PUBLIC LIBRARY OF CINCINNATI AND HAMILTON COUNTY

📖 **THOMAS MANN’S THE MAGIC MOUNTAIN** RODNEY SYMINGTON,2011-09-22 Thomas Mann’s novel The Magic Mountain presents a panorama of European society in the first two decades of the 20th century and depicts the philosophical and metaphysical dilemmas facing people in the modern age. In the years leading up to the First World War, the fundamental elements of human nature were thrown into sharp relief by the political tensions that resulted in the ultimate metaphor for the innate destructiveness of humankind: the War itself. If such a war is the true expression of human tendencies, what hope is there for the future? Through the figure of the main character of the novel, Thomas Mann explores the alternative philosophies of life available to human beings in the modern age, and invites the reader to undertake a personal odyssey of discovery, with a view to adopting a positive approach in an era that seems to offer no clear-cut answers. This book is a comprehensive commentary on Thomas Mann’s seminal novel, one of the key literary artefacts of the 20th century. The author has taken upon himself the task of explaining all the references and allusions contained in the novel, and of providing readers who know little or no German with enough explanatory comment to enable them to understand the novel and extract the maximum reading pleasure from it.

📖 **THOMAS DUNCKERLEY AND ENGLISH FREEMASONRY** SUSAN MITCHELL SOMMERS,2015-10-06 Thomas Dunckerley is a late eighteenth-century icon of British Freemasonry. In one of the first books to provide a scholarly study of English Freemasonry, Sommers uses Dunckerley’s case to examine the changeable nature of personal identity in the eighteenth century and the evolving methodology and expectations of biography.

📖 **SAPIENTIA ASTROLOGICA: ASTROLOGY, MAGIC AND NATURAL KNOWLEDGE, CA. 1250-1800** H DARREL RUTKIN,2019-04-24 This book explores the changing perspective of astrology from the Middle Ages to the Early Modern Era. It introduces a framework for understanding both its former centrality and its later removal from legitimate knowledge and practice. The discussion reconstructs the changing roles of astrology in Western science, theology, and culture from 1250 to 1500. The author considers both the how and the why. He analyzes and integrates a broad range of sources. This analysis shows that the history of astrology—in particular, the story of the protracted criticism and ultimate removal of astrology from the realm of legitimate knowledge and practice—is crucial for fully understanding the transition from premodern Aristotelian-Ptolemaic natural philosophy to modern Newtonian science. This removal, the author argues, was neither obvious nor unproblematic. Astrology was not some sort of magical nebulous hodge-podge of beliefs. Rather, astrology emerged in the 13th century as a richly mathematical system that served to integrate astronomy and natural philosophy, precisely the aim of the “New Science” of the 17th century. As such, it becomes a fundamentally important historical question to determine why this promising astrological synthesis was rejected in favor of a rather different mathematical natural philosophy—and one with a very different causal structure than Aristotle’s.

📖 **MANN’S MAGIC MOUNTAIN** KAROLINA WATROBA,2022-10-06 This is the first study of Thomas Mann’s landmark German modernist novel Der Zauberberg (The Magic Mountain, 1924) that takes as its starting point the interest in Mann’s book shown by non-academic readers. It is also a case study in a cluster of issues central to the interrelated fields of transnational German studies, global modernism studies, comparative literature, and reception theory: it addresses the global circulation of German modernism, popular afterlives of a canonical work, access to cultural participation, relationship between so-called ‘high-brow’ and ‘low-brow’ culture, and the limitations of traditional academic reading practices. The study intervenes in these discussions by developing a critical practice termed ‘closer reading’ and positioning it within the framework of world literature studies. Mann’s Magic Mountain centres around nine comparative readings of five novels, three films, and one short story conceived as responses to The Magic Mountain. These works provide access to distinct readings of Mann’s text on three levels: they function as records of their authors’ reading of Mann, provide insights into broader culturally and historically specific interpretations of the novel, and feature portrayals of fictional readers of The Magic Mountain. These nine case studies are contextualized, complemented, enhanced, and expanded through references to hundreds of other diverse sources that testify to a lively engagement with The Magic Mountain outside of academic scholarship, including journalistic reviews, discussions on internet fora and blogs, personal essays and memoirs, Mann’s fan mail and his replies to it, publishing advertisements, and marketing brochures from Davos, where the novel is set.

📖 **MAGIC IN MALTA: SELLEM BIN AL-SHEIKH MANSUR AND THE ROMAN INQUISITION, 1605** DIONYSIUS A. AGIUS,ALEXANDER MALLETT,CATHERINE RIDER,2022-06-27 In this volume, a microhistorical approach is employed to provide a transcription, translation, and case-study of the proceedings (written in Latin, Italian and Arabic) of the Roman Inquisition on Malta’s 1605 trial of the ‘Moorish’ slave Sellem Bin al-Sheikh Mansur, who was accused and found guilty of practising magic and teaching it to the local Christians. Through both a detailed commentary and individual case-studies, it assesses what these proceedings reflect about religion, society, and politics both on Malta and more widely across the Mediterranean in the early 17th century. In so doing, this inter- and multi-disciplinary project speaks to a wide range of subjects, including magic, Christian-Muslim relations, slavery, Maltese social history, Mediterranean history, and the Roman Inquisition. It will be of interest to both students and researchers who study any of these subjects, and will help demonstrate the richness and potential of the documents in the Maltese archives. 📖 **BINDING WORDS** DON C. SKEMER,2010-11-01 In the Middle Ages, textual amulets--short texts written on parchment or paper and worn on the body--were thought to protect the bearer against enemies, to heal afflictions caused by demonic invasions, and to bring the wearer good fortune. In Binding Words, Don C. Skemer provides the first book-length study of this once-common means of harnessing the magical power of words. Textual amulets were a unique source of empowerment, promising the believer safe passage through a precarious world by means of an ever-changing mix of scriptural quotations, divine names, common prayers, and liturgical formulas. Although theologians and canon lawyers frequently derided textual amulets as ignorant superstition, many literate clergy played a central role in producing and disseminating them. The texts were, in turn, embraced by a broad cross-section of Western Europe. Saints and parish priests, physicians and village healers, landowners and peasants alike believed in their efficacy. Skemer offers careful analysis of several dozen surviving textual amulets along with other contemporary medieval source materials. In the process, Binding Words enriches our understanding of popular religion and magic in everyday medieval life.

📖 **MAKING MAGIC IN ELIZABETHAN ENGLAND** FRANK KLAASSEN,2019-12-11 This volume presents editions of two fascinating anonymous and untitled manuscripts of magic produced in Elizabethan England: the Antiphoner Notebook and the Boxgrove Manual. Frank Klaassen uses these texts, which he argues are representative of the overwhelming majority of magical practitioners, to explain how magic changed during this period and why these developments were crucial to the formation of modern magic. The Boxgrove Manual is a work of learned ritual magic that synthesizes material from Henry Cornelius Agrippa, the Fourth Book of Occult Philosophy, Heptameron, and various medieval conjuring works. The Antiphoner Notebook concerns the common magic of treasure hunting, healing, and protection, blending medieval conjuring and charm literature with materials drawn from Reginald Scot’s famous anti-magic work, Discoverie of Witchcraft. Klaassen painstakingly traces how the scribes who created these two manuscripts adapted and transformed their original sources. In so doing, he demonstrates the varied and subtle ways in which the Renaissance, the Reformation, new currents in science, the birth of printing, and vernacularization changed the practice of magic. Illuminating the processes by which two sixteenth-century English scribes went about making a book of magic, this volume provides insight into the wider intellectual culture surrounding the practice of magic in the early modern period.
