Law of Attraction Paul Kain,2016-11-12 The law of attraction is one of the fundamental laws that govern our universe, it is one of the most influential and it directly influences our lives. The law means that like attracts like, and because the universe is made up of vibrations and energies, that is what will manifest. This happens whether we want it to or not, so it is really in our best interest to learn how to make it work in our favor. Learning to control your thoughts and emotions will increase your positive vibration energy which will lead to attracting circumstances and people that will help you manifest your dreams. What You'll Learn What is the Law of Attraction? The Power of Positive Thinking How to Manifest your Dreams The 14 Universal Laws And Much More....

The Law of Attraction Craig Beck,2017-02-26 The Law of Attraction can easily be understood by becoming aware that 'like attracts like' or putting it another way 'you get back what you give out'. Sounds simple, but how do you make it an automatic part of your being? An essential component of the Law of Attraction is realizing that where you fix your attention can have a powerful impact on

what happens to you. However, despite what you may have been told your ability to manifest the life of your dreams has nothing to do with positive thinking and affirmations. Think anything you want but unless you believe it, you will not be sending the right vibrations out into the universe to have it appear. You see, everything in the world is just energy vibrating at different frequencies. The sports car you want is just the same as you, a collection of atomic particles fluctuating at a precise frequency to generate it's physical form. If you want the sports car in your life you simply have to send out the intention resonating at the exact same frequency. You may be wondering if this is all true then why do so many people continue to suffer with poverty, lack and want. Most people simply dismiss this theory as 'new age mumbo jumbo', but this is a law and just like any other it doesn't care whether you believe or not. The law of gravity applies its force on you regardless of what you believe and so does the law of attraction. Even though there is a great deal of value to even merely finding out what the Law of Attraction is, this profound book takes you to an advanced level of understanding. In short, if you implement everything you read in this book your life will change more positively and dramatically than you may have ever believed possible. You will come to be more attentive to underlying negativity and can begin to combat it with new beliefs and sensations that better reflect your constructive vision of the upcoming future. This ongoing focus on self-reflection also allows you to start seeing what you really want from your life, and you can then advance to developing clearer objectives with actionable steps at every stage. Broken down into seven powerful chapters, each dealing with an important area of your life. This book has the power to deliver the life of your dreams but remember whether you believe that claim or not, you are right!
