Business Model Innovation Strategy Raphael Amit, Christoph Zott, 2020-10-13 The most comprehensive, global guide to business model design and innovation for academic and business audiences. Business Model Innovation Strategy: Transformational Concepts and Tools for Entrepreneurial Leaders is centered on a timely, mission-critical strategic issue that both founders of new firms and senior managers of incumbent firms globally need to address as they reimagine their firms in the post COVID-19 world. The book, which draws on over 20 years of the authors collaborative theoretical and rigorous empirical research, has a pragmatic orientation and is filled with examples and illustrations from around the world. This action-oriented book provides leaders with a rigorous and detailed guide to the design and implementation of innovative, and scalable business models for their companies. Faculty and students can use Business Model Innovation Strategy as a textbook in undergraduate, MBA, and EMBA degree courses as well as in executive courses of various designs and lengths. The content of the book has been tested in both degree and non-degree courses at some of the world's leading business schools and has helped students and firm leaders to develop ground-breaking business model innovations. This book will help you: Learn the basics of business model innovation including the latest developments in the field Learn how business model innovation presents new and profitable business opportunities in industries that were considered all but immune to attacks from newcomers Learn how to determine the viability of your current business model Explore new possibilities for value creation by redesigning your firm's business model Receive practical, step-by-step guidance on how to introduce business model innovation in your own company Become well-versed in an important area of business strategy and entrepreneurship Authors Amit and Zott anchored the book on their pioneering research and extensive scholarly and practitioner-oriented publications on the design, implementation, and performance implications of innovative business models. They are the most widely cited researchers in the field of business model innovation, and they teach at the top-ranked Wharton School of the University of Pennsylvania and the prestigious global business school IESE with campuses in Barcelona, Madrid, Munich, New York, and São Paulo.

Triboelectric Nanogenerators Zhong Lin Wang, Long Lin, Jun Chen, Simiao Niu, Yunlong Zi, 2016-08-17 This book introduces an innovative and high-efficiency technology for mechanical energy harvesting. The book covers the history and development of triboelectric nanogenerators, basic structures, working principles, performance characterization, and potential applications. It is divided into three parts: Part A illustrates the fundamental working modes of triboelectric nanogenerators with their prototype structures and theoretical analysis; Part B and Part C introduce two categories of applications, namely self-powered systems and self-powered active sensors. The book will be an ideal guide to scientists and engineers beginning to study triboelectric nanogenerators or wishing to deepen their knowledge of the field. Readers will be able to place the technical details about this technology in context, and acquire the necessary skills to reproduce the experimental setups for fabrication and measurement.

Understanding Uniqueness and Diversity in Child and Adolescent Mental Health Matthew Hodes, Susan Shur-Fen Gau, Petrus De Vries, 2018-06-08 Understanding Uniqueness and Diversity in Child and Adolescent Mental Health examines the determinates of individual differences in children and young people, along with the origins of maladjustment and psychiatric disorders. It addresses the ways in which interventions and mental health services can be developed and shaped to address individual differences amongst children. Topics cover the influence of economic adversities and gender differences on child development and life course, as well as the range of risk and protective factors associated with the onset and persistence of problems, including sections on anxiety disorders in infants, bipolar disorder, and tics and Tourette's. Additional sections focus on the potential for individualizing treatments as illustrated by pharmacogenomics, with another highlighting ways in which services can be adapted for specific environments, such as the needs of refugee children and systems of service delivery that can be enhanced by the use of telemedicine. Emphasizes the social and environmental influences on child and adolescent mental health Focuses on early developmental and infancy processes Addresses the training of child and adolescent psychiatrists across Europe Covers a range of illustrative psychiatric disorders and problems Forwards a goal of producing a mental health workforce with internationally recognized competencies

The Milan System for Reporting Salivary Gland Cytopathology William C. Faquin,Esther Diana Rossi,Zubair Baloch,Güliz A. Barkan,Maria P. Foschini,Daniel F.I. Kurtycz,Marc Pusztaszeri,Philippe Vielh,2018-01-31 This volume describes a uniform international approach for classifying and reporting salivary gland FNA samples. The new reporting system is evidence-based using data from the literature as well as upon the experience of a multi-disciplinary group of leading experts involved in the field of salivary gland cytopathology. Each diagnostic category of this novel salivary gland reporting system includes detailed descriptions of the cytologic criteria as well as a comprehensive set of photomicrographs demonstrating all of the key microscopic features along with annotated descriptions for each image. Designed as a practical book with easy readability, The Milan System for Reporting Salivary Gland Cytopathology combines the high-quality images of an atlas with a logical approach described in concise text-form and in line-drawing algorithms. It presents for the first time, an international cytologic reporting system for salivary gland lesions designed and endorsed by a panel of experts in the field.

Nanomaterials for 2D and 3D Printing Shlomo Magdassi,Alexander Kamyshny,2017-06-06 The first book to paint a complete picture of the challenges of processing functional nanomaterials for printed electronics devices, and additive manufacturing fabrication processes. Following an introduction to printed electronics, the book focuses on various functional nanomaterials available, including conducting, semi-conducting, dielectric, polymeric, ceramic and tailored nanomaterials. Subsequent sections cover the preparation and characterization of such materials along with their formulation and preparation as inkjet inks, as well as a selection of applications. These include printed interconnects, passive and active modules, as well as such high-tech devices as solar cells, transparent electrodes, displays, touch screens, sensors, RFID tags and 3D objects. The book concludes with a look at the future for printed nanomaterials. For all those working in the field of printed electronics, from entrants to specialized researchers, in a number of disciplines ranging from chemistry and materials science to engineering and manufacturing, in both academia and industry.

The American Practical Navigator Vol 2 Nathaniel Bowditch,National Agency,2017-12-18 This is the completely NEW EDITION of The American Practical Navigator Vol 2. I am honored to welcome you to the 2017 edition of Publication No. 9, The American Practical Navigator, or as most mariners refer to it, Bowditch. As a young Surface Warfare Officer serving in my first ship, I quickly learned Bowditch should be my first resource for all things related to navigation, oceanography and meteorology. I never imagined that 25 years later, I would be privileged to lead the team entrusted with updating this incredible document. One can hardly imagine the time, effort, and pressure involved in undertaking such a task--this is Bowditch, after all. None of us alone can equal the talent, experience and skill of Nathaniel Bowditch, as expressed in his first edition of 1802. As a result, this edition is the outcome of countless hours of hard work by many dedicated, passionate, and skilled colleagues from a variety of disciplines. And it was this team of scientific and operational navigation experts, led by Dr. Jerry Clifford, which has created this contemporary edition that stands ready to address the challenges faced by today's navigators and mariners. Please take the time to read the long list of contributors to this edition, I know you will be impressed by the depth and quality of our team. Since the last edition, there have been huge advancements in positioning methodologies and navigation systems. In some cases, what was old is new again, so we focused considerable effort into improving the celestial navigation and piloting chapters. Hand-plotting latent fixes on paper charts has been overtaken by Electronic Chart Display and Information Systems that continuously tell you where you are, provide warnings when standing into danger, and display radar and Automatic Identification System information to heighten situational awareness. Older graphics have been replaced by newer, higher resolution images to better illustrate the purpose of the text. Needless to say, we are justifiably proud of this 2017 edition and equally honored to continue such a noteworthy legacy of the navigational expertise first introduced by Nathaniel Bowditch 215 years ago. Wherever you may sail, I trust this fine resource will assure your safe passage. I wish you all fair winds and following seas. CAPT Brian D.
