The Things They Carried Tim O'Brien, 2009-10-13 Look for O'Brien's new book, *American Fantastica*, on sale October 24th A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. *The Things They Carried* depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

Bud, Not Buddy Christopher Paul Curtis, 2001-11-13 Hit the road with Bud in this Newbery Medal and Coretta Scott King Award-winning classic about a boy on a journey to find his father—from Christopher Paul Curtis, author of *The Watsons Go To Birmingham—1963*, a Newbery and Coretta Scott King Honoree. It's 1936, in Flint Michigan. Times may be hard, and ten-year-old Bud may be a motherless boy on the run, but Bud's got a few things going for him: 1. He has his own suitcase full of special things. 2. He's the author of *Bud Caldwell's Rules and Things for Having a Funner Life and Making a Better Liar Out of Yourself*. 3. His momma never told him who his father was, but she left a clue: flyers advertising Herman E. Calloway and his famous band, the Dusky Devastators of the Depression!!!!!! Bud's got an idea that those flyers will lead him to his father. Once he decides to hit the road to find this mystery man, nothing can stop him—not hunger, not fear, not vampires, not even Herman E. Calloway himself. “[A] powerfully felt novel.” —The New York Times

Carter Reads the Newspaper Deborah Hopkinson, 2020-08-04 Carter G. Woodson didn't just read history. He changed it. As the father of Black History Month, he spent his life introducing others to the history of his people. Carter G. Woodson was born to two formerly enslaved people ten years after the end of the Civil War. Though his father could not read, he believed in being an informed citizen, so he asked Carter to read the newspaper to him every day. As a teenager, Carter went to work in the coal

mines, and there he met Oliver Jones, who did something important: he asked Carter not only to read to him and the other miners, but also research and find more information on the subjects that interested them. My interest in penetrating the past of my people was deepened, Carter wrote. His journey would take him many more years, traveling around the world and transforming the way people thought about history. From an award-winning team of author Deborah Hopkinson and illustrator Don Tate, this first-ever picture book biography of Carter G. Woodson emphasizes the importance of pursuing curiosity and encouraging a hunger for knowledge of stories and histories that have not been told. Back matter includes author and illustrator notes and brief biological sketches of important figures from African and African American history.

The Nuclear Age Tim O'Brien, 1993-06 The Nuclear Age is about one man's slightly insane attempt to come to terms with a dilemma that confronts us all -- a little thing called The Bomb. The year is 1995, and William Cowling has finally found the courage to meet his fears head-on. Cowling's courage takes the form of a hole that he begins digging in his backyard in an effort to bury all thoughts of the apocalypse. Cowling's wife, however, is ready to leave him; his daughter has taken to calling him nutto; and Cowling's own checkered past seems to be rising out of the crater taking shape on his lawn, besieging him with flashbacks and memories of a life that's had more than its share of turmoil.

Brilliantly interweaving his masterful storytelling powers with dark, surreal humor and empathy for characters caught in circumstances beyond their control, Tim O'Brien brings us his most entertaining novel to date. At once wildly comic and sneakily profound, *The Nuclear Age* is also utterly unforgettable.

The Fundamentals of Figure Drawing Barrington Barber, 2017-06-13 The ability to draw the human form accurately and competently is a primary goal for many aspiring artists, despite the current trend in the art establishment away from figurative subjects. The book is intended for anyone who wants to discover every aspect of what for centuries was regarded as the real test of an artist's mettle. Renowned teacher and artist Barrington Barber begins his exploration with anatomy, an understanding which is vital if the artist is to handle form and translate what he sees into a believable representation of life. He goes on to look at the whole figure: clothed, drawn from life, in action and in detail. Supported by sections on composition, styles and a step-by-step guide to a final composition, he has once again achieved a brilliantly inspirational art book. Comprehensive, easy to follow and packed with over 300 of Barrington Barber's illustrations, *The Fundamentals of Figure Drawing* is a must for artists

of all abilities.
