - Sensitive Boyfriend, Caring Son, Crazy Friend, Brilliant Salesguy - but only lets the real Jamie out over coffee with strangers...who he will never see again. The only trouble is as Jamie tries to make sense of his life, one espresso at a time, everyone else seems to be getting on with theirs. Funny and fearlessly self-reflective, the book perks along and makes readers thirsty for more.

Accounting Information Systems Arline A. Savage, Danielle Brannock, Alicja Foksinska,2022-03-09 Accounting Information Systems, 1st Edition by Arline Savage, Danielle Brannock, and Alicja Foksinska presents a modern, professional perspective that develops the necessary skills students need to be the accountants of the future. Through high-quality assessment and integrated homework, students learn course concepts more efficiently and understand how course concepts are applied in the workplace through real-world application. Accounting Information Systems also focuses on helping students learn how to make informed business decisions through case-based learning and data analysis applications. Students work through Julia's Cookies, a flexible, running case that helps them understand how various systems come together to support a business, and how those systems evolve. Students also develop a critical thinking mindset by working through integrated analysis questions that take a tool-agnostic approach, as well as Tableau cases so students can practice making real business decisions using leading technology. To further help prepare students to be the accountants of the future, the authors incorporate their own industry experience and help showcase how AIS concepts are used through resources including Sample LinkedIn Job Posts and the Featured Professionals video series. These tools spotlight real accounting professionals and job opportunities, while connecting to chapter material, allowing student to see how what they're learning applies to business, as well as visualize the different paths AIS can take them.

Adolescent Nutrition Yolanda N. Evans,Alicia Dixon Docter,2020-09-21 Adolescents have unique nutritional needs when compared to young children and adults. As youth go through physical, cognitive, and behavioral development, nutrition needs are dynamic and changing. If these needs go undetected and remain unaddressed, the results can derail physical and social maturation and include life-long effects on health. This comprehensive text offers a multidisciplinary perspective on aspects of adolescent nutrition. Using clinical cases, it covers relevant topics related to adolescent health including normal development, chronic health conditions, and complex biopsychosocial dynamics, among others. The first section of the text contains an overview of adolescent nutrition that is further broken down into more specific topics such as developmental nutrition needs, needs of active youth and athletes and media influences on body image. The next section focuses on health disparities such as culturally appropriate care, health equity, international considerations and food insecurity. The following section specifically addresses eating disorders ranging from anorexia and bulimia to binge eating. Finally, the last section covers additional health considerations such as polycystic ovarian syndrome, teen pregnancy, substance use and gender non-conforming youth. Written by experts in the field, this book is a helpful resource for primary care medical providers, registered dietitians/nutritionists (RDN), adolescent medicine specialists, as well as advanced practice nurses, physician assistants, psychologists, licensed social workers, and certified athletic trainers.

Dostoyevsky spent nearly two years writing The Brothers Karamazov, which was published as a serial in The Russian Messenger and completed in November 1880. The author died less than four months after its publication. The Brothers Karamazov is a passionate philosophical
